Take full responsibility for your emotional health during this call. Tap on yourself and either swap or work with someone professionally if issues arise.

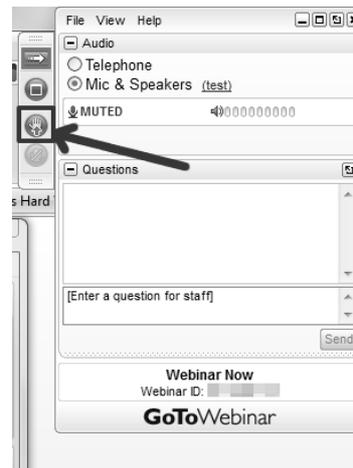

Questions and Answers at the end

To ask a question go to your Go To Webinar tool bar and press the hand icon

Please ensure you have the background TV or radio turned down

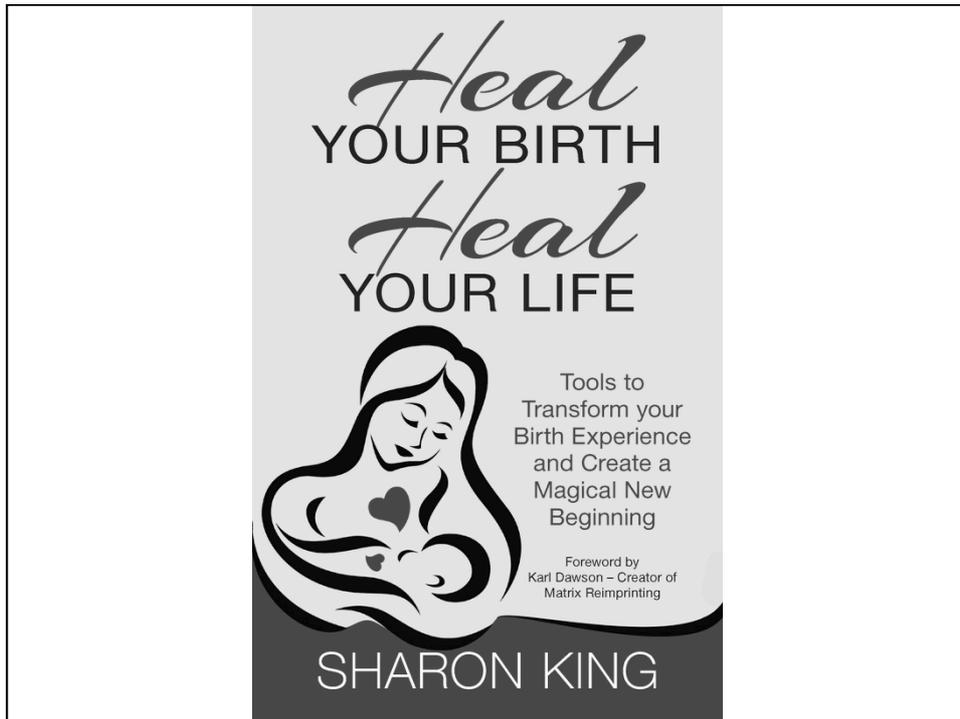

To write a question, go the chat box and write your question. Send to organiser only

My Background

- ▣ Holistic Therapist for over 17 years – Massage, Aromatherapy, Reflexology, Reiki, NLP, Access Consciousness
- ▣ Discovered EFT over 7 years ago – EFT Master Karl Dawson
- ▣ Was on the first ever Matrix Reimprinting Training and one of a few Matrix Reimprinting Trainers
- ▣ Created my own technique of working with birth trauma's 'Matrix Birth Reimprinting' which is featured in the Matrix Reimprinting using EFT book by Sasha and Karl

How Matrix Birth Reimprinting came into the world

- ▣ Learning EFT and Matrix Reimprinting
- ▣ Attending a BodyTalk Module 3 Consciousness workshop
- ▣ Senses developed or withdrawn at time of birth
- ▣ Vit K injection
- ▣ Eye drops - Silver Nitrate
- ▣ Blood Tests
- ▣ Suctioning
- ▣ 1st multiple Birth Reimprinting session with Caroline

Caroline's Session

Caroline 5 months Pregnant

Fear of 3rd Birth

Both births were the same

Luke's Birth

Caroline's Birth

Jamie's Birth

Archie's Birth

Outcome

JAMIE ARCHIE LUKE

Introduction

- ▣ The importance of the parent and child bonding process
- ▣ Development of the child's brain and senses during Pregnancy, Birth and Infancy.
- ▣ How the brain development and the belief systems of the child are formed during this period
- ▣ Our birth stories and how they affect our lives
- ▣ How we can help using EFT and Matrix Birth Reimprinting

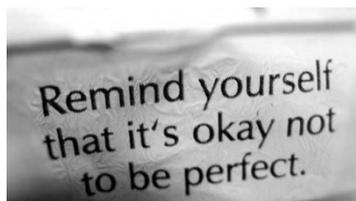

Let's start with a little tapping

- ▣ I may have not had perfect parents - they were doing the best they could with the knowledge and understanding they had at the time and I allow myself to find peace with this.
- ▣ I may not have been a perfect parent - I was doing the best I could with the knowledge and understanding I had at the time and I allow myself to find peace with this.
- ▣ I may not have had the perfect birth experience, I'm open to the possibility that I can reconnect with my parents or my child, and have the perfect birth and bonding experience for me.

Remember

- ▣ Everything is perfectly imperfect
- ▣ Everything is imperfectly perfect
- ▣ We are infinite beings here to have a human experience
- ▣ We chose our parents and our life experiences, which includes how we come into the world
- ▣ That means your child chose you for the experiences they need this lifetime
- ▣ Always remember the higher purpose and let go of judgment

What Babies Want DVD by Debby Takikawa www.whatbabieswant.com

How we come into the world

- ❑ Sets up precursors on how our body and brain are going to develop
- ❑ How our body system organises itself
- ❑ How our senses are developed
- ❑ How our Nervous system, Immune system and Endocrine organises itself
- ❑ How we relate to the world

How our birth story makes a difference to us

- ▣ Babies conceived to parents with clear intent of making a baby, feeling love and total support of each other
- ▣ The child /adult will have future experiences of new beginnings being easy and there being a feeling being supported

Compared to

- ▣ A baby that is thought of as being stuck in the womb.
- ▣ The mother given Oxytocin drugs to speed up the contractions.
- ▣ You will find that when you hurry up the toddler to leave the house they will throw a tantrum because of that feeling of being rushed.
- ▣ It touches that memory of being speeded up of leaving their first home.

Babies are conscious beings

- ▣ Babies have implicit memory, perceive their environment and recall it – subconscious
- ▣ Babies can identify songs whilst in the womb
- ▣ As a baby we have no idea of self or being separate from our mother's experiences
- ▣ Consider the mother's body as their own
- ▣ Every thought feeling and emotion is recorded
- ▣ Baby is also connected with dad.

Conception

- ▣ Babies conceived without intention and not wanted – shock of mother
- ▣ Rejection
- ▣ Do not exist – not called into being or invited
- ▣ Life is in danger
- ▣ Worthless
- ▣ Mistake
- ▣ Anxiety, Fear, Anger, Rage

In Utero

- ▣ Babies in the womb are receiving chemical hormones through the placenta - Adrenalin, Oxytocin, Serotonin - Energetically
- ▣ Peaceful and loving mother - higher intelligent child
- ▣ Fearful mother low intelligence
- ▣ Grief = Asthma and or Eczema
- ▣ Worry = Anxious child/adult
- ▣ Not wanted = Abandonment
- ▣ Any shock in the womb is recorded by the baby

Some negative experiences in the womb and at birth

- ▣ Mother or Father not wanting the baby
- ▣ Baby is the wrong Sex
- ▣ Parents experiencing Fear, Worry, Anger, Hate, Anxiety, Grief throughout the pregnancy
- ▣ Being separated from mother at birth
- ▣ Adoption
- ▣ Loss of Twin due to death or separation at birth
- ▣ Previous loss of child in the womb

Leading to patterns of

- ❑ Depression
- ❑ Substance abuse
- ❑ Eating disorders
- ❑ Childhood and adult suicide
- ❑ Aggression and violence
- ❑ Rape and abuse
- ❑ Skin problems such as eczema (Meta -separation conflict)
- ❑ Asthma
- ❑ General feeling of disconnection and separation
- ❑ Mental Disorders
- ❑ High Anxiety/Worry

Negative Emotions & Beliefs Caused by Separation at Birth

- ❑ Isolation
- ❑ Abandonment
- ❑ Anger , Shame, Fear
- ❑ The world's not a safe place
- ❑ I'm not wanted - rejection
- ❑ I'm not good enough
- ❑ I'm unloved / unlovable
- ❑ I'm unworthy
- ❑ I'm worthless
- ❑ I don't want to be here

The Birth Process

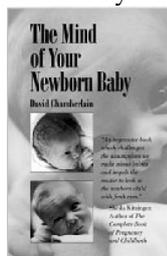

- ▣ Birth is a Mammalian process controlled by the hormone Oxytocin
- ▣ Animals giving birth will find a dark, safe, secluded place to give birth
- ▣ If the animal is disturbed nature has built in a safety guard and the birth process stops until the animal feels safe once again

- ▣ During World War II Man took over the birthing process in hospitals
Using instruments that would be used in normal surgery
Belief system built up now, that birth is a dangerous process and needs to be done in hospital

Consciousness of the baby

- ▣ Babies have a consciousness and are fully aware of being in the womb, birth and being a newborn.
- ▣ David Chamberlain's book The Mind of Your Newborn Baby
- ▣ Some doctors still have the 19th Century belief that babies are not conscious and feel no pain
- ▣ Perform Circumcisions without pain relief
- ▣ Find it appropriate to hang the baby upside down and smack them to make them cry.
- ▣ Injections, forceps, suction, washing, loud noises, bright lights, cutting the cord too early

Case Study: Jake

- ▣ Jake had Epileptic fit 2-3 times a day, also on the Autistic scale
- ▣ 1st Session with his mother resolved the trauma of his dad leaving
- ▣ Fits reduced to once a week
- ▣ 2nd Session worked on Jakes birth
- ▣ Fits reduced to once a month
- ▣ After 3rd session he went 4 months without a fit
- ▣ His mother became pregnant with Jakes baby brother

Birth Reimprinting Online part 2

- ▣ Brain Formation in the womb, at Birth and childhood
- ▣ Bonding
- ▣ Heart Connection
- ▣ Experiences during pregnancy

Accessing Recordings

- ▣ Sending link to the private Membership page
- ▣ You will need to sign up
- ▣ Also join us at the Facebook Group Page
