TO: Department Chairpersons, Program Directors and
Contributors of Statement of Research Interests
K. K. Tanji
FROM: K. K. Tanji, Director Designate
Kearney Foundation of Soil Science
RE: Call for Research Proposals

Attached is the Call for Research Proposals for the 1985-90 Mission on "Water Penetration Problems in Irrigated Soils." The deadline for submission of proposals and summary sheets is March 6, 1985.

Also attached is a list of contributors of statement of research interests by subject matter area. In a separate mailing, contributors will receive a complete set of all statements of research interests along with comments and suggestions for their specific statements from the Technical Committee.

Department Chairpersons and Program Directors are asked to make as many copies as needed to distribute this call to faculty and extensionists who wish to submit a proposal but did not contribute a statement of research interest. The Prospectus (mailed 11/14/84) for the 1985-90 mission should be reviewed by applicants for research funds.

I am looking forward to your proposals and summary sheets. I can be reached at (916) 752-0683 or leave message at 752-0453. Your proposals will be evaluated by the Technical Committee for relevance, scientific merit and anticipated contribution to the overall mission.
