GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

SWINE COST STUDY: Have been contacting cooperators in this work to attempt to complete as many as possible of the records for summary after January 1. These records are straggling somewhat, due to the necessarily lessened amount of time spent on them in the past few months.

1939 AGRICULTURAL CONSERVATION PROGRAM: We have spent considerable time in the office this week preparing to present this program at educational meetings to be held in the county next week.

WORK CONTEMPLATED FOR NEXT WEEK, ENDING SATURDAY, _____, 193

12-15-38	Snelling	Agricultural Conservation	3

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

AGRICULTURAL CONSERVATION PROGRAM: The greater part of the week has been taken up with meetings and preparation for meetings on the educational phase of the 1939 Conservation Program. Meetings generally were poorly attended. Interest seems to be lacking in the general phases of the program; most farmers attending were concerned only with the application of the program to themselves.

MEETINGS HELD THIS WEEK BY ASSISTANT REPORTING.

Report here meetings at which Farm Advisor or other superior was not present.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

4-H Club Organization: Most 4-H Agricultural clubs are getting under way for the New Year. Called at Plainsburg, Le Grand, Planada, and Tuttle in regard to organization of new clubs. Le Grand has actively started a scout unit, so we agreed not to start a 4-H Club until the scout troop had been tried. Planada, Tuttle and Plainsburg have considerable interest in getting clubs started, and several possible leaders have been contacted in each community.

1/16	Bellevue	Beef program	7
------	----------	--------------	---

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

Beef Program: With L. H. Rochford, spent a day and a half outlining a breeding and management program for the Crocker Huffman ranches. Program included maintenance of herd in three main units: 1. Purebred herd for seed stock principally; 2. A top herd of 40-45% of best cows in total range herd and; 3. Regular commercial herd built up of replacement heifers from top herd. A cull herd of old cows, cull ends, etc. from which calves would be vealed and cows sold in as good flesh as possible, would make a fourth unit.

Program also included regular supplementing practice; a definite breeding season, a sales policy designed to make greatest use of cheapest gains, and the keeping of records that will show pounds of beef produced annually by different classes of beef and cost of production of that beef.

MEETINGS HELD THIS WEEK BY ASSISTANT REPORTING.

Report here meetings at which Farm Advisor or other superior was not present.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

HI H SURVEY: There were several communities in Merced county in which we had not completed our Hi H survey (contacting former 4-H club boys of 20 to 30 years who are engaged in farming in the county). These included Stevinson, Gustine, El Nido and several 4-H Club communities on local mail routes out of Merced. With the aid of Frank Spurrier, lists of former club members in these communities were checked with their club leaders, and as many as possible of the former club members who are now young farmers were contacted. We urged all to come to the meeting next week for which a fine program has been arranged.

This virtually completed our survey of former club members by communities in the county for Hi H club. A mailing list of 85 has been made up, and only a few of these have not yet been personally contacted.

2/10	Davis	Swine Day	4

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

HI H CLUB: Spent another half day contacting former 4-H Club members for the meeting of the Hi H on Tuesday. At the meeting, a majority of those attending were the ones more recently contacted. There seems to be a rather considerable group interested in the organization. It is difficult for many of them to attend all the meetings. The speaker on the Farm Tenant Purchase Act found the group enthusiastic and commented afterwards that those were just the type of young men that they desire to help get a good start in farming with low interest loans.

SWINE COST STUDY: All possible time is being used to complete the summarization of the swine cost records. They require considerably more office time than was anticipated.

3-2	Gustine	Cottonwood Farm Center	27

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

SWINE NEKRO: Jack Bunker of Gustine came into the office Tuesday and reported having lost 20 of his 200 hogs from enteritis within the past week or so. The local veterinarian seemed unable to bolt the disease. We called Dr. McKay and he had the call changed to Dr. Boynton. Dr. Boynton was not in, so at Mr. Tippet's suggestion, Mr. Bunker took two hogs to Berkeley the next day. Dr. Boynton pronounced the disease necrotic enteritis and suggested hog cholera serum treatment. The outbreak was probably brought on or at least aggravated by serum and virus treatment for cholera administered before enteritis was noticed.

The disease seems to have run its course as no new cases have been noticed lately, but about 60 to 70 feeder pigs have died.

Most of this week has been spent in the office on office calls. What little time was available was put in on swine cost and other records.

3-9	Dos Palos	Farm Center	23

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

ARENA 4-H CLUB: Word came in this week that a group of boys and girls wanted to start a 4-H agricultural club at the Arena school. A teacher is willing to act as club leader, while we and the members look for an outside leader to handle the agricultural projects. Even though it is late we decided to let them start the organization. They feel that they can complete their requirements within the time allotted.

County 4-H Club enrollments are coming in satisfactorily.

SWINE PROBLEMS: There have been many calls for information on swine management and problems. Feeding practices and sanitation needed improvement on nearly all hog farms visited mange and lice are causing much of the trouble, and enteritis, feed deficiencies, and pig losses are responsible for many calls for assistance.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

SENIOR 4-H CLUB: The Merced County Senior 4-H members were conducted on a tour of radio station K.Y.O.S on Tuesday evening. The 4-H Club pledge and songs were recorded and reproduced, and individuals with talent tried out over the audition microphone. There was a short business meeting afterward in the Agricultural Extension Office.

DELHI 4-H COMMUNITY PROJECT: The Delhi 4-H Club leaders called for assistance in laying out a park which the 4-H Club has selected as its community project. The lot has been donated for the purpose, as have a number of shrubs and trees. We helped get the project started, and have asked Mr. Butterfield to help us with a long time landscaping plan. Upkeep of the park will be supervised by a young man living adjacent to it.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

SWINE MANAGEMENT: A particularly virulent mange has been attacking hogs on many farms in the county. Ordinarily kept under control by oiling, infestations have refused to respond to this treatment, and sprays, dips, or swabbing with lime-sulfur, creolin or creosote solutions seem necessary to clean it up.

The worst infestation visited was on the property of the State Farming Company near South Dos Palos, where all shoats were seriously affected. At our suggestion, they purchased a small spray outfit for cleaning up premises, and are constructing a concrete dipping vat.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

HI H MEETING: The HI H group met at Hilmar for a semi-social meeting, and invited the women to be present. Only two came. Two members reported on projects completed, a film was shown, and refreshments were served.

SWINE PERFORMANCE RECORDS: L. H. Moe and H. G. Fawcett have each completed records on one year of swine performance on their farms. S. Newhall was unable to keep the records for the past year, but will start with his current litters.

4-H CLUB EXHIBITORS: We sent five 4-H exhibitors from the county to the Interstate Junior Livestock show on Treasure Island. Four boys took 10 hogs and one girl took a beef calf.

The Gustine 4-H Club held its first livestock show on Thursday night. A very creditable showing was made. The 4-H Club band opened the program with a group of numbers, livestock was judged, and a showmanship contest was held.

4-7-39	El Nido	4-H Club	9

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

SWINE COST STUDIES: Most of the week was spent in the office summarizing the 1938 Hog Cost Study. There is still considerable work to be done to complete the analysis.

4-H CLUB AT YOUTH DAY: Accompanied the Gustine 4-H Club band to the Golden Gate International Exposition. The band participated in the Youth Day Parade, played several numbers during the Youth Day program in California Coliseum, and gave an hour concert program in the California building in the afternoon.

WORK CONTEMPLATED FOR NEXT WEEK, ENDING SATURDAY, _____, 193

Signed _____, Assistant making report.

Date read and forwarded _____, District Leader.

Date read and forwarded _____, State Leader.

Three copies of this report should be made out each Saturday; one copy kept by the Assistant; one by the Farm Advisor; and one copy mailed to the State Leader.

4-21-39	Modesto	Senior 4-H Club	17

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

SWINE COST RECORDS: Wallace Sullivan came down for Thursday and Friday to complete the analysis of the Swine Cost summaries. Eight completed records were analyzed and are nearly ready for making into the first annual Swine Cost Study report for Merced county.

4-H CLUB SUMMER CAMP: In an effort to divide more evenly our two summer camp groups, we have sent out a questionnaire to obtain information on intended attendance and transportation to camps. We feel that if transportation can be arranged for all wishing to attend the camp for older members, our camps will be more evenly divided this year.

MEETINGS HELD THIS WEEK BY ASSISTANT REPORTING.

Report here meetings at which Farm Advisor or other superior was not present.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

4-H CLUB ENROLLMENT: Have checked up on all 4-H Ag Clubs and obtained enrollment cards from all clubs. Enrollment in agricultural clubs totals 259 to date, compared to 331 enrolled in 1938

CHICK BRONCHITIS: For the second time this year chick bronchitis has shown up in a flock of three week old chicks. In a flock of 500 pullet chicks on the H. F. Vassar ranch this disease seemed to infect all the chicks, although mortality has only reached 7%, and the worst seems to be over.

5-5	Winton	Farm Center	43

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets; if necessary.)

Poultry Troubles: Brooding season is bringing out many poultry troubles. Chick bronchitis, Coryza, internal parasites and Pullorum disease are the most common causes of trouble. Most of them are to a large extent to be blamed on improper management practices. This will give us a good foundation for a topic for the series of summer management meetings to be held the end of the month and early in June.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

4-H CLUB SUMMER CAMPS: Completed arrangements this week with officials in Yosemite Valley for our two 4-H Club Camps and the Tri-county Women's camp, which will immediately follow the club camps. Older club members will start camp on June 10 and break camp on the 13th. The younger 4-H Club member camp will be from June 13 to June 16.

We are making arrangements to purchase for the camps, table ware and silverware for all members. This will do away with the necessity of each member bringing his own ware, and will make possible more sanitary dishwashing.

All camp food supplies have been ordered and menus for all meals made out.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

POULTRY MEETINGS: Spent most of the week contacting poultrymen about possibility of meetings in communities, and getting lists of poultrymen in the county up to date. Ran into considerable difficulty in scheduling meetings on many farms due to pressure of work on some farms and fear of disease on others. Two felt that they wanted more time to clean up premises before a meeting was held there.

6-5	Merced	County 4-H Club Council	33
6-6	Merced	Hi H	5
6-8	Winton	Poultry	14
6-10 to 13	Yosemite	4-H Summer Camp (Older Members)	178

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

HI H CLUB: The continued poor attendance at Hi H Club meetings is discouraging. Most young men contacted are interested, but do not find or make time to attend meetings. The few at this meeting decided to try a picnic meeting late in July.

POULTRY MEETING: The first of the series of summer poultry meetings was held on the E. B. Galbraith ranch, Winton. A small but interested group had many questions to ask after the discussion and demonstration.

WORK CONTEMPLATED FOR NEXT WEEK, ENDING SATURDAY, _____, 193

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

TURKEY MEETINGS: W. E. Newlon visited the county on Tuesday to speak at two Turkey Meetings - one at the M. M. Reiman ranch at Planada, and the other at the C. J. Lingerfelt ranch at Delhi. Interest centered in feeding problems, judging from questions asked. Excellent interest was shown in the meetings, and requests for more of a similar nature in the future were received from several participants.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

SWINE COST STUDY SUMMARY: All but one of the cooperators who completed the 1938 Swine Cost Study attended the meeting at which we presented the completed analysis of the study. Explanation of the tables in the analysis by Wallace Sullivan was followed with intense interest by all cooperators, and the several visitors. Many questions were brought up and the ensuing enthusiastic discussion was very stimulating.

On Friday, with Mr. Sullivan, we called on a number of cooperators and analyzed with them, in more detail, their part in the study.

--	--	--	--

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

4-H CLUBS: Principal summer activity of Agricultural clubs is preparation for fairs in the fall. Gustine and Los Banos Clubs intend to show stock at the State Fair in September. The Hilmar and Elim Clubs will show at the Stanislaus County Fair, August 1 to 6, as that fair includes the portion of Merced county included in the Turlock Irrigation District. These clubs and many others will show their projects at the Merced County Fair which followed immediately after the State Fair.

Club leader and project calls this summer are principally concerned with status of clubs and arrangements for the various fairs.

7/19	Los Banos	Farm Center Planning Committee	12
------	-----------	--------------------------------	----

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

Farm Bureau: In an effort to aid the farm center in increasing attendance at meetings and bolstering Farm Bureau membership, the farm center planning committee of the Los Banos Farm Center met and arranged tentative programs for the next four meetings.

Poultry & Hogs: In addition to regular poultry and hog farm calls, arrangements have been made for three poultry demonstration meetings to be held next week, and one to be held in September. A flock of 350 Rhode Island Reds was handled and culled for E. McCart.

Hi H Club: Arrangements were made for the Merced County Hi H Club to hold a social night near Hilmar next week. A weiner roast will be the main event.

WORK CONTEMPLATED FOR NEXT WEEK, ENDING SATURDAY, _____, 193

Signed _____, Assistant making report.

7/27	McSwain	Poultry Demonstration	27
7/27	Gustine	" "	18
7/28	Hilmar	" "	10

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

Hi H: The Hi H social night turned out the best crowd since the start of the club in Merced County for a weiner roast and soda pop bust on Joe Mill's sand bar East of Hilmar. Everyone seemed to have a good time. We hope that this may contribute to better attendance at regular meetings in the future.

Poultry Demonstrations: Interest in poultry was shown by good attendance at three demonstrations this week, and interesting discussions after the regular presentation of information. Greatest interest seemed to be in post-mortem examinations of diseased birds.

8-25-39	Los Banos	Farm Center	27

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

HOGS: On the ranch of J. Meadows at Le Grand, hogs have been doing poorly, and although veterinarians have posted hogs on two occasions, the exact cause of trouble seems hard to find. Lack of sanitation is undoubtedly part, if not most of the trouble.

4-H CLUB: Preparations are being made for a large 4-H livestock exhibit at the Merced County Fair and Fiesta. Most of our Agricultural clubs expect to be represented.

The principals of the grammar and high schools in Gustine each assured me that relations between the two schools, affecting 4-H Club work, would be improved for the duration of the coming school year.

SKIN BLISTER: An outbreak of skin blister in three cattle on the Crocker-Huffman ranch occurred on Friday. They treated the affected animals, but left them in the herd grazing on Dallis grass. Examination of the field Saturday indicated that two of the twelve suspected weeds were not present. These were "Cotton Batting Plant" and "Wild Marigold".

MEETINGS HELD THIS WEEK BY ASSISTANT REPORTING.

Report here meetings at which Farm Advisor or other superior was not present.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

HOG PROBLEMS: Dr. McKay spent Thursday in the county and we visited three of the ranches which have been having difficulty with hog troubles. Pigs were posted on the R. J. Boyd ranch and on the J. Meadows ranch. Heavy intestinal roundworm infestation and postulated lungs were found in the pig on the Meadows ranch. No definite pathological symptoms were found in the Boyd pig.

On a third ranch, that of Harry Nicolay, evidence indicated a mild and slow acting form of cholera. The disease had been arrested by use of hog serum without virus.

4-H CLUB COMPLETIONS: We have started a campaign to get a high per cent of completions in 4-H agricultural clubs. A deadline for turning in books has been set for October 21, two weeks before the annual Achievement Party on November 4. We hope to boost completions for boys to 85% from 80% for last year.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

4-H CLUBS: The Fairview 4-H Club was re-established Wednesday night after three years of inactivity. Nine members have signified their intention to join the club which will be under the leadership of Paul Bundgard, older brother of several 4-H Club members who belong to another club in the community.

WORMING HOGS: In order to demonstrate the proper dosage of oil of chenopodium, followed by castor oil as a vermifuge for hogs, we treated 74 hogs on the J. Meadows ranch at Le Grand. The chenopodium was in a commercial worm capsule and the castor oil was administered with a syringe - approximately 1 oz. for each 50 pounds of pig. Charles Justus, Assistant Rural Rehabilitation Supervisor, and Cobb Southward of the Farmers Warehouse, assisted.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

Turkey Pox: Tom Maher vaccinated several thousand turkeys for pox about a month ago. Two weeks ago he reported that many of the turkeys were showing pox pretty severely, although examination revealed nearly 100% "take". On examination of the sick birds and questioning the man taking care of the turkeys we concluded that the sick birds had the disease when vaccinated. This week a few birds were still breaking with the pox, but not in large enough numbers to be serious. We repeated our recommendations that all affected birds be segregated and sores treated with iodine, and that in the future vaccination be completed before cases of pox were visible in the flock.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

Livestock Projects: D. T. Batchelder spent Friday in the county visiting livestock projects to determine status, obtain records, and encourage cooperators.

Turkey Growers: A group of westside turkey growers, dissatisfied with the marketing setup of the California Turkey Growers Association, have planned to start a cooperative killing and cooling plant at Newman to market cooperatively through the Northwest Turkey Growers Ass'n. At a meeting at Newman, it was determined that a signup of 25,000 turkeys would be necessary to start the plant. As 16,000 birds for market were represented by interested growers at the meeting, another meeting was called for next week at which the co-operative will be organized if the expected interest is forthcoming.

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

4-H CLUB WORK: At the request of the Merced Colony P.T.A., I attended a meeting there Wednesday night and explained the aims and setup of 4-H Club work. Spent much of this week checking in and correcting 4-H project books in preparation for Achievement Day.

TURKEY GROWERS: The west side turkey growers held a second meeting at Newman Thursday in a further attempt to organize a unit of the northwest Turkey Growers Association. It was evident that enough turkeys were represented by interested growers to start the unit, so a signup was started to obtain the directorate. As many of the turkeys were tied up by feed companies etc, it was necessary to continue the signup for a few days after which the first regular meeting of the unit will be held, and work started on the killing plant.

MEETINGS HELD THIS WEEK BY ASSISTANT REPORTING.

Report here meetings at which Farm Advisor or other superior was not present.

11-6-39	Merced	County Club Council	26
---------	--------	---------------------	----

GENERAL REMARKS.—Give any interesting points in regard to the work, especially as to progress and results. (Use extra sheets, if necessary.)

PULLORUM IN TURKEYS: The increase in poult losses from pullorum has brought out the importance of blood testing breeding birds. Most hatcheries are insisting that turkey eggs hatched by them come from tested stock from which the reactors have been removed. Inquiries as to how and where tests can be made are frequent. A private laboratory has been set up in Modesto recently, to handle these tests locally. The state laboratory in Los Angeles is handling many of the tests from this area.

SWINE BUILDINGS: Dr. J. L. Mudd and W. S. Mudd are constructing a large central farrowing and feeding house at Le Grand, and they are planting pasture to be divided in strips and pastured off. We took W. S. Mudd to see 15 new A type houses being built on the Hise ranch, and a desirable colony house on the Baxter ranch.

WORK CONTEMPLATED FOR NEXT WEEK, ENDING SATURDAY, _____, 193

Signed _____, Assistant making report.

Date read and forwarded _____, District Leader.

Date read and forwarded _____, State Leader.

Three copies of this report should be made out each Saturday; one copy kept by the Assistant; one by the Farm Advisor; and one copy mailed to the State Leader.
