

Concept Paper

BAHSES Athlete Club (BAC)

The club is designed to provide staff and clients a structured program to develop and maintain a quality of health, stress reduction and mental wellness.

The Club will be the for-profit-all of BAHSES. This will allow the organization to raise funds outside of the funding sources. The BAC staff will be part of the BAHSES organization, but their support will be generated by the selling of services and goods.

The early intervention clients from other BAHSES programing will be allowed to use this service to support their intervention regimen.
