Project Wild Workshop

Mariposa County 4-H will be sponsoring a 'Project Wild, Aquatic Wild & Project Learning Tree Workshop'. This workshop is for youth leaders and educators as well as teen leaders. This workshop will take place on Saturday, June 9th at the Mariposa Park from 8:00a.m. to 4:30p.m. The presenter will be Larry Fossen from Amador County. Participants will receive all the materials including manuals to integrate the Project Wild, Aquatic Wild and Project Learning Tree award winning programs into their respective program. Leaders and Educators will gain insight into applying the hands-on curriculum in conjunction with other curriculum or projects.

Enrollment is limited to 25 participants. The workshop costs \$20.00. Dress casual as we will be doing activities outside. Register early! Registrants will receive a letter confirming their enrollment, along with a map and directions to the workshop. Please bring your own lunch and a lounge chair.

For further details, contact Donna Wice, 4-H Coordinator, at 966-2417.

The University of California prohibits discrimination against or harassment of any person employed by or seeking employment with the University on the basis of race, color, national origin, religion, sex, physical or mental disability, medical condition (cancer-related or genetic characteristics), ancestry, marital status, age, sexual orientation, citizenship, or status as a covered veteran (special disabled veteran, Vietnam-era veteran or any other veteran who served on active duty during a war or in a campaign or expedition for which a campaign badge has been authorized).

University Policy is intended to be consistent with the provisions of applicable State and Federal laws.

Inquiries regarding the University's nondiscrimination policies may be directed to the Affirmative Action/Staff Personnel Services Director, University of California, Agriculture and Natural Resources, 1111 Franklin, 6th Floor, Oakland, CA 94607-5200, (510) 987-0096.

Small-scale experiments in psychology, the sciences and health interventions are often being carried out. Despite their frequent utilization, little evidence has been gathered on how they are being conducted or evaluated. This paper presents a review of the literature on the evaluation of small-scale experiments.
