WINTER CLASSES AT C/R

The Agriculture Department at College of the Redwoods has several classes that might be of interest to ranchers. They are as follows:

* LARGE ANIMAL DISEASES - taught by Bruce Bergman on Tuesday evenings from 7-10 p.m. The class will cover identification, prevention, and treatment of the major local diseases and parasites.

* AGRICULTURE ECONOMICS - taught by John Regli on Monday evenings from 7-10 p.m. This class will give a practical insight into economic problems of agriculture and what can be expected in the future.

* HORSE MANAGEMENT - taught by Bruce Bergman on Thursday evenings from 7-10 p.m. This class will cover horse production, including management, genetics, behavior, training, and managing horses as a business.

* SHEEP SCIENCE - taught by Bruce Bergman on Tuesday 1-2 p.m. and on Thursday from 1-5 p.m. This class will cover sheep production in this area and in California.

For more information on these classes, please call College of the Redwoods, 443-8411, Extension 600.

VIDEO TAPES ON LAMBING

There will be a showing of three sheep video tapes at the Agricultural Center Building on Tuesday, December 21 at 9:30 a.m., 2:00 p.m., and 7:30 p.m. and on Wednesday, December 22 at 9:30 a.m. and 2:00 p.m. The description of the video tapes are as follows:

* SHEEP OBSTETRICS - Dr. Don Bailey from Roseburg, Oregon, demonstrates procedures in delivering lambs, coping with problem deliveries, and care of the lamb right after birth.

* BABY LAMB SURVIVAL - Demonstrates and describes fundamental steps involved in raising healthy baby lambs under normal conditions, describing procedures used in the first 72 hours of a lamb's life.

* PREVENTING BABY LAMB STARVATION - Informs sheep producers of the circumstances leading to baby lamb starvation and the procedure of administering feed by the use of an esophageal probe.

The video tapes showing is a free educational program of Cooperative Extension. Each showing will last about one and a half hours.

Have a Merry Christmas!
