Dear Dr. Gottlieb:

Enclosed is a fact sheet which will provide you with details concerning the Physicians Forum lecture on IGIV and Immunotherapy.

We are hoping to reach a heterogeneous audience of specialists including hematologists, oncologists, surgeons and immunotherapists, as well as doctors dealing in transplant patient management and infectious disease. We would also like to work with you by inviting specialists from the surrounding communities to take part in the presentation.

I am sure you will find this program interesting and hope we will be able to reach the appropriate group at your hospital with Physicians Forum.

I will contact you soon to discuss the program further or you may contact me at 1-800-821-2111. Thank you for your attention.

Sincerely yours,

Todd Lewis

Dear Dr. Gottlieb:

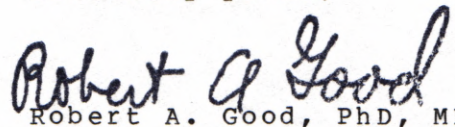

I am writing to invite your institution to participate in a national CME lecture program called Physicians Forum: "IGIV & Immunotherapy." This 60-minute lecture/slide program is designed for physicians specializing in immunology, infectious disease, hematology, oncology, burn and transplant patient management.

It has been my pleasure to develop this program in conjunction with a distinguished group of experts in immunology. These experts now serve as the national faculty of speakers who will present the lecture throughout the country. They will give a comprehensive background on IGIV and its use in treatment of overwhelming infection. This will be followed by a presentation of their own experience using IGIV for a variety of clinical applications.

We are scheduling the full course of this lecture now. If you would like your institution to participate, please call the program coordinators toll-free at (800) 821-2111 or collect (212) 832-0945 in New York.

I am confident of the practical and educational merit of this informative lecture. I certainly hope you will want to make this program available to physicians in your institution. Thank you for your consideration and attention.

Sincerely yours,

Robert A. Good, PhD, MD
National Co-Chairman

Faculty speakers in your area include:

David S. Gordon, MD
Professor of Medicine
Associate Professor of Pathology
Emory University School of Medicine
Atlanta, GA

Jeanne M. Lusher, MD
Director, Division of Hematology/Oncology
Wayne State University School of Medicine
Associate Medical Director
National Hemophilia Foundation
Detroit, MI

Fred S. Rosen, MD
Professor of Pediatrics
Harvard Medical School
Chief, Immunology Division
Children's Hospital Medical Center
Boston, MA

Basil A. Pruitt, MD
Colonel, MC, Commander and Director
U.S. Army Institute of Surgical Research
For SAM Houston, TX
