Mr. Lonnie Hendricks
Farm Advisor
415 F. Street
Los Banos, California

Dear Lonnie:

The time has come to start thinking about walnut aphids again and so I am planning a trip next week in order to line up parasite release plots for the coming season.

It is my intention to make releases in new plots in each locality this year. Thus, in your area I would like to set up a plot somewhat removed from the Nunes grove and use the latter to evaluate the "take", if any, from last year's releases.

At any rate, my assistant and I will be in Los Banos Tuesday morning (March 3) about 10:00 a.m. and will drop into your office to talk over the 1964 plans with you.

Sincerely,

Robert van den Bosch
Associate Entomologist
