Dear Dr. Wofsy:

Enclosed is the revised draft manuscript, "Mental Health Aspects of AIDS: A Handbook for Obstetrical and Gynecological Clinicians." This revised draft incorporates comments by Government staff, Editorial Committee members, and the core project staff.

We would be most appreciative if you would review the manuscript once more, before we submit the final document to the Government. Please add the manner in which you'd like your name and title to appear in the Acknowledgements.

If possible, please call in your comments, or send them by Express Mail, by April 20.

Enclosed is a voucher for your editorial consulting time on the final manuscript. Please send it back to me as soon as possible.

Thank you so much for your guidance and consultation over these last months. I am confident that our collaborative document will be very educational for OB/Gyn clinicians.

Sincerely,

Gail Bassin
