university of california, irvine
1967

The University of California at Irvine is a university for the modern man. It confronts the prospects of the next century with enthusiasm. It regards the past with respect, but without nostalgia. It is unashamed of modern society; unintimidated by modern problems; stimulated by modern opportunities.

These sentiments imply a willingness to experiment with program procedure, organization, and technique. They imply a faculty, a student body, and a state of mind that is not afraid to try. They imply a serious reconsideration of traditional ways, not with the arrogance that we are smarter than everybody else, but with an awareness of our responsibility to use well our special opportunity to start anew. They imply a lack of dogma and a willingness to confess our errors.

An excerpt from a statement prepared by the Irvine faculty in 1965

The California Anteater
(antivora californianus)

This species, discovered in 1965, exhibits many interesting characteristics. A good many of these creatures may be found living in multi-story dwellings which are divided into separate cubicles. The members of this species are excessively fond of filling their lairs with all matter of unusual and exotic objects.

The California Anteater is also known for its gregarious traits; being often found in social gatherings, particularly where food or music are present.

This species is easily identified by its distinctive cry of ZOT! and by its total lack of resemblance to the better known South American Anteater.

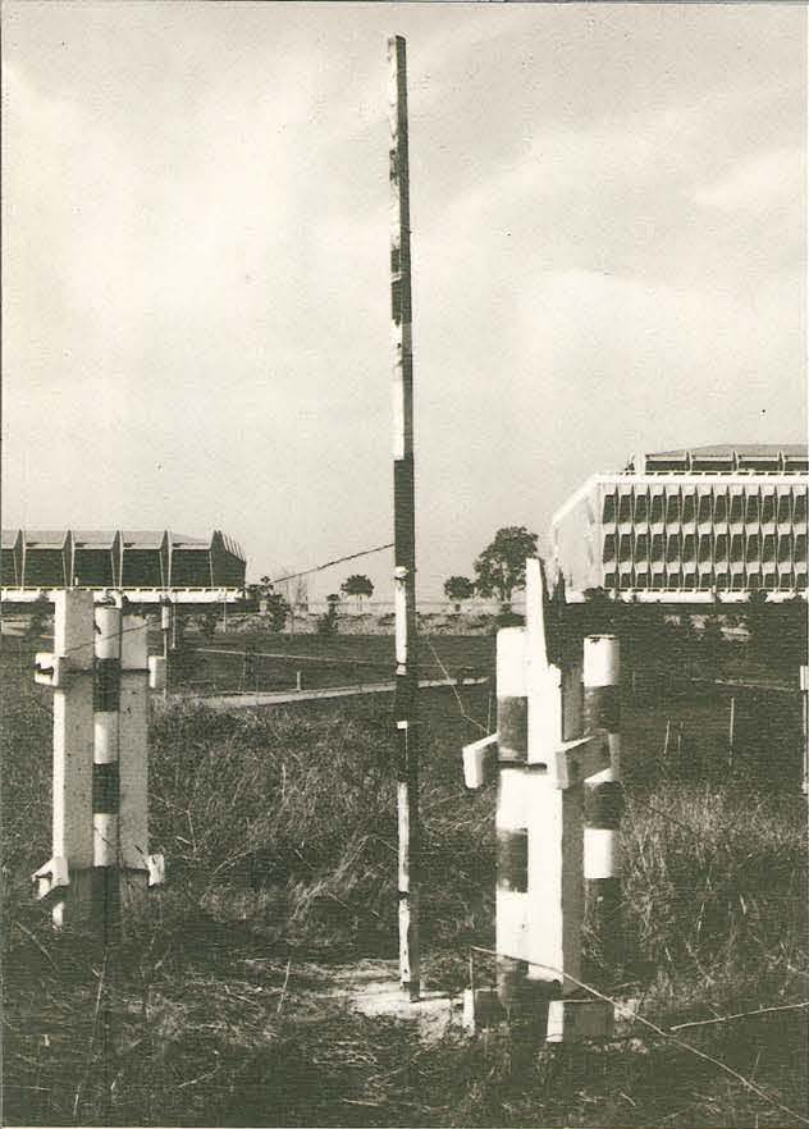

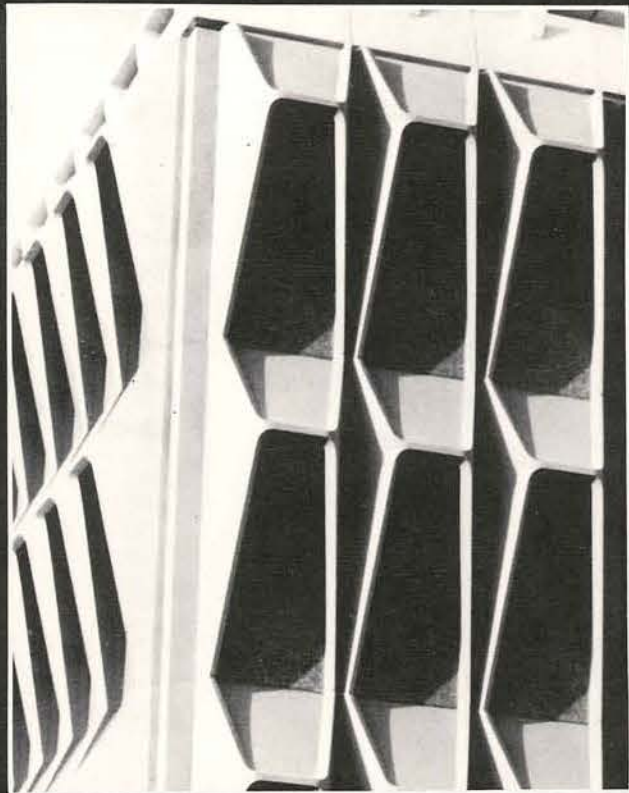

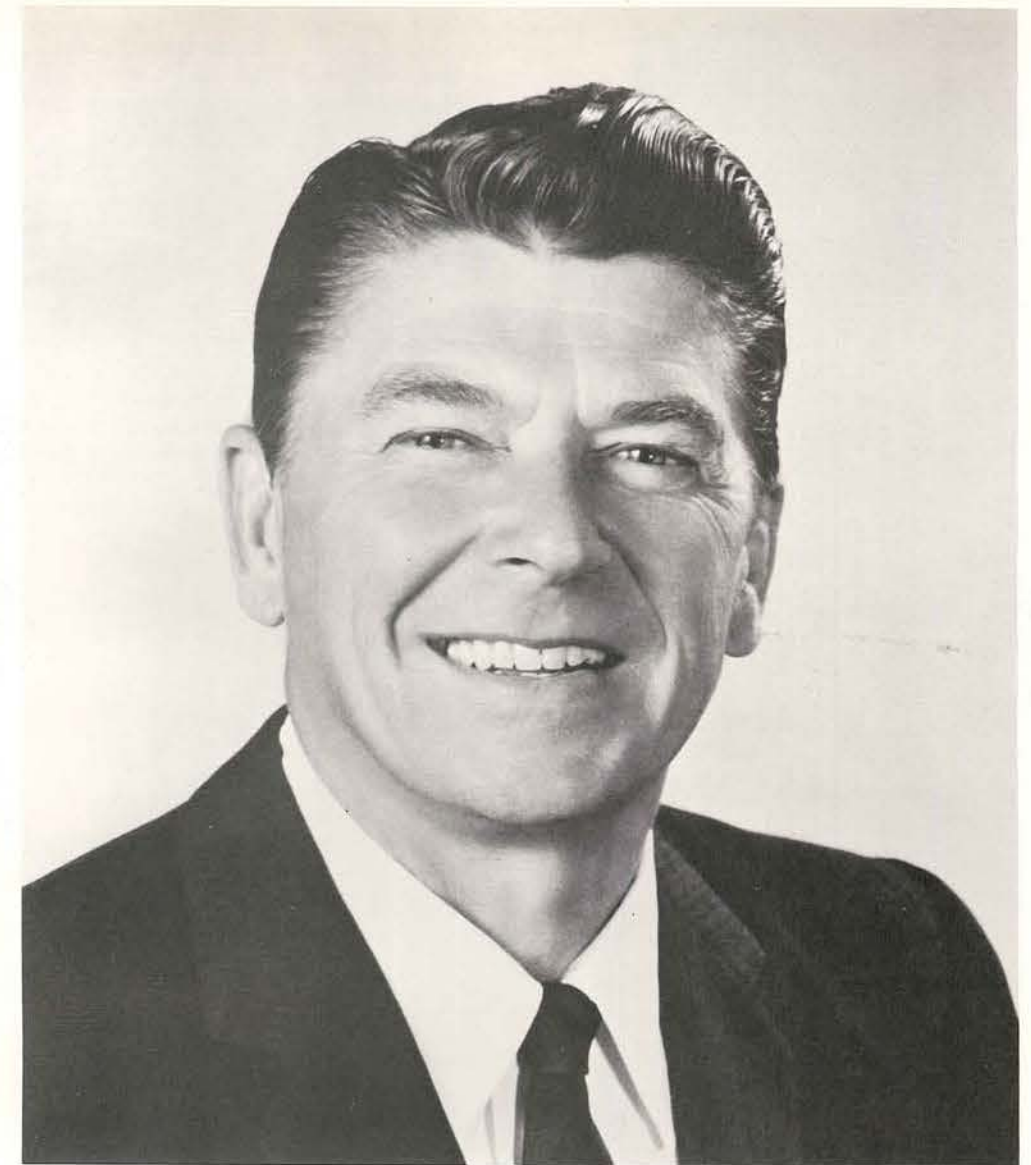

A thing of beauty
Is a joy for ever:
Its loveliness increases;
It will never
Pass into nothingness;
but still will keep
A bower quiet for us,
And a sleep
Full of sweet dreams,
And health, and quiet breathing.
Therefore, on every morrow,
Are we wreathing
A flowery band
To bind us to the earth,
Spite of despondence,
Of the inhuman dearth
Of noble natures,
Of the gloomy days,
Of all the unhealthy
And o'er-darkened ways
Made for our searching:
Yes, in spite of all,
Some shape of beauty
Moves away the pall
From our dark spirits.
Such the sun, the moon,
Trees old and young,
Sprouting a shady boon . . .

John Keats

RONALD REAGAN
GOVERNOR OF CALIFORNIA, PRESIDENT OF THE REGENTS

It is a pleasure to take this opportunity to greet the administration, faculty and students at this fine new campus of the University of California.

The progress already achieved in making the Irvine campus an integral part of California's University system is, I think, a prime example of what can and must be done to build an even better higher educational program and a more prosperous and enlightened state.

I consider it my responsibility to take the lead in assuring that the University of California will maintain its original purpose as an institution of learning and research. Academic freedom must be preserved and the University must be kept free of political control or harassment.

At the same time, those of you at Irvine—as well as at the other UC campuses—have a responsibility to the citizens of

California who make your education possible. You have an obligation to see that the questions which are examined during your education are those which give play to intellect rather than to passion.

Education is the bulwark of freedom for our state and nation—if we are a literate people, we will be free. The University has the duty of not only teaching and educating, but also of building character around accepted ethical and moral standards.

I pledge that the quality of education will have the highest priority during my administration and urge that all of you associated with UC Irvine work with me in achieving that goal.

Ronald Reagan

PRESIDENT CLARK KERR
UNIVERSITY OF CALIFORNIA

The great imperative upon the University of California today—as upon all universities in the world—is to grow and change to meet the rapid transformations of our age. We must meet unprecedented enrollment demands, develop programs to fill the diversified educational needs of the complex modern world, and keep pace with the accelerating growth of man's knowledge of himself and the universe.

But even more important than the transformation worked upon universities by the pressures of our restless age is the new influence exerted by the universities upon their surrounding society. Universities are becoming a prime source of the change that is engulfing the world. We are not a cloister removed from the world's problems. We stand now at the very crossroads of society—preserving and interpreting the past, serving the present, discovering and helping to shape the future.

In pursuing these responsibilities, the Irvine campus is unique within the University's community of campuses. Its academic plan recognizes the need to maintain a personal identity for students and faculty alike, while its strong emphasis on interdisciplinary study provides the broad approaches needed to meet the demands and challenges of an increasingly complex world. As students you have made important contributions to the development of your campus. You came better prepared than any previous student generation; you were more intent about your academic studies; your suggestions were constructive and meaningful.

We feel confident that as you graduate you will take with you your concern for your own continuing education, and for the good that you can do for others less fortunate. We hope also that you will keep a continuing relationship with your University, understand her new imperatives and influences in a world of change, and interpret her new character and significance to your fellow citizens.

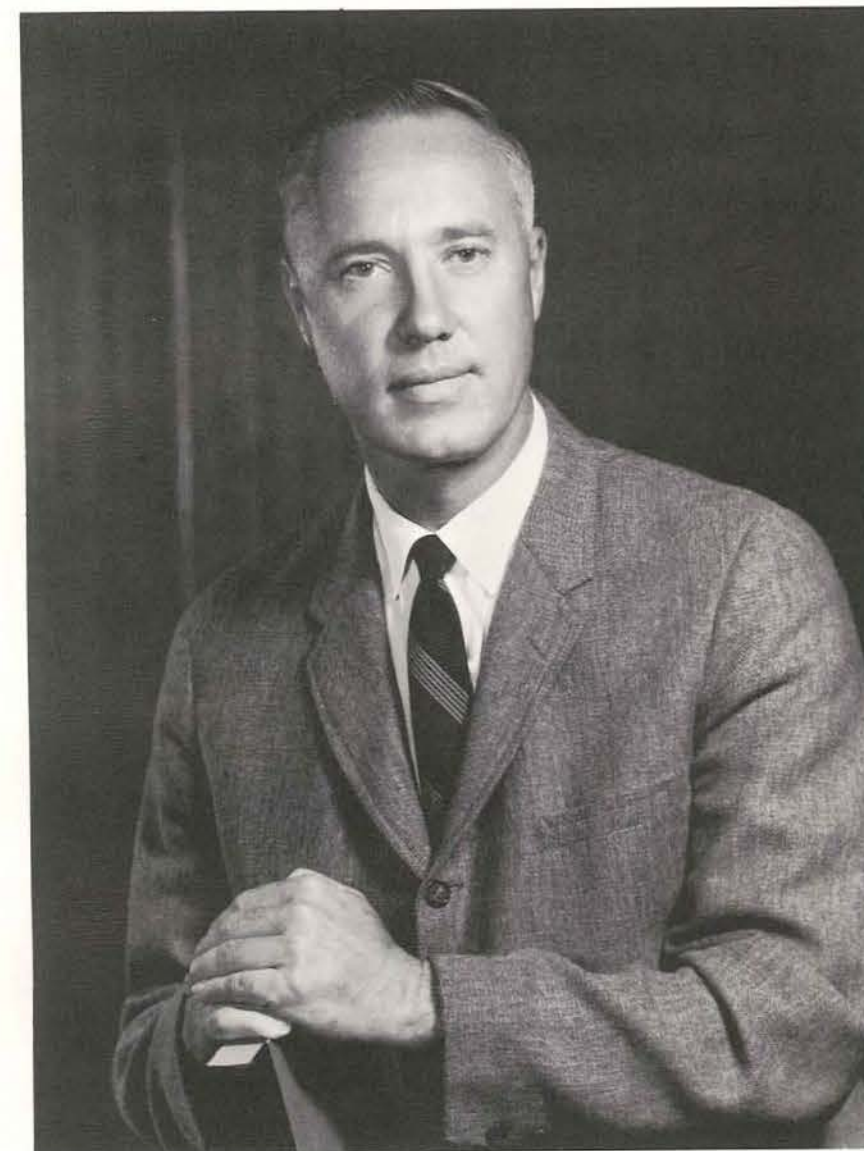

Clark Kerr

THE REGENTS OF THE UNIVERSITY OF CALIFORNIA

Seated at the table (beginning at the lower left-hand corner): William U. Hudson; Dewitt A. Higgs; Laurence J. Kennedy Jr.; John E. Canady; Edwin W. Pauley; Mrs. Dorothy B. Chandler; Philip L. Boyd; Glenn M. Anderson (former Regent, succeeded by Lt. Gov. Robert H. Finch). At the head of the table: Theodore R. Meyer, Chairman of the Board; Clark Kerr, President of the University. Also shown (beginning at the upper

right-hand corner): Max Rafferty; William Mr. Roth; Mrs. Edward H. Heller; William E. Forbes; Frederick G. Dutton; Mrs. Randolph A. Hearst; Edward W. Carter; H. R. Haldeman. Not Shown: Governor Ronald Reagan; Lt. Governor Robert H. Finch; Jesse M. Unruh; Jesse W. Trapp; William K. Coblentz; Cornelius J. Haggerty; Samuel B. Mosher; and Norton Simon.

DANIEL G. ALDRICH JR.
CHANCELLOR OF THE UNIVERSITY OF CALIFORNIA, IRVINE

Students at the University of California, Irvine have cause to take special pride in their accomplishments during the 1966-67 academic year. This has been a time when many of the seeds of innovation and experiment, planted during Irvine's first year, have begun to take root. Notable examples, I believe, were the adoption of a form of student government which incorporates interesting departures from the usual; implementation of the honor code to the extent that it has been possible to minimize rules pertaining to student conduct; and significant student participation in a wide variety of innovative education programs. Each of these and many other activities initiated with the founding of this campus have required intelligent, thoughtful and industrious student effort. UC Irvine's students have responded well to the challenges and opportunities.

campus life

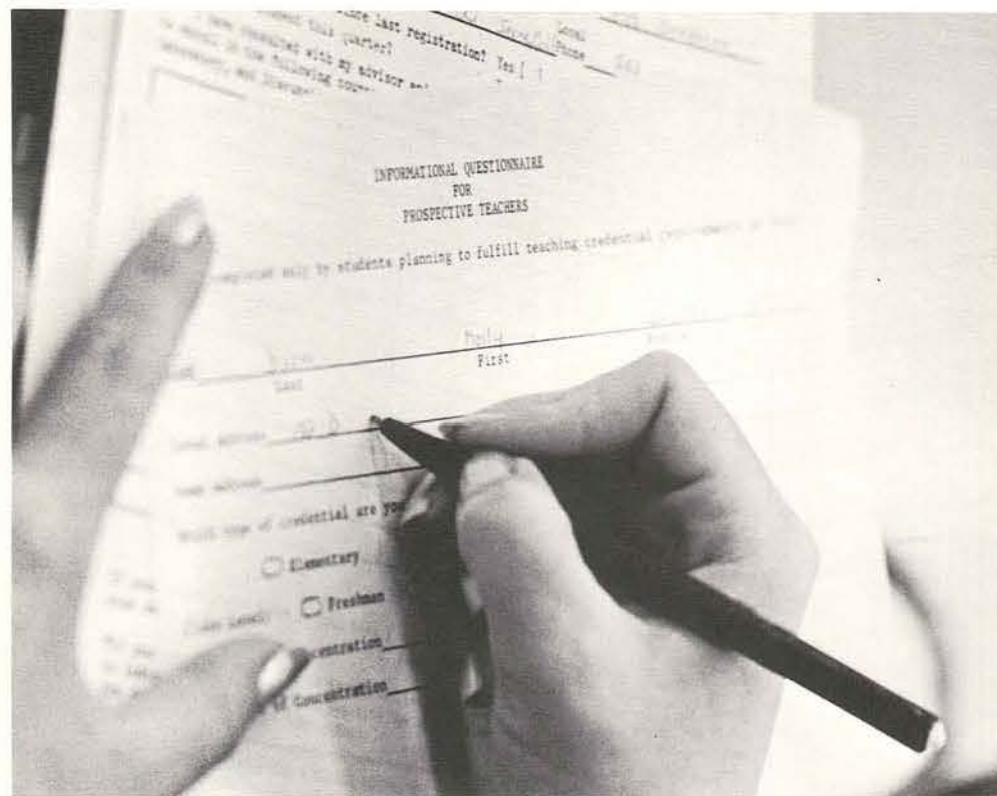

The student . . . an individual who can and often does suffer from conflicts, frustrations, rejections, doubts, fears, yearnings, and hopes. What better place than the University . . . to find the answers to these problems . . . to develop a personal worth, and to find a meaning and direction in life.

John S. Bradley
Convocation
October 2, 1966

campus

I loved you all the summer thru,
I thought I'd found my love in you.
For me you were the one,
But that was yesterday and
Yesterday's gone.

We walked together hand in hand
'Cross miles and miles of golden sand,
But now its over and done
'Cause that was yesterday and
Yesterday's gone.

David Stuard and
Wendy Kidd

CHAD AND JEREMEY
September 29, 1966

Walk right in, sit right down,
Baby let your mind roll on.

Everybody's talking 'bout a
new way of walking. Do you want
to lose your mind?

Walk right in, sit right down,
Baby let your mind roll on.

G. Cannon and H. Woods

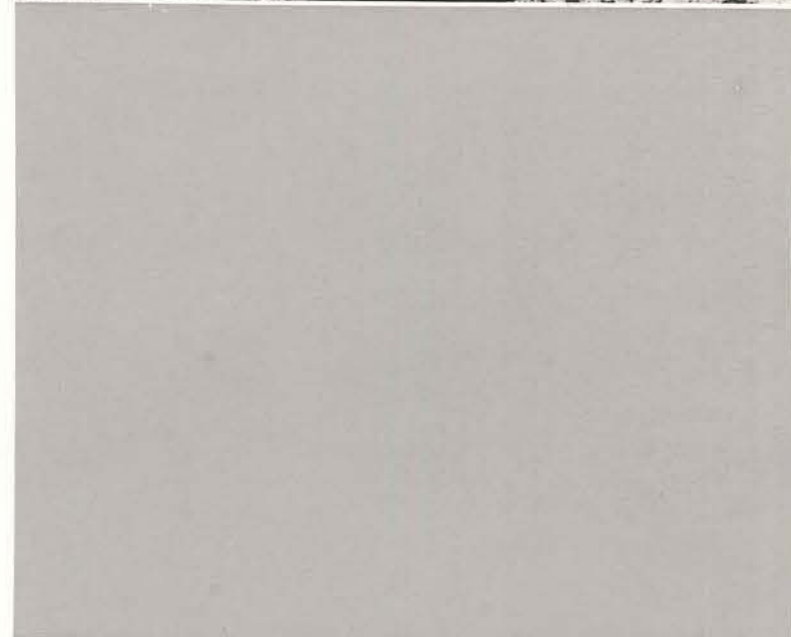

JOSE FELICIANO
October 21, 1966

At evening, when the earliest stars began
 To move along the edges of the hills,
 Rising or setting . . .
 Beneath the trees or by the glimmering lake . . .
 Long halloos and screams, and echoes loud,
 Redoubled and redoubled, concourse wild . . .

William Wordsworth

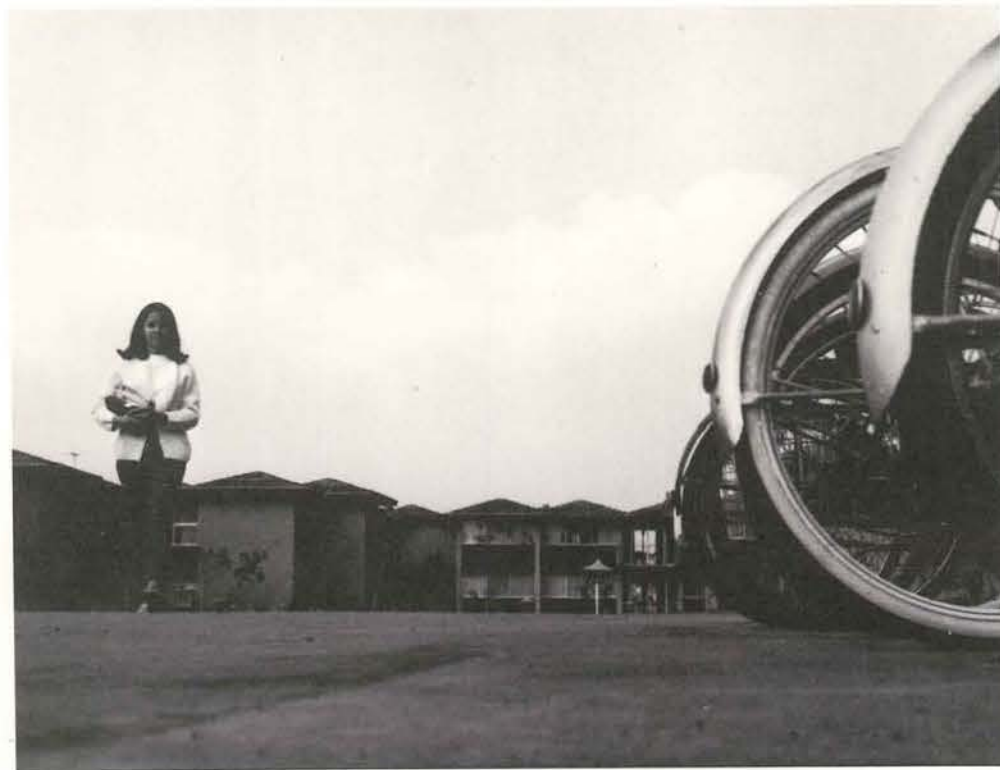

Do it for thy true-love take;
Love and anguish for his sake;
Be it ounce, or cat or bear,
Pard, or boar with bristled hair,
In thy eye that shall appear
When thou wak'st, it is thy dear;
Wake when some vile thing is near.

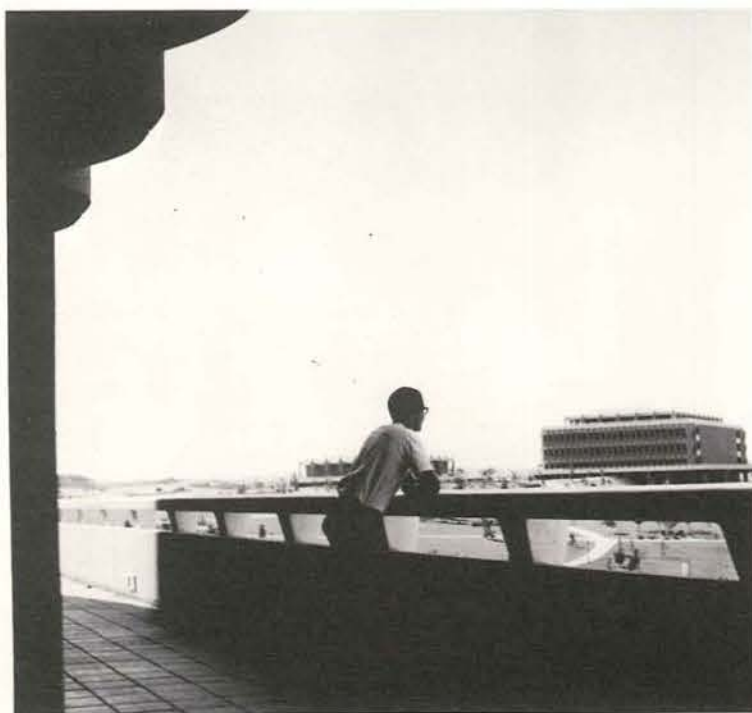

William Shakespeare

A MIDSUMMER'S NIGHT DREAM
FALL QUARTER

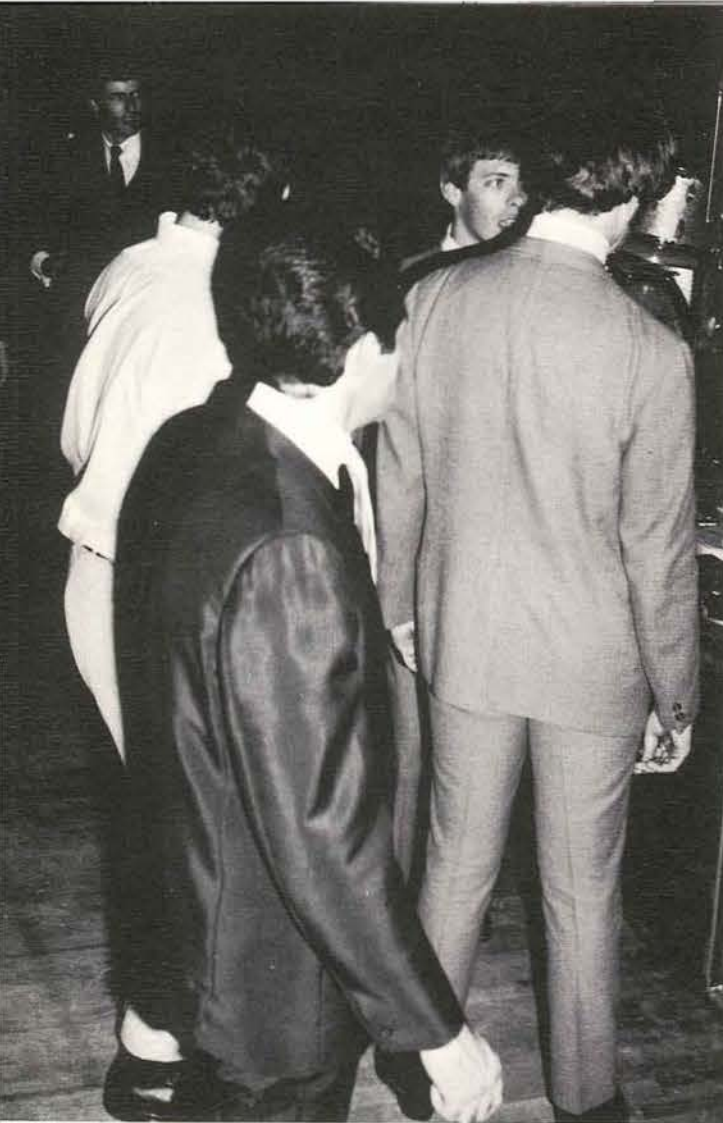

"It is hard to say that I have been most of that route already, and what I am cynical about is the value of tomorrow. I have to drink my wine when it is due, to savor every part of life equally. This part of my life is as important as any other; it is what (I am told) I will remember with relish, and I want to remember that I enjoyed it. Of course, there is no excuse for gluttony that distracts from quality and appreciation; just that each experience should be had slowly and studied. In this sense, at least, the unexamined hurried life that is always a preparation for life is very much not worth living."

A STUDENT'S MEDITATION Peter Harris

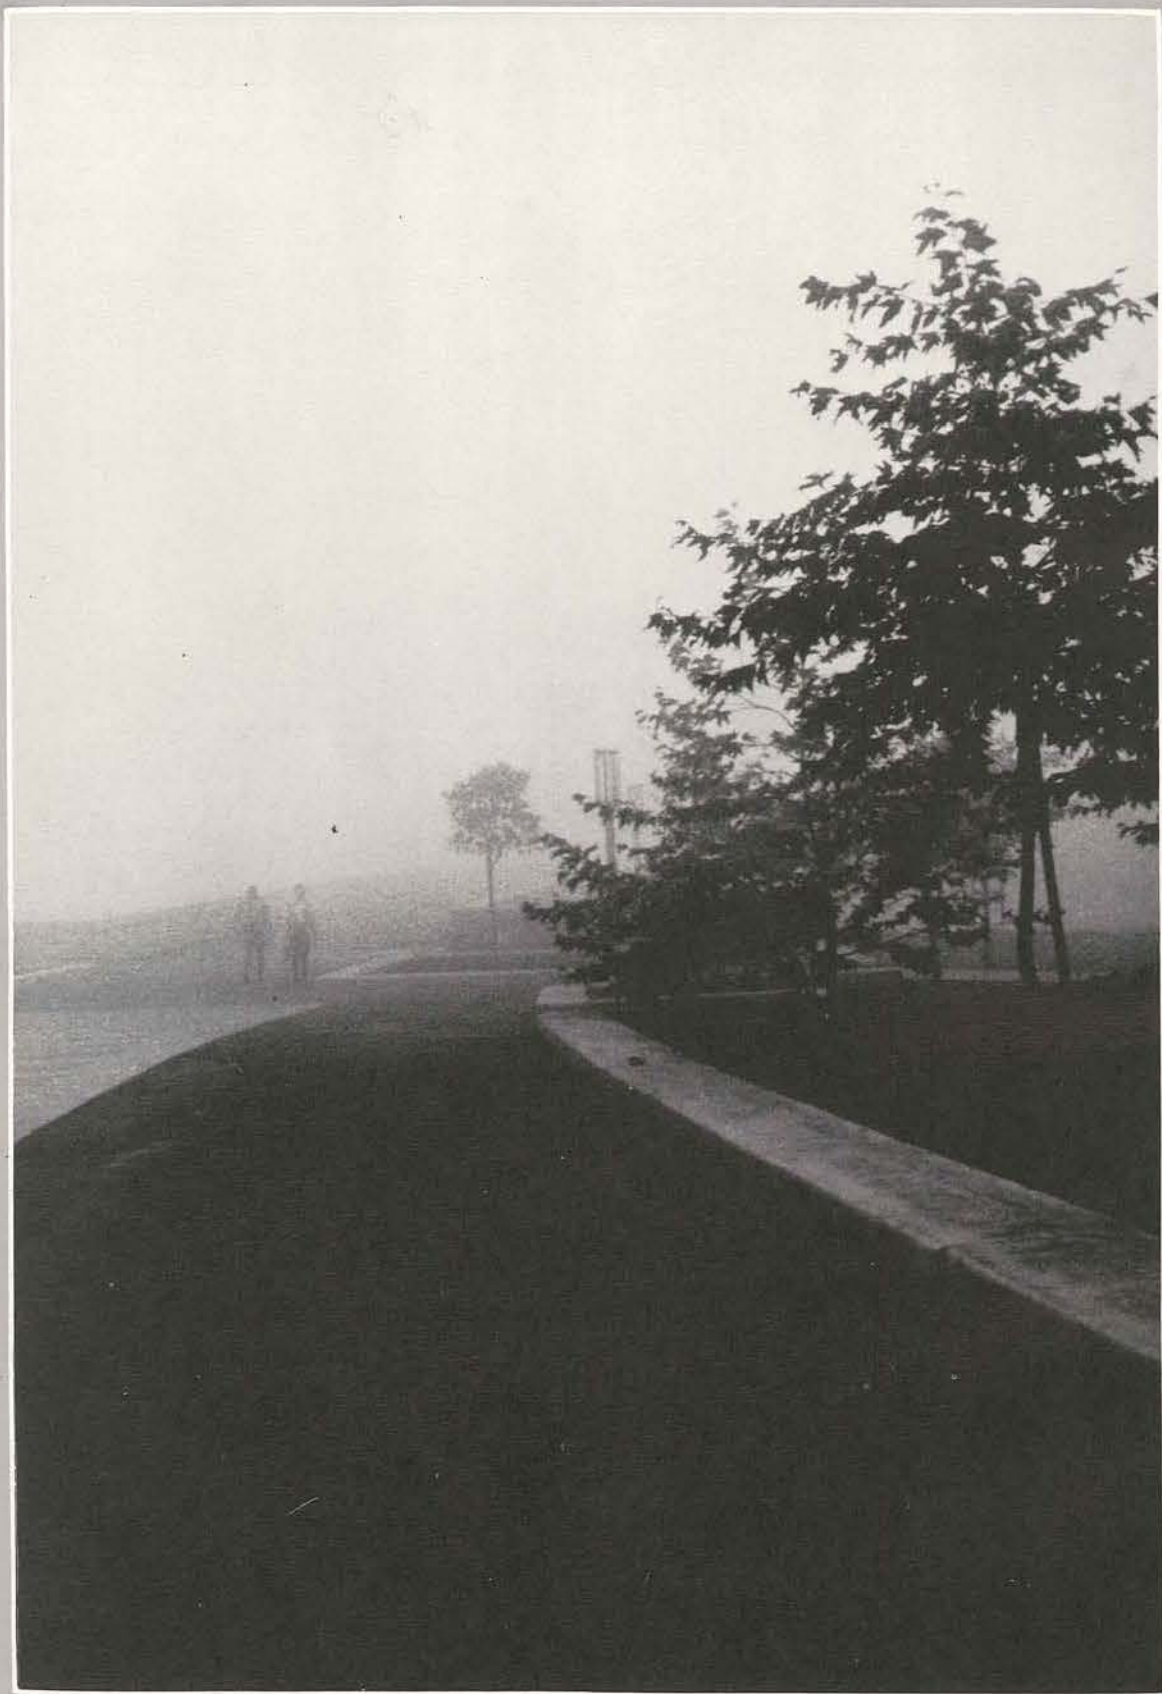

Cherish is the word I use to describe all the feeling
that I have hiding here for you inside.

You don't know how many times I've wished I had
told you . . . You don't know how many times I've
wished that I could mould you into someone who
could cherish me as much as I cherish you.

Terry Kirkman

In the sixties, some of the paths of human activity would be blazed with revolutionary intensity. All mankind would be affected by concurrent acceleration in the growth of knowledge and population, in a changing way of life brought about by the rapid development of cybernetics, in the passionate drive of American minority groups for full citizenship, and in the world wide struggles of new nations to gain and hold their independence. The academic community, more central to society than ever before, would at times become a main vortex of events. A new generation of students would emerge, impatient with the *status quo*, committed to righting old wrongs through direct action and, in the process, shocking their elders and shaking institutions.

From
A Brief History of the
University of California

CLARK KERR, a member of the California academic community since 1945, has contributed extensively to the growth and development of the state educational system as author, instructor, Chancellor, and finally as President of the University of California. Coming to the Berkeley campus of the University as director of the Institute of Industrial Relations, Clark Kerr became Chancellor of that campus in 1952. In 1958 Dr. Kerr became President of the University and spoke in his inaugural address as twelfth President of "the dynamics of progress" in the University. In his **1966 Report of the President**, Dr. Kerr prefaced a statistical review of the growth of the University over the past eight years: "The University of California in 1958 faced the greatest challenge in its history. This challenge was to double its size over the next eight years while preserving its high academic

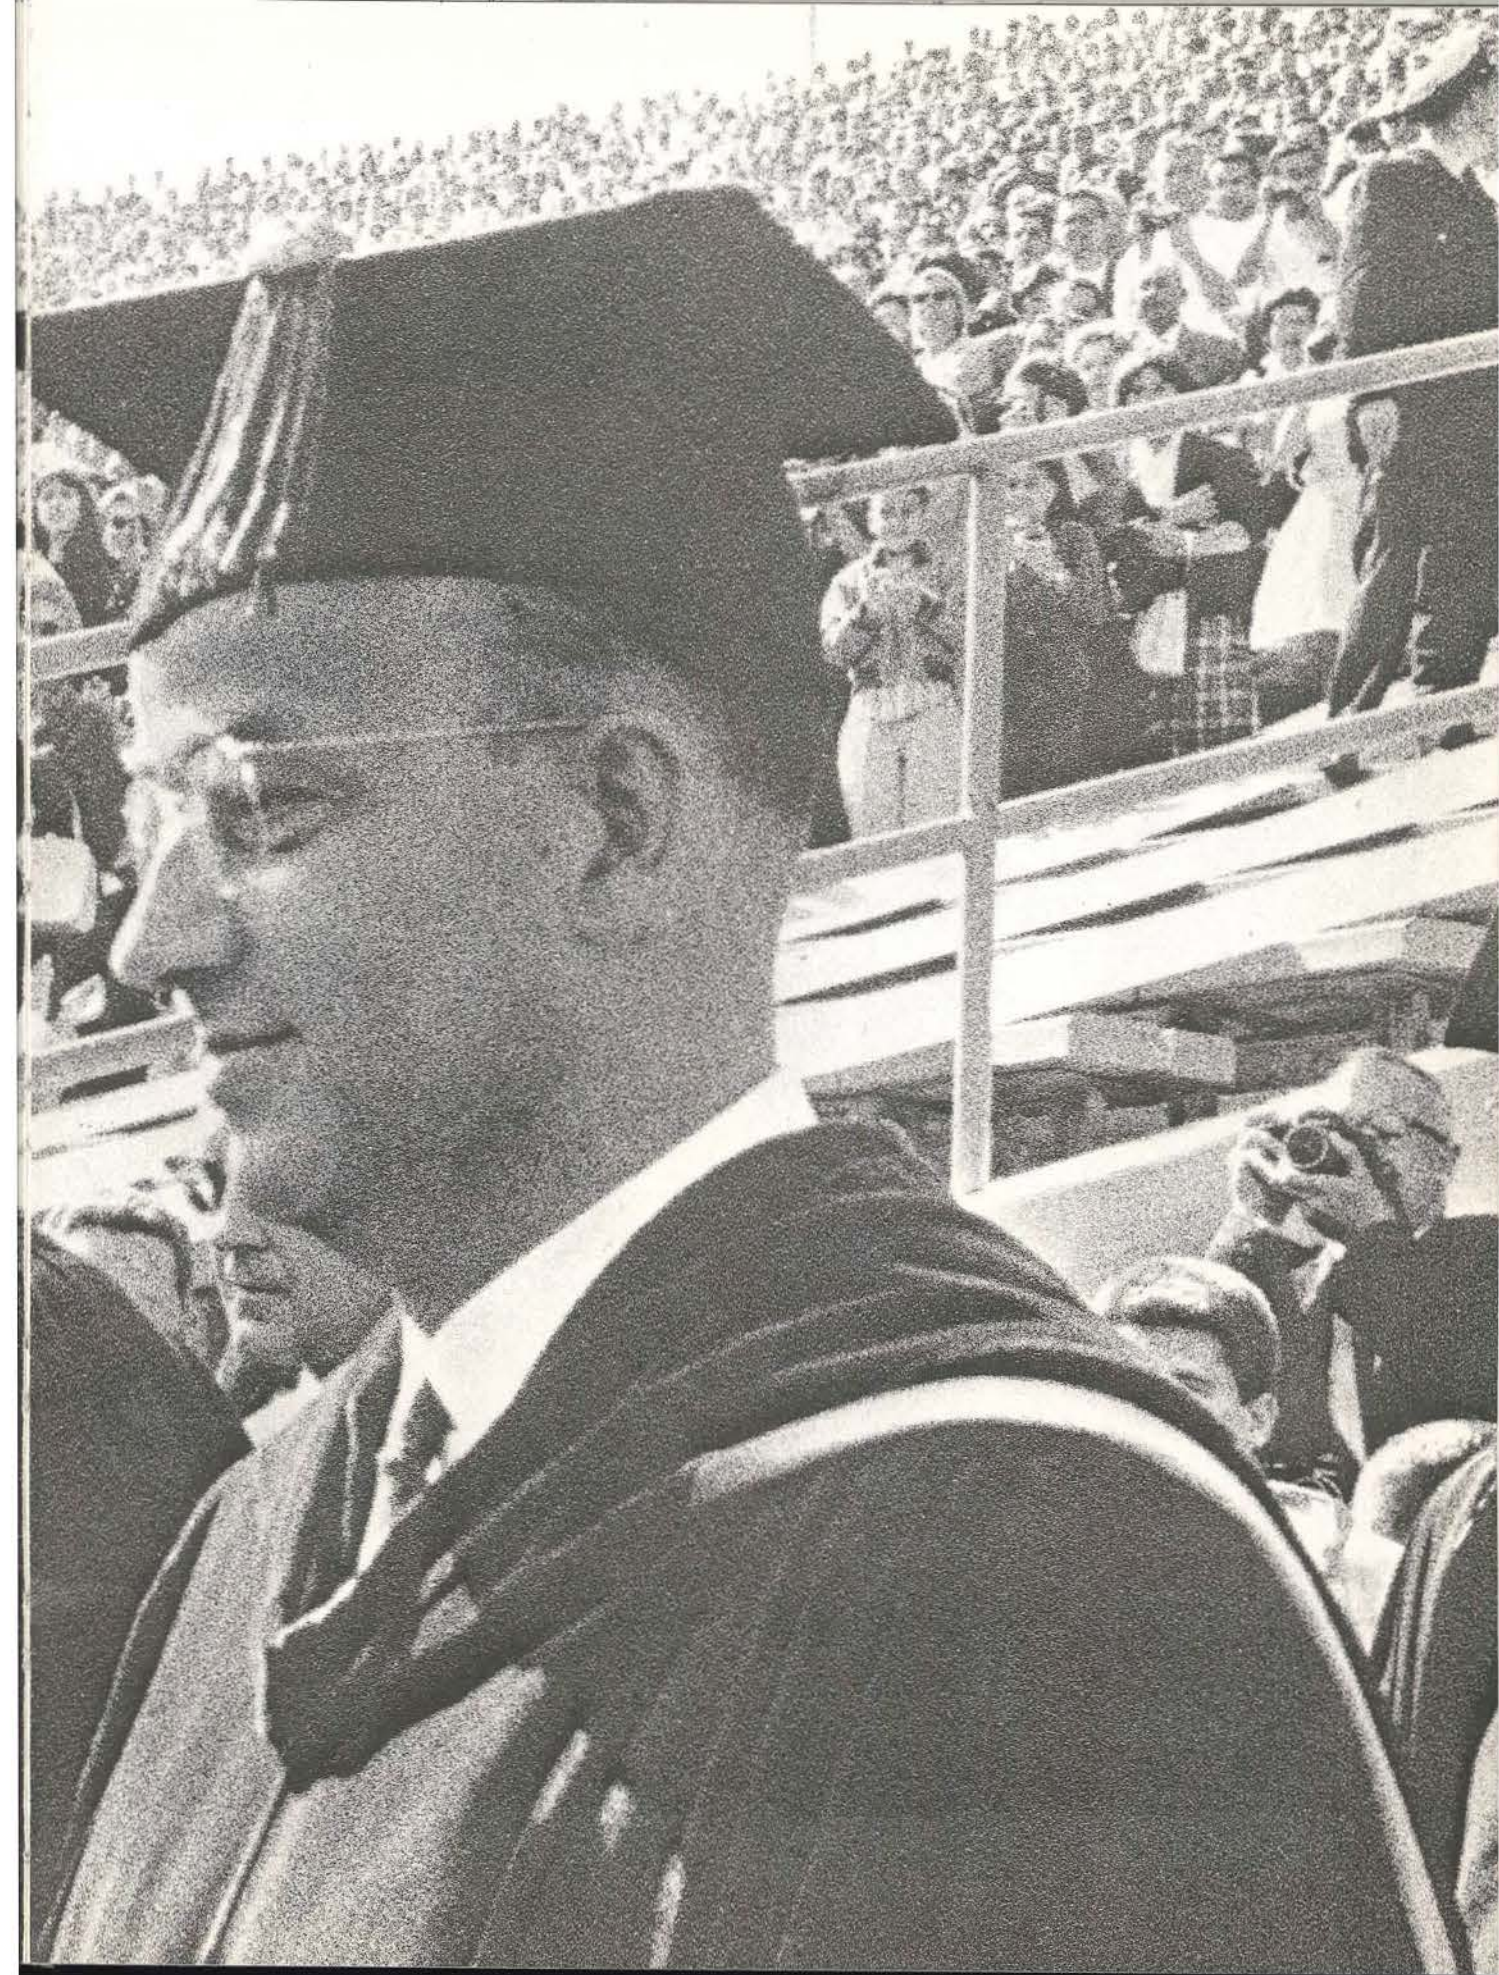

reputation. It faced two imperatives: quantity and quality. Eight years later in 1966, we can say that this challenge was met. The University has doubled its size. The University has also maintained, even improved, its distinction in the academic world. It has faced the two imperatives—quantity and quality: it has evaded the obligations of neither; it has met the requirements of both." For the growth and prosperity of the University of California between the years 1958 and 1966, Clark Kerr can take much of the credit.

As prominent as Clark Kerr's name has become in academic circles, he is equally well known as a labor arbitrator and has served in that role in many important labor disputes. He has served his country as a member of several Presidential commissions and committees and has served Presidents Kennedy and Eisenhower. Dr. Kerr also served with the War Labor Board during World War II.

Dr. Kerr received his bachelor's degree at Swarthmore College and his Ph.D. from Berkeley in 1939. His career as a professor has included teaching assignments at Antioch College, Stanford, The University of Washington and finally Berkeley. He has received honorary degrees from a number of Universities and colleges including, Harvard, Princeton, Pomona, Occidental, George Washington University, Bordeaux, and the Chinese University of Hong Kong.

Because of his intense desire to strengthen the University as a world leader in education and his sincere interest in the welfare of his state and his nation; and because of his special interest in the success of the experiment in education here at Irvine: The editors and staff of the UC EYE wish to dedicate the 1967 yearbook to Dr. Clark Kerr, former President of the University of California.

DIA DORSEY

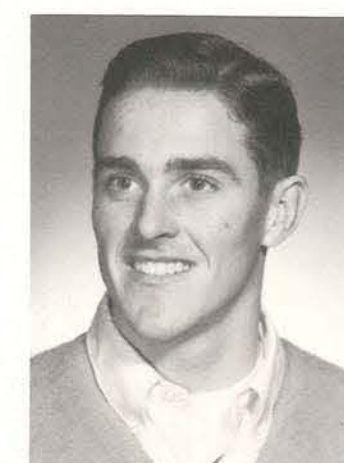

IN RECOGNITION FOR THEIR OUTSTANDING CONTRIBUTIONS TO THE UNIVERSITY OF CALIFORNIA AT IRVINE, THE UC EYE PROUDLY PRESENTS THE 1967 SENIOR HALL OF FAME

DIA DORSEY was editor of the 1966 UCI yearbook and served on the Student Activities Committee during her junior year. She also served on the Vice-Chancellor's Student Advisory Committee and worked as a Resident Assistant in Cielo. Her outside interests include music, contemporary literature, and antiques; she is also a permanent part-time employee at Disneyland. Dia is from Tustin and is a graduate of Tustin Union High School and Fullerton Junior College where she was editor of the yearbook and was assistant editor of the newspaper. A Geography major, Dia's future plans include work at UCI in statistical geography and its applications to the computer, followed by graduate study at the Regional Science Institute at Penn. State.

ANNE DRYDEN

ANNE DRYDEN has been active in almost every facet of student activity at UCI. She was a member of the voluntary Summer Committee for planning student government, etc. in 1965. She was a member of the 1966 yearbook staff as well as being Activities Chairman of the Finance Committee. She also was a participant in every play produced by the Fine Arts Division. Anne is from Costa Mesa and is a graduate of Costa Mesa High School and Orange Coast College where she served as Student Body Secretary. After graduation, she plans to either work here at UCI in the Fine Arts Division or study abroad.

JACK LEWIN

JACK LEWIN the first ASUCI President has contributed to the formation of student government on this campus. He was a member of the Constitution Committee as well as the Finance Committee; he has also served on the Vice-Chancellor's Student Advisory Committee. Jack transferred from San Diego State College. He is from Santa Ana and is a graduate of Tustin High School. Jack is presently employed at Disneyland as a jungle boat pilot. His future plans are centered around attending Med School at either USC or UC San Francisco.

PROOIMION

Oedipus—
 warned by the oracle—
 that he would kill his father—
 and take his mother for a wife—
 left Corinth—
 where he had spent his youth—
 in order to escape—
 the horrors—
 predicted by the god—
 While travelling—
 he killed a stranger—
 in a fight—
 at a crossroads in the hills—
 He came to Thebes—
 and saved the city—
 from the oppression of the Sphinx—
 and he became the tyrant of this city—
 and took the queen for his wife—
 for Laius, King of Thebes was dead—
 A plague began to rake the city—
 and Oedipus sent Creon—
 the brother of his wife—
 to the oracle in Delphi—
 to find an answer—
 to find a remedy—
 The oracle revealed—
 that Laius' murder—
 had to be avenged—
 before the plague would lift—
Then Oedipus discovered—
 that it was **he**—
 that he himself—
 had murdered Laius—
 his father—
 that he had taken for his wife—
 Jocasta—
 his mother—

The oracle was right—
 no man has in his power—
 to change the will of Fate—
 no man can change—
 what has been predetermined—
 no man can change—
 what
 will
 be.

OEDIPUS TYRANNOS

IS U.C. AT IRVINE A MATCH FACTORY?

We hope so. The most important thing in life is finding a good spouse, so a university should primarily be a good match factory and getting an education is an extra bonus.

If you girls will bring your boy friends down to Laguna Beach on your next date you can show them where to buy all their courting gifts at prices that will match a student budget. While you are here select a pattern of beautiful Noritake China to fill your Hope Chest. Noritake has patterns to match every decor and carefree stainless steel to enhance them.

You male Anteaters should learn that if you take your girl friend's mother a gift from The Pottery Shack you will be assured of many home cooked meals.

So for a Fun Date come see the Glass Blower, the Pottery Workshop, a 1307 pound Jade and the finest displays of dinnerware and gifts in America at The Pottery Shack, 1212 So. Coast Hwy., Laguna Beach, Calif.

BBC and UCI

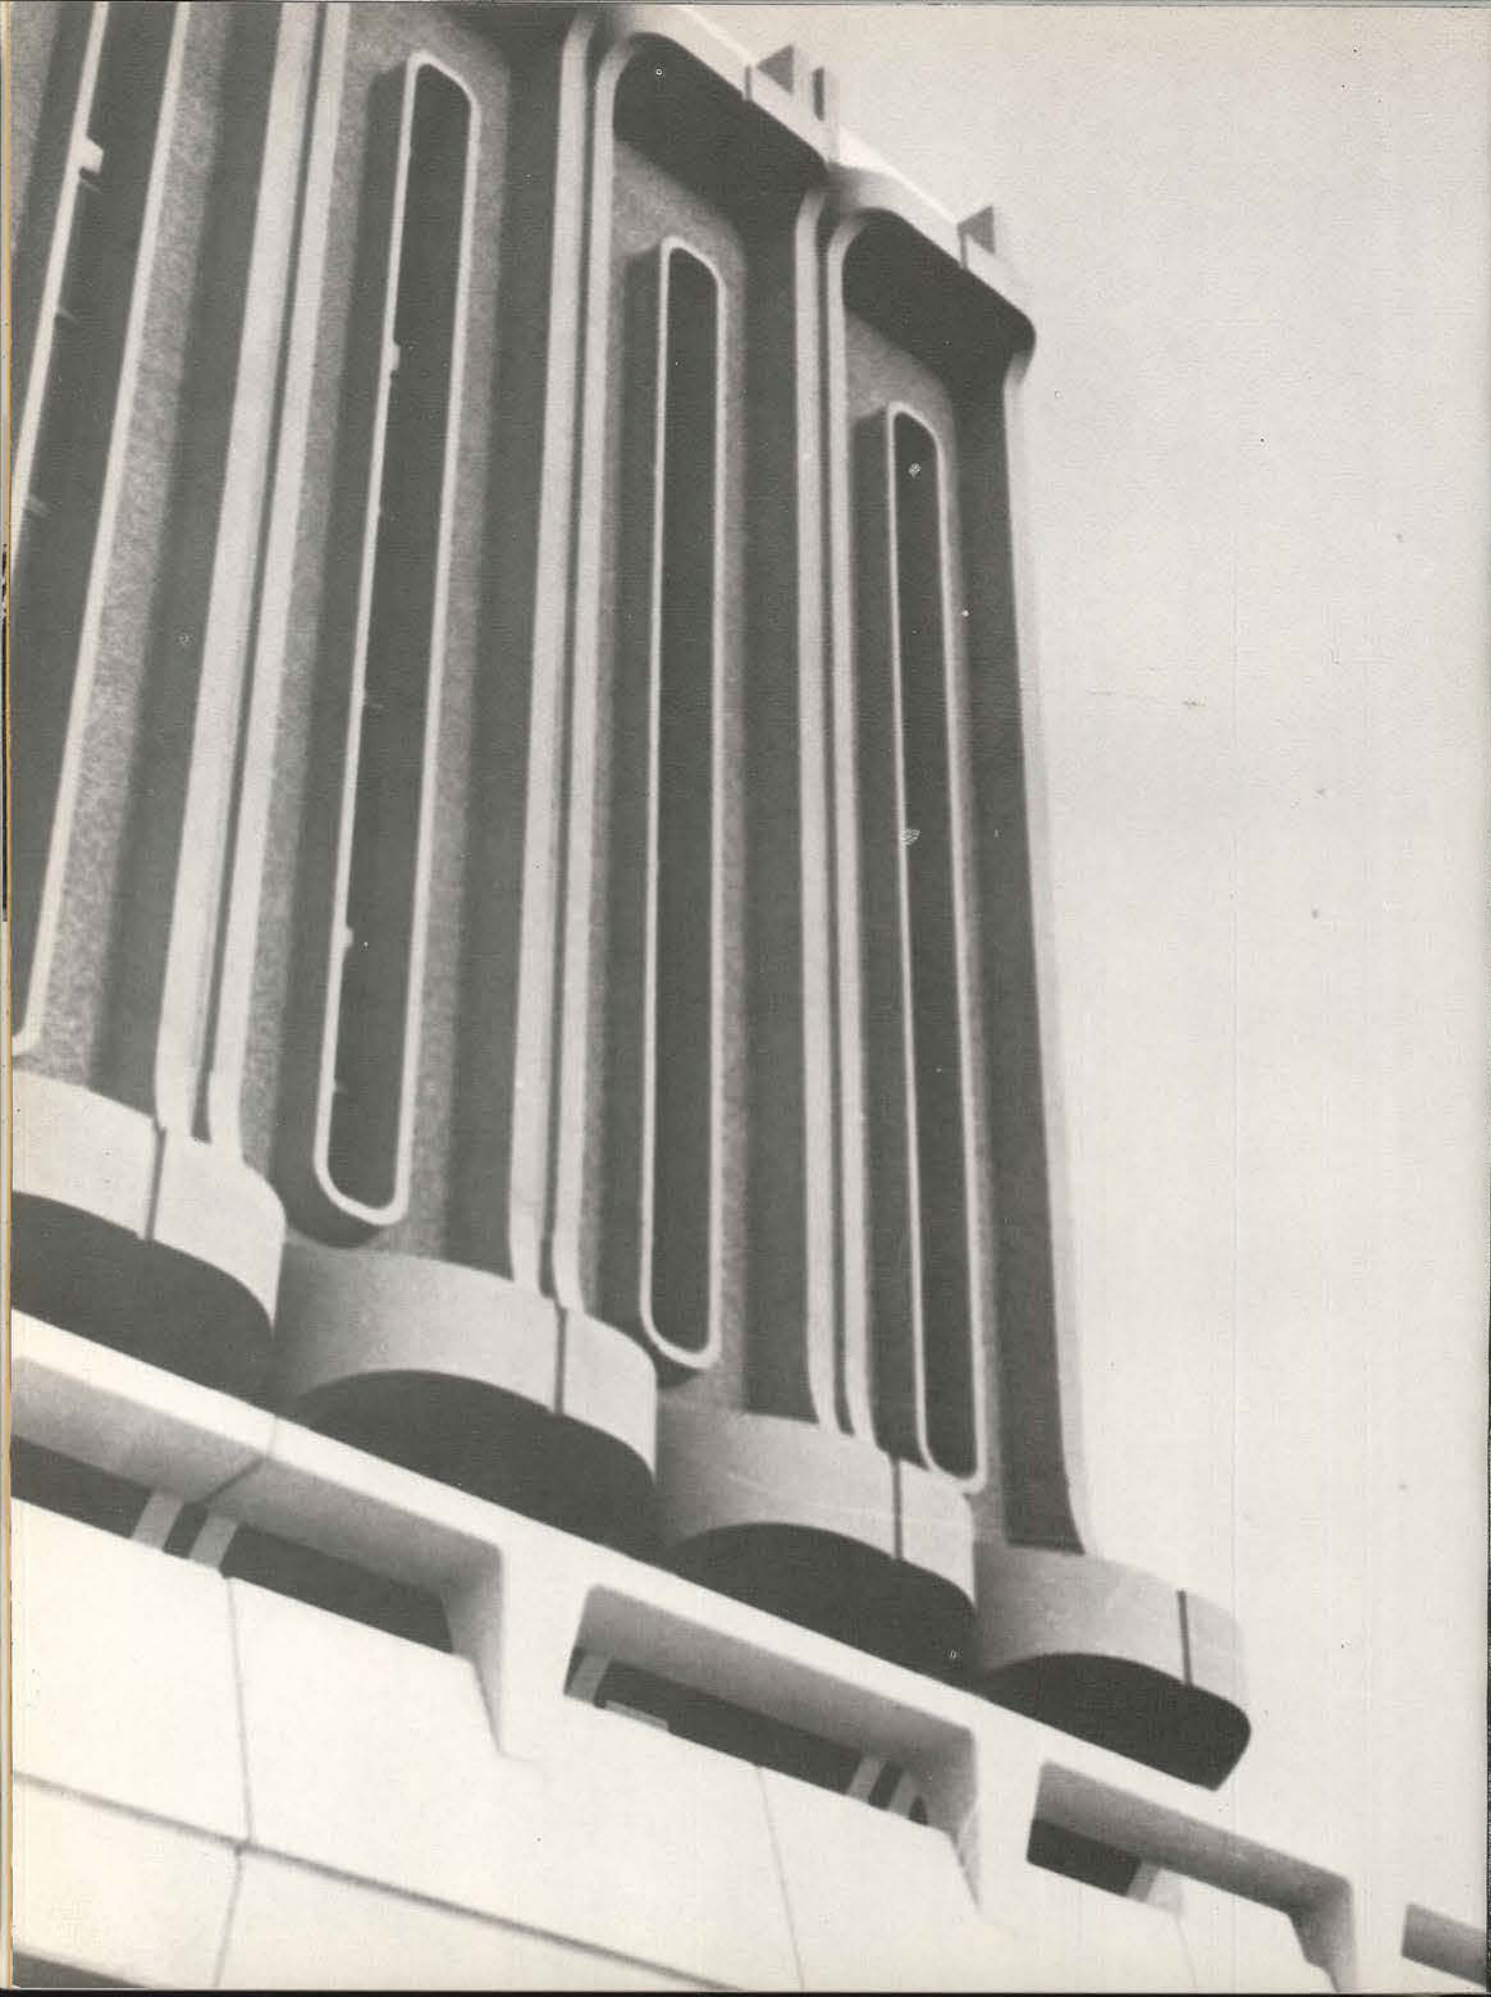

The Balboa Bay Club is pleased that so many of its members support such organizations as Big I Boosters, Boosterettes and Town and Gown which build bridges between the University and the community—pleased, too, that it can make available its facilities for these and other UCI-oriented activities.

1221 West Coast Highway, Newport Beach

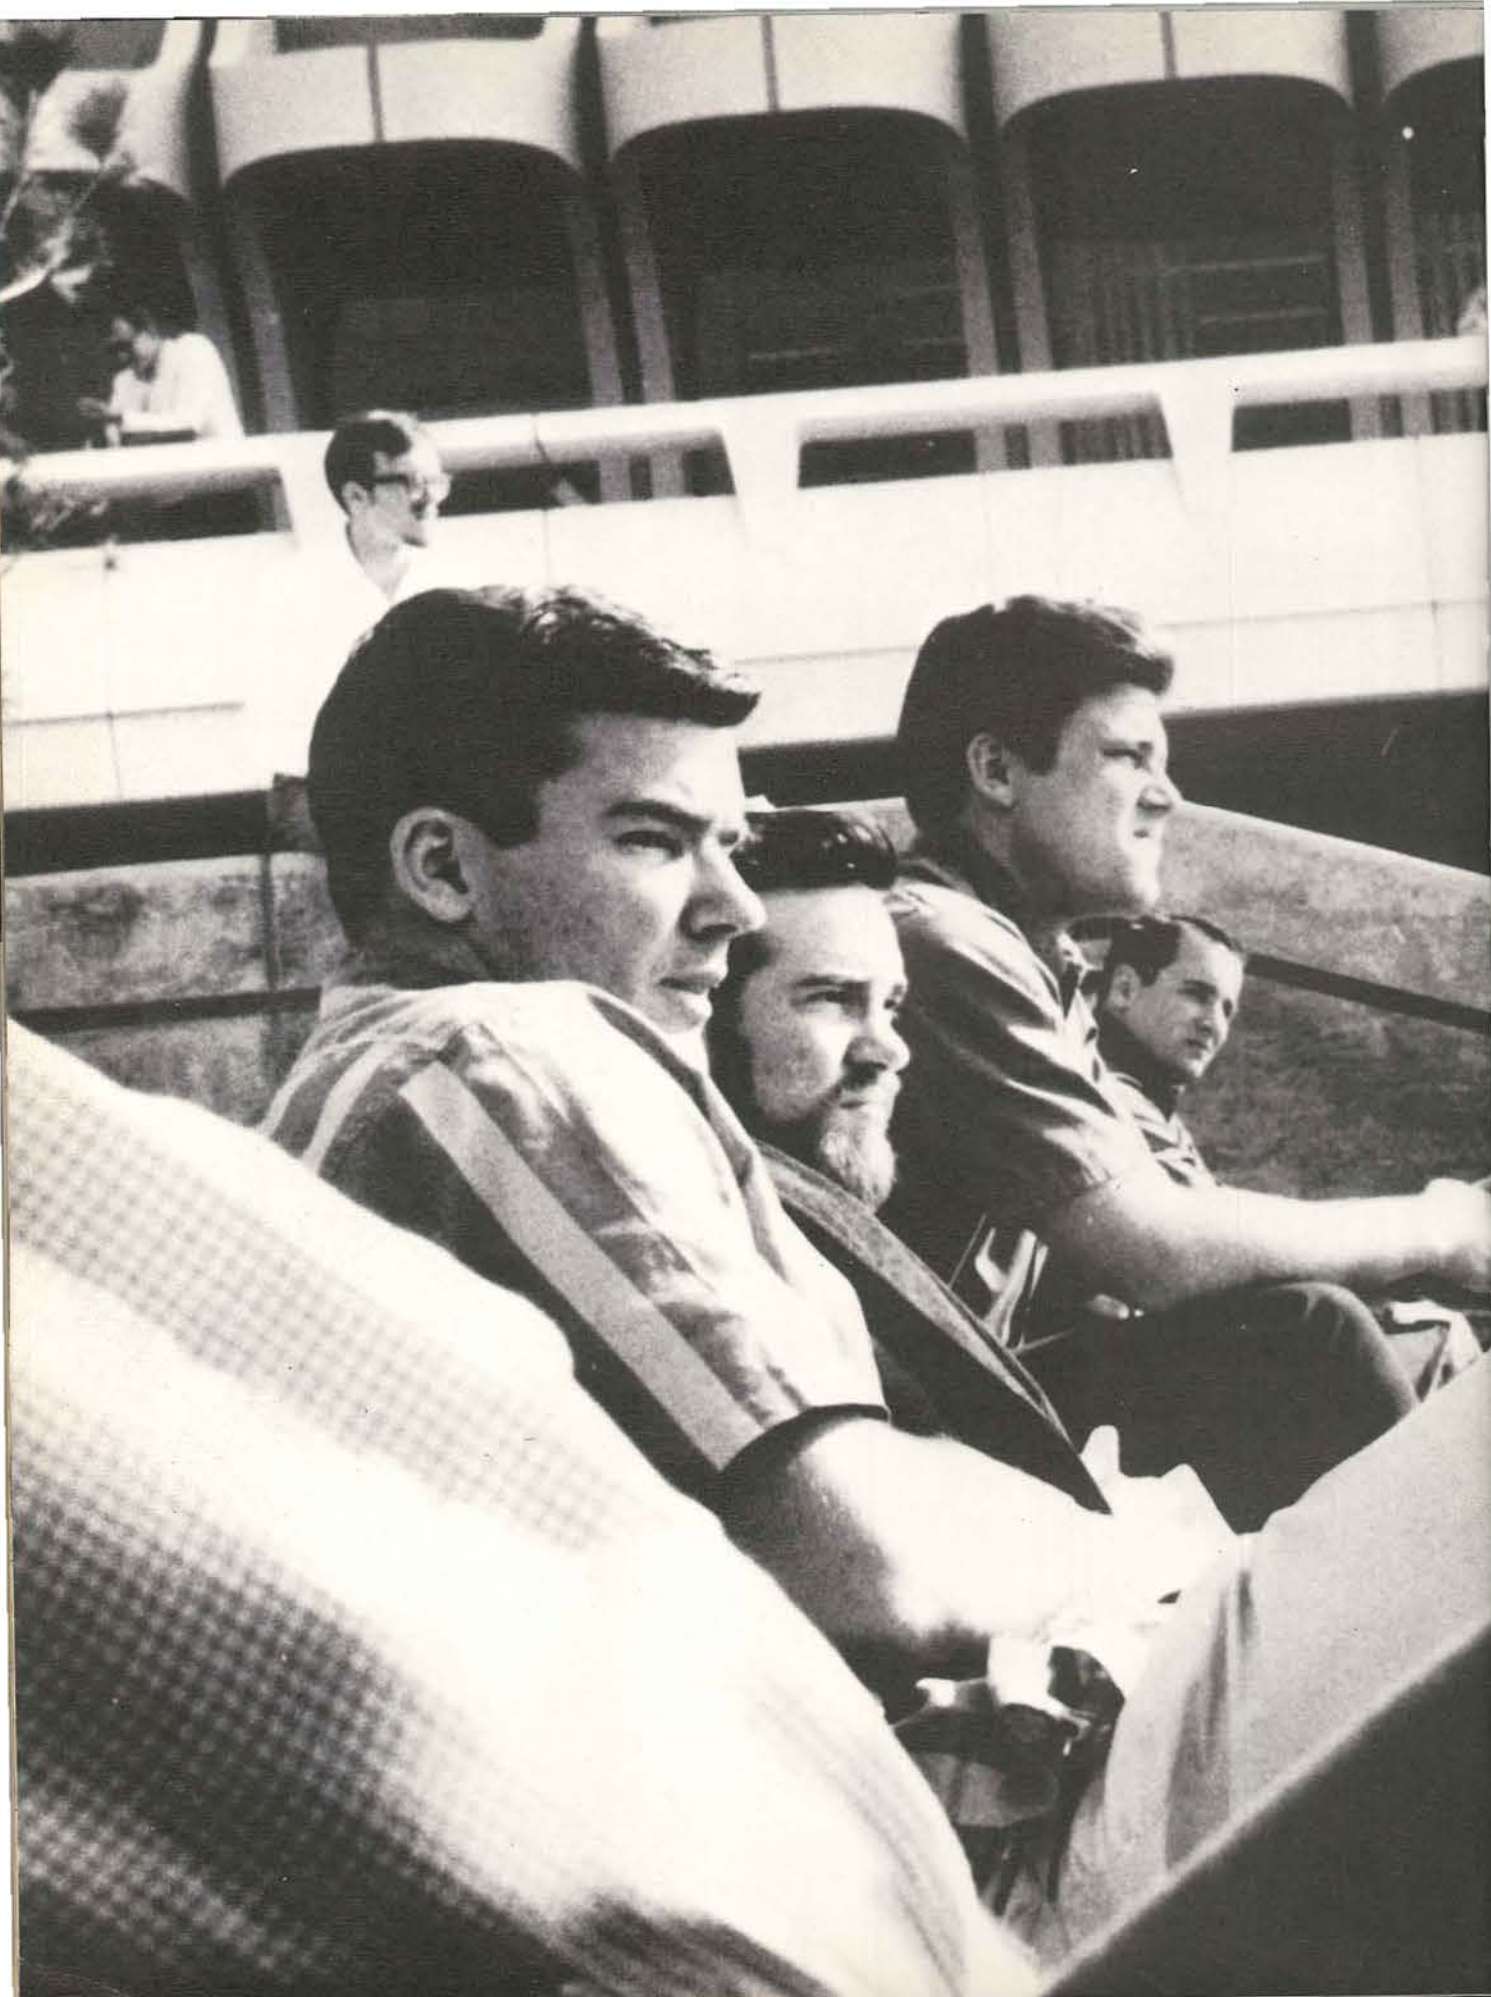

THE I's HAVE IT

Big I Boosters have fun sharing an exciting program of meetings and parties throughout the year—and the satisfaction of making possible scholarships and other forms of aid to UCI. Tell your friends about the Big I, dedicated to furthering the intercollegiate athletic program at the University of California, Irvine. Membership is open to all interested persons. Direct inquiries to Big I Boosters, University of California, Irvine, California 92664.
