dear choi soo, this is Nov. 13. today, ix and magagnini were to visit with you at Tracy with Tauman, but about 930 a. m. Tauman's secretary called to say we can't make it today because Tauman had to be in court this afternoon.

Maybe we can make it thursday p. m. (I will call tauman about 5 p. m. today to check with him for another time.)

I met Dr. Rue sunday. he said he can't make it friday with you because he had to attend a faculty meeting etc. things appear to be happening. We are trying to come up with another good stuff this coming sunday, the day before Nov. 20, Monday, the day both sides must appear before Judge Karlton.

I am enclosing a couple clippings.

(Maybe this week, come to think of it, we ~~gWxtx~~ may not have time to see you since we are working on a hot story about the Tak case for Sunday's edigtion..)

Thsi coming Monday, Judge Karlton may decide the whole thing, but as you might know, the defense team is going to come up with big stuff. So things will change, for the better, before the Judge makes a decision. let's hope so.

(in case, we can see you this week, I would like to ask questions along the line of how you feel after 5 years in prison for the crime you didn't commit, your comment on the community support, prison conditions, and, more specifically, ~~mmx~~ comment on a number of questions raised by people about the Shinatown case: such as why you were carrying .357 magnum (altho i know a lot of kids then were carrying guns in chinatown-- this is the question a lot of people were asking me about); more about people and shops and bars and restaurants in that area where you ~~kmmwx~~ were known personally by people there; or anything you might help shed light on the mystery. i am more and more convinced police really screwed up their investigation on tak killing.
..keep your cool. see you soon. k. w.
