

CALIFORNIA
NURSES
ASSOCIATION

CNA SERVICES, INC.

October 4, 1988

C. B. Wofsy, MD
San Francisco General Hospital
995 Potrero Avenue
Ward 84
San Francisco, CA

Dear Dr. Wofsy:

CNA Services, Inc., AIDS Education, a subsidiary of the California Nurses Association, would like permission to reproduce 500 copies of the following article to include in our AIDS Train the Trainer Program Guide. Changes, additions or deletions will not be made in the text and appropriate credit will be given:

Wofsy, C.B. (April 17, 1987). Human immunodeficiency virus infection in women. JAMA, 257(15) 2074-2076.

Kaplan, L.D., Wofsy, C.B., & Voldberding, P.A. (March 13, 1987). Treatment of patients with acquired immunodeficiency syndrome and associated manifestations. JAMA, 257(10), 1367-1374.

The educational guide will not be published and is being sold at cost. It will be used in conjunction with intensive 2-day workshops scheduled at several locales throughout the country during 1988-1989. Participants are being charged a fee for the workshop.

We would appreciate a response by November 1. I have enclosed a self-addressed, stamped envelope for your convenience.

Sincerely yours,

Helen Miramontes, RN, MS, CCRN
Manager, AIDS Education

Love
is the
answer

Dear Connie,

We want to thank

10-28-81

You and again for your
participation in the AIA's
Conference.

The positive feedback
was great.

W. J. H.

Love Peace -

Jerry & Diane

Maureen Petiti

Principal

Hoover Middle School

290 16th Avenue

San Francisco, CA. 94116

Dear Ms. Petiti:

Please address reply to undersigned at

AIDS ACTIVITIES DIVISION

San Francisco General Hospital

Building 80, Ward 84

1001 Potrero Avenue

San Francisco, CA 94110

Thank you for returning my call. Since I know that the telephone tag game can be a prodigious effort, I thought I would drop you a note instead. I am contacting you to see if you would be willing to write a letter for me. As part of an academic promotion, I am asked to submit the names of many people who know me in a variety of capacities outside of the traditional in-hospital and clinic medical arena. A new faculty track is being developed for those full time faculty members within the medical school who devote themselves to clinical care, teaching, and who, in particular, are visible outside of the traditional medical arena. I have letters from many, many medical professional colleagues, but I also have letters from patients, a lawyer with whom I am working on behalf of an AIDS-related Consumers Union issue, and others who can attest to my involvement in community AIDS-related issues.

If you are comfortable, I would be most grateful if you would write a letter on my behalf attesting to my involvement in teaching at levels beyond the university and my interest and concern about AIDS education for students in younger grades and their parents (the workshop of Hoover parents was strikingly less well attended, of course, than the mandatory 8th grade assembly). It would not be detrimental, if you feel comfortable, to mention that we seem to be involved parents in our children's education and public education in general.

You may call 550-6890 and, directly or through my answering machine, leave a simple message agreeing to write a letter or decline to do so if you are not comfortable addressing the issue. If you are agreeable, I will forward your name to the university committee who will send you a letter with a return address and other information. Until that letter reaches you, this issue need not cross your mind again.

Susan told me the other day that she "loves Hoover". She seems to be making a fine adjustment and the year indeed seems to be going well (No, that is not a coercive statement so that you will write a letter!).

Warm regards,

Constance B. Wofsy, M.D.
