Dear Mr. Kyung Won,

I too am sorry I didn't write you sooner. Last night I receive your letter, as always you seem very busy even in your vacation time. I wonder some times how you, Mr. Jay Yoo and others find so much energy to stay so active, it seem comparing my prison life with yours I have easy life, it's like that because as inmate I'm given no responsibility to lead my daily life only responsibility I have is what I place up-on myself, which I'm not very good since I'm lazy person, but I'm sure when free I would very active within my life since alot of responsibility will be there and will be big change from this easy life to road in taking care of myself on outside.

I was glad to hear about active role Mr. Byong Long has play on my case, last night I ~~wrote~~ writ him thank-you letter and inform him you will be sending him my autobiography. I was sad to hear about Mr. Yung Min Kim case and his about to ^{be} sentence to prison for crime he didn't commit. as you written me Mr. Yung Min is college professor and I was thinking to myself what good it would do for free society to ^{send} a man of his such high statue to prison?

The reason I say nothing of Mr. Rue is, he may be testify on my behalf doing my trial and it's good idea to say nothing of his personal interest and involvement on my case or with the

committee because D.A. may ^{good} try to disqualify him as Dr., however it's ^{good} he is keeping you and others inform I am fine ~~am~~ and in good spirit.

As you and everyone is seeing with many hours of hard work and support everyone is given me the court is given more consideration to my writ of habeas corpus, I have much to be more thankful to everyone. I will keep in mind what you say about, we must build blocks on blocks day by day, week after week.

You must be wondering how I'm, well I feel great about way everything is and feel stronger tie to people I have meet over the months and feel great towards to people I see more as brothers and sisters. Also I been staying out of all hassle with officers.

Well please keep me inform how is my petition is coming in ~~Sac~~ Sacramento and a copy of articles you write for union.

Yours Truly
F. J. 4

P.S.

if I'm not imposing on you too much can you put in a subscription to Sacramento Union for me to receive Union newspaper daily? because newspaper does keep me more aware of whats going on outside world. to me one again more from reading news than just hearing it on the T.V. news.
