4-H Ag in the Classroom

Along with the 4-H clubs and projects, the Mariposa County 4-H Youth Development Program offers a school enrichment program called "Ag in the Classroom" which began with funding from the Mariposa County Farm Bureau in spring 2001. This program is very successful and enjoyed by the teachers and students.

The "Ag in the Classroom" program is a great opportunity for students to enjoy 'learn-by-doing' educational experiences, and develop skills that will benefit their lives. This curriculum is available to public, home, and private schools in Mariposa County. The curriculum ranges from the butterfly pavilions, Embryology, honey-bee life cycle, edible plant parts, Entomology, root-view gardens, dairy cows, and more.

Springtime is a very popular season to use this curriculum, so it is necessary for teachers to reserve the date and project they would like to use as soon as possible. If you are interested in using the "Ag in the Classroom" curriculum in your classroom or would like additional information on this program sent to you, contact Donna Wice at 966-4829 or email dswice@ucdavis.edu, or make an appointment to review the materials.
