Note: If a field or laboratory experiment is involved in this Plan of Work, the form "Plan of Work Supplement for Field or Laboratory Experiments" should be completed for each experiment and attached to or filed with this Plan.

WHAT IS THE SITUATION?

(Major problems; needs of people in this field of work. History and status of problem-importance to county.)

Last year the ratio of girls to boys in Madera County was 1.47 to 1. It does not look like this figure will be improved this coming year.

There were 124 members in the ninth grade or above. This represents close to 22% of our total 4-H enrollment. Only 59 were enrolled as junior leaders

Project completions last year were not very high. The overall Madera County completion figure was 74% of enrolled members.

LONG-TIME OBJECTIVES AND TEACHING OBJECTIVES

Channel the girl-boy ratio back toward a more workable, on-going figure.

Encourage participation in the Junior Leader program so that at least 70% of all high school 4-H members are active.

ANNUAL GOALS

1. To secure more men leaders for the project areas of electricity, field crops and woodworking that the 4-H boys will more readily identify and work with.

TEACHING PLAN (METHODS) FOR COMING YEAR

Learning experiences to be provided —
activities-events (include timing)

1. Use leader training sessions to present new visual aids in electricity and livestock so that leaders can attract more youngsters.
2. Encourage participation in special projects such as sugar beet plots.
3. Enlist woodworking leaders who can provide enthusiasm and a challenge to boys from both rural and urban homes.
4. Encourage the newly organized junior leader committee to thoroughly read and evaluate junior leader plans, make suggestions on them and return them to junior leaders to serve as a guide.

(Attach additional plain sheets as needed)

See reverse side for calendar and signatures

CALENDAR OF OPERATIONS

When	Number of Days Required	What	Who
October & November	3	Achievement Nights	Host clubs & Staff
October 29	1	Sugar Beet Field Day	Sugar Beet Members & Farm Advisor

4-H

Membership

Lucille A. Milani, William R. Hambleton

By project, the completion figures are as follows:

Home Economics.....	75%
Livestock.....	46%
Electricity.....	56%
Field crops.....	40%
Junior Leader.....	54%

ANNUAL GOALS

2. To increase membership in the junior leader project.
3. To obtain active participation of 4-H members in 4-H Club activities and events at the county and community level.
5. Provide extra recognition for junior leaders at Hi 4-H meetings to stimulate interest in the project.
6. Work out plans with community leaders to assign new club members to a junior leader for guidance and help throughout their first years of club work.
7. Use older members to conduct training sessions at officer training meeting. Involve these members whenever possible at the county level. Encourage them to attend 4-H Leaders Council meetings.
