Dr. Eric Berne
Mt. Zion Hospital
San Francisco, California

Dear Dr. Berne:

It was worth the trip to New York to hear your paper on Transactional Analysis at the A.G.P.A. meetings last week. Rarely does one hear anything new at meetings, but this approach was new to me; not only new but extremely stimulating.

I would greatly appreciate it if you would send me reprints of your publications on transactional analysis. At this clinic we have a very active group psychotherapy program and are constantly experimenting with therapeutic approaches. I would like to review your material so as to present it at our group therapy seminar.

Sincerely,

ANDREW S. DIBNER, Ph.D.
Staff Clinical Psychologist
