Slim Line Knobs

Illuminated Two-Shot Fader Knobs

Illuminated Two-Shot Fader Knobs

Selco Products is pleased to provide the slim line illuminated two shot push-on fader knob. This slide potentiometer knob is molded as standard with black bodies and transparent lines. This new slim line knob can also be specified in alternative color combinations to suit particular design applications. Slide knobs reflect a range of value along a bar from which users may select a single value such as volume or brightness.

Selco's fader knobs are designed and shaped to provide a stylish appearance with ease of control. The extensive range, available in hard or soft touch finish, is intended to suit the needs of both OEM's and users. The soft touch finish versions compliment our line of rotary push-on knobs with the same finish.

Applications

Lighting, Audio, Synthesizer, Volume, Tuning, Medical, Instruments, Musical, Aviation

Tang Size	Part Number	Material
6mm x 2mm	3/02/LK070 02	Soft
6mm x 2mm	6/02/LK070 02	Hard
