

# Realities For Children

308 East County Road 30 \* Fort Collins, CO 80525  
970-484-9090 [www.RealitiesForChildren.com](http://www.RealitiesForChildren.com)

On behalf of the children we serve, it gives me great pleasure to welcome every staff member of Real Property Management Fort Collins to the Realities For Children family of business leaders that have chosen to make it their business to make a difference.

Recently Real Property Management Fort Collins has decided to become a Business Member of Realities For Children – an alliance of local businesses dedicated to changing the lives of children who have been abused and neglected in our community. As an employee at Real Property Management Fort Collins, you are part of this network of caring businesses and individuals.

The mission of Realities For Children is to provide for the unmet needs at-risk youth by uniting local businesses, youth agencies and the community in collaborative and mutually beneficial service.

You help to provide our core youth services and emergency funding to 38 local non-profit and government agencies that work directly with these children in need. They have immediate access to our emergency funding and services when all other resources have been exhausted or are otherwise unavailable.

Most importantly however, you are part of a private-social partnership that connects the for profit community with the non-profit community in a mutually beneficial manner that provides a way for everyone to be able to better the lives of children who have been abused, neglected or at-risk. I encourage you to learn about the wonderful youth agencies your membership is benefiting as well as the other Business Members you are partnered with, and choose to work with them personally and professionally whenever you need the services they provide.

You should be very proud to work for a business that is a recognized member of Realities For Children, and know that whatever your role may be, you are not only helping to better the lives of children in need in our community but also helping to unite our human services community to make certain that no child is forgotten.

With sincere appreciation and thanks,

Craig A. Secher – President/Founder  
Realities For Children Charities

*“Every day in our community children are identified as being in harm’s way due to the neglect and abuse they are subjected to. It takes a community, not a single agency to develop solutions to help these children. Thank you for your membership with Realities For Children and supporting our efforts to protect our most vulnerable citizens.”* Angela Mead, Deputy Division Manager

Larimer County Department of Human Services
