

### Analyst

#### Job Description

An Ernst & Young Entrepreneur Of The Year® winner, RowdMap, Inc. is at the heart of creating value from public data. RowdMap uses hundreds of public health sources to solve meaningful problems as payers and providers increasingly take on value based models and share risk. There's no industry with data as complex and challenging as healthcare. Learn the ropes and earn your stripes as an analyst at RowdMap. RowdMap is building a team of up-and-coming data rocks stars. Don't start at the bottom, start at the top. We're in Louisville – yes that's Kentucky. Offices are big and fun in the heart of whiskey row. It's a great place to camp out for a while.

Here's what you'll do:

- Analyze and interpret data from multiple sources (proprietary, HHS, CMS, Dartmouth, etc.), across various client work streams (clinical, sales, marketing, etc.), and in the RowdMap platform.
- Analyze with creativity, flexibility and an eye towards product-ization and systematization.
- Tell a story that is actionable. Not just pretty pictures... understand both the data and the business context to help business owners make better decisions.

At RowdMap, in addition to gaining key operational start-up experience, you'll also gain exposure to:

- C-level management and key business owners at major U.S. players
- Agile software development process
- All parts of the health care spectrum (business, policy, clinical etc.)
- Entrepreneurs with a proven track record.

#### Required Skills and Experience:

Analytical skills, and the ability to get down and dirty with Excel, Tableau, R., etc. to analyze and interpret data are all musts.

1. Basic data handling skill set. SQL experience is a plus. Can you put unruly data in its place?
2. Expert research and data exploration skills. Can you untangle a prize piece of data from the CMS labyrinth? Can you curate a story with complimentary data sets?

3. Data visualization and analysis skills. Tableau, D3, R experience a plus. Can you analyze a dataset and create an eye catching figure?
4. Prior experience with clinical coding systems a plus. (ICD-9, NDC, HCPC, etc.)
5. Be a rock star and bourbon aficionado. Ninja prowess encouraged, but not required.

Sense of humor and common sense are required.

### **About RowdMap**

RowdMap is a payer-provider, value-based analytics solution employing Risk-Readiness® Benchmarks to assist health plans, physician groups, and hospital systems identify, quantify, and reduce low-value care. Payers and physicians use RowdMap's physician and population health benchmarks to create strategies that put the highest performing physicians at the center of networks and then design products, organize clinical programs, and coordinate sales and marketing around them. RowdMap was acquired by Cotiviti, a leading provider of payment accuracy and insight-driven solutions, in July 2017. RowdMap and Cotiviti offer adjacent solutions that together target over \$600 billion of the estimated \$900+ billion waste and abuse in healthcare expenditures.
