Real Estate Webmasters Lands On The Technology Fast 500 Once Again

Nanaimo, BC, Nov 16, 2016 - Today Deloitte released the 2016 Technology Fast 500, an annual ranking of the fastest growing North American companies in the technology, media, telecommunications, life sciences, and energy tech sectors.

In this year's ranking Real Estate Webmasters was #481 with a growth rate of 127% throughout the past year. In previous years Real Estate Webmasters was ranked 339 (2015). Over the last year REW has had significant growth, opening a new Enterprise office in Vancouver's Canada Place.

Awardees are selected for this honor based on percentage fiscal year revenue growth from 2012 to 2015. Overall, 2016 Technology Fast 500 companies achieved revenue growth ranging from 121 percent to 66,661 percent in the 2012 to 2015 time frame, with a median growth of 290 percent.

"Our personal and professional lives are shifting in response to new technologies and business models that are changing the way we work and live," said Sandra Shirai, principal, Deloitte Consulting LLP and US Technology, Media, and Telecommunications leader. "The 2016 Technology Fast 500 winners are supporting this shift by creating experiences for their customers, surpassing expected possibilities, and helping to envision even more effective and ingenious solutions. That means taking risks, encouraging experimentation, and embracing transformation."

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least \$50,000 USD, and current-year operating revenues of at least \$5 million USD. Additionally, companies must be in business for a minimum of four years, and be headquartered within North America.

This ranking is compiled from nominations submitted directly to the Technology Fast 500 website, and public company database research conducted by Deloitte LLP.

About Real Estate Webmasters:

Real Estate Webmasters, founded in 2004 by Morgan Carey, is the world's largest custom technology provider serving real estate professionals across North America and beyond. REW offers end-to-end technology solutions for real estate companies, franchises, teams and agents, including custom and semi-custom websites, marketing tools, lead management (SEO and PPC on Expert Level), CRMs and consulting services.

Some of the most successful real estate professionals in the United States and Canada are trusting and using REW's solutions, therefore billions of dollars in annual real estate sales are powered by REW's technology. The company's corporate headquarter is located in Nanaimo, British Columbia on beautiful Vancouver Island, where the majority of REW's 150 employees live and work.
