

# PURL

## SOFT WHITE WINTER WHEAT

**Purl** is a soft white winter wheat developed and released in 2018 by the Agricultural Research Center of Washington State University. Purl provides a combination of excellent yield potential, high test weight, good end-use quality, and disease resistance. Purl is best adapted to the intermediate to high rainfall dryland production regions of the inland Pacific Northwest. The unique disease resistance package and high yield potential of Purl makes it an ideal cultivar for growers looking to minimize risk and maximize profit on their farms.

### AGRONOMICS

Yield Potential.....	Excellent
Test Weight .....	High
Grain Protein .....	Good
Maturity .....	Average
Height.....	Medium
Quality .....	Acceptable

### DISEASE RESISTANCE

Stripe Rust.....	Excellent Adult Resistance
Strawbreaker Foot Rot .....	Excellent
Nematodes .....	Resistant to <i>Heterodera avenae</i>
Aluminum Tolerance.....	Moderately Tolerant
