**Can I use Inbox by Gmail on my computer?**

Yes. Inbox works best if you use it everywhere you check your email. Open inbox.google.com in Chrome.

How do I add a Reminder?

Tap the red create button in the bottom right and then tap the blue Reminder icon.

Can I still use Inbox & Gmail?

Of course. All of your email is still in Gmail and always will be, but Inbox works best if you go all in.

Can I file feedback?

Yes, please. Open the menu and scroll to the bottom of your labels. Tap "Help & Feedback" and let us know what you think. If you're interested in giving in-person feedback, [sign-up to be interviewed](#) in future user studies.

Is Inbox going to replace Gmail?

Don't worry, Gmail isn't going anywhere. Inbox is a new experience designed and developed alongside Gmail.

Where can I learn more?

Check out our [Help Center](#) to learn more about specific features.

Dear Friend,

Welcome! You're now part of a nationwide effort to end hunger. Every year, thanks to countless volunteers, donors and partners, the Feeding America nationwide network of food banks provides support to more than 46 million Americans facing hunger.

As the nation's largest domestic hunger-relief organization, Feeding America is in more places, rescuing more food and reaching more people and children than any other organization. And that's all thanks to the dedicated supporters in every county across all 50 states of this country – and by joining in, you just made the movement to end hunger even stronger.

If you're active on [Facebook](#) or [Twitter](#), be sure to follow us there too. It's a quick and easy way to inject some good deeds and fulfillment into your social media experience each day.

Thank you again for your support. I'm excited about the possibility of all we can accomplish together.

Sincerely,

Diana Aviv
