RE: Henry (Chip) Chambers

Dear Members of the Academic Review Committee:

It gives me great pleasure to write a letter of reference for Henry (Chip) Chambers, M.D. who is under evaluation for an appointment as an Assistant Professor in Residence at the University of California, San Francisco. I have worked with Dr. Chambers on and off over the last five years including time spent with him when he was a Chief Resident, an Infectious Disease Fellow and now as a Faculty Colleague within the Division of Infectious Diseases. Dr. Chambers is outstanding. He has a no-nonsense, dynamic, and high energy approach to teaching and learning that keeps everyone on their toes. Dr. Chambers has amassed a wealth of intellectual knowledge on a broad variety of topics both in internal medicine and infectious diseases and has learned how to impart them to others in a comprehensive manner. He asks sophisticated, succinct, challenging and relevant questions for research investigation. His clinical skills are well recognized and his obvious enthusiasm for clinical medicine makes it a pleasure to work with him. It is not so usual to be able to combine a love for clinical medicine with the intellectual needs and perseverance required for investigative research. Dr. Chambers has managed to combine the two admirably and serves rather as a role model in that capacity for house officers contemplating how to manage their own careers.

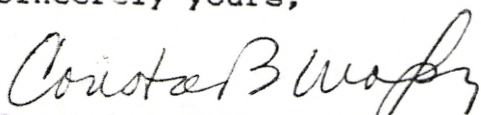

To: Academic Review Committee

Page 2

In short, Dr. Chambers is an outstanding physician, a fine human being, an amiable person and an excellent teacher, who approaches all of his roles with enthusiasm and understanding. It is a great pleasure to give him the highest recommendation for appointment to Assistant Professor in Residence at the University of California.

Should there be further questions, you are free to contact me, and I have no objection should Dr. Chambers choose to review this letter.

Sincerely yours,

A handwritten signature in cursive script, reading "Constance Wofsy".

Dear Constance,

First, let me thank you for your contribution to the success of the AIDS antibody pretest videotape. Rave reviews!

This note will confirm our agreement that you will speak to the question "Should I take the AIDS Antibody Test?" at a public forum sponsored by the S.F.AIDS Foundation on Tuesday, July 30 at 8 P.M. The forum will be held at Cole Hall in the Medical Sciences building, U.C. Medical Center, 513 Parnassus.

You will be one of four panelists talking about the test and the Alternative Test Site program. Each speaker is being asked to limit their presentations to no more than 10 minutes. A question and answer period follows the panelists' remarks.

Thank you in advance for your participation. If you have any questions about format or procedure, please telephone Nancy Shaw, the Forum moderator, at the Foundation (863-4376).

Sincerely,

A handwritten signature in cursive script that reads "Ron Baker". The signature is written in dark ink and has a long, sweeping horizontal line extending to the right.

Dear Connie,

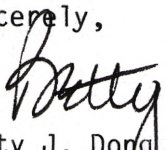

We would like to take this opportunity to personally thank you again for your outstanding lecture on PCP/AIDS - Opportunistic Infxn given to the third year pharmacy students in Clinical Pharmacy 132.

The students have commented that they enjoyed the lecture and thought the quality of the lecture was excellent as well as important to their education.

We would like to add that the subject material covered was important, relevant and clearly presented. We especially appreciate the time you took from your busy schedule to help educate our students for their professional practice of pharmacy.

Thank you again for your valuable participation.

Sincerely,

Betty J. Dong, Pharm.D.

Dear Dr. Wofsy:

Thank you for the effort and time you took with my patient, [REDACTED]. He was grateful and comforted and I feel some sense of relief no stone was left unturned. He is a wonderful man and a nice patient. I despair at the paucity of things I can do for him, but, again, am comforted that it is not through ignorance. Best of luck to you and your clinic.

Sincerely,

Carol A. Evans, M.D.

Dear Connie:

I want to personally thank you for your input and for allowing us to spend a day with your entire group. I think the experience was very helpful for the group of people that went out to San Francisco. It is clear that we are progressing rapidly in the development of both a Pediatrics and Adult Inpatient facility and Outpatient Ambulatory Care Center. Florida's legislator is very receptive and although we may not get the entire amounts requested, I think fundings should fall in excess 6 million dollars.

Again, thank you for your personal input and the sharing of your experience with us.

Best regards.

Sincerely yours,

A handwritten signature in cursive script that reads "Margaret".

Dear Dr. Wofsy:

On behalf of myself and our entire group from Jackson Memorial Hospital, I should like to personally extend my thanks for the program which you put together for us this past Monday. I recognize that you are constantly bombarded by requests such as ours and certainly got the feeling that you spent more time with us than you could probably afford.

While the differences between our population of patients and yours are evident, what was most interesting to me was how similar our medical-political situations are. The insight with your candid comments provided to me and Margaret will be particularly helpful in creating a structure for our AIDS Program at the University of Miami.

I hope that should you have the occasion to visit the Miami area, you will let us reciprocate with regard to hospitality whether it be professional or sightseeing in nature. Thanks once again. I really appreciate the time and trouble that you took to meet with us.

Sincerely yours,

A handwritten signature in cursive script that reads "Laurence (63)".

From: Jane T. Meier, Director
Women's Health Center

Subject: AIDS In-Service Meeting

JTM

On behalf of the entire Women's Health Center I would like to thank you for the fine presentation given to the staff of our Center. Considering the tight time constraints, you did a marvelous job presenting a vast amount of material. I appreciate all the efforts that were made with the hand-outs. While I know they must have been a great deal of work to produce, they will help re-enforce the information.

There have been many favorable comments concerning the inservice and its timeliness. I sincerely appreciate your efforts in making the inservice an informative discussion on a most important topic.

Dear Dr. Wofsy,

Let me take this opportunity to express my heartfelt thanks for your giving of your time and expertise for yesterday evening's program. We in the Adult Department at the San Francisco Jewish Community Center are always striving to address issues of concern to our community as well as enjoyable, educational, social, and cultural programs.

I'm sorry for the problem of pre-program communication and truly appreciate your being with us for what I feel was a very successful event.

Again, thanks so much. You and Dr. Abrams were wonderful.

Sincerely,

Dear Dr. Wofsy:

On behalf of the Department of Obstetrics, Gynecology and Reproductive Sciences I wish to thank you for your excellent presentation on AIDS in our recent Grand Rounds. I've heard numerous comments to the effect that your information was timely, important and the presentation was of high quality.

Many thanks again and I hope you get over your cold shortly.

Dear Dr. Wofsy,

On behalf of the entire staff, I'd like to thank you for appearing as a guest on our AIDS special. Your warmth and enthusiasm added a very human touch to the wealth of information you shared with us. We believe that your appearance on the program helped greatly to inform the public on this vital issue, and hopefully made some of the individuals at risk better able to cope with their situation.

The program is scheduled to air on Saturday, January 26, at 7:30 PM. We hope that you will be able to see it, and if you have any questions or comments, please give us a call at 565-7773.

We wish you and your colleagues at the AIDS Clinic continued success in your AIDS research, and we believe that your dedication and effort will bring this epidemic to an end soon.

Sincerely,

Lisa Scimens
