DEPARTMENT OF CORRECTIONS

CALIFORNIA MEDICAL FACILITY

VACAVILLE, CALIFORNIA 2598 95696-2000

June 8, 1983

Constance Wofsy, M.D.
Division of Infectious Disease
San Francisco General Hospital
Room 5H22, 1001 Potrero Avenue
San Francisco, CA 94110

Dear Doctor Wofsy:

We are looking forward with glee, joy and anticipation to your visit here on Friday, June 17, 1983. There are two reasons, of course, for our joy: one is your lecture and the second is that Saturday always follows Friday.

I am sending you a brief description on how to reach the California Medical Facility. I assume you are coming from San Francisco and that you will be proceeding up U.S. 80 Eastbound. Pass through Fairfield and take the first Vacaville turnoff. Just before you get to it, there is a sign pointing to the Medical Facility. As usual it is a green sign with white imprints -- "California Medical Facility." After you enter the off ramp, you will come up on Alamo. Make a full stop here and then go left. About 1 mile further down you will pass a 7-Eleven Store. Turn right on Mariposa and you will soon see the majestic gates of CMF looming cheerfully ahead of you. There are also some signs designating it for what it is. Parking is easy -- drive through the gates and turn right just before the flag pole. The second row on the right is where you should park. On your left (i.e., just in front of the fence) are spaces for official cars. Though you may not know it, you are "official." Just don't take the first or second space of that row because they are reserved for "Peter and Paul."

Cordially yours,

R.W. SALIN, M.D.
Physician & Surgeon
(707) 448-6841 EX 2616
