

Introduction (short-notes)

Welcome to the soccer success system!

I wanted to create these short-notes to help you get as much out of this course as possible.

This course will help you:

- 1) Understand what needs to be done to achieve your personal goals.*
- 2) Actually achieve those goals (or highly increase your chances).*
- 3) Become the player you need to be to achieve those goals.*
- and 4) Achieve more success in your personal life as well.*

There are 5 steps to the...

Soccer Success System:

1) Ambition Activation

-> Identify your goals and create a powerful connection / motivation.

2) Master Plan Formulation

-> Create a step-by-step strategy to achieve your specific long-term goals.

3) The Rite Of Passage

-> Eliminate your weaknesses and create a clean foundation for growth.

4) Reverse Development Training

-> Learn exactly how to improve every area of your game.

5) Follow Through Strategy

-> Increase your likeliness of putting this proven system into action.

Each step will be explained thoroughly in it's own video lecture.

The steps have been placed in a very specific order, which is common in many goal-setting and achieving programs.

- 1) Set your targets.
- 2) Create a strategy to reach them.
- 3) Identify and eliminate what is currently holding you back.
- 4) Transform yourself into the player you need to be to reach these targets.
- 5) Follow through until you get what you want.

In order to get the most out of this course:

Before watching each video lecture, print off and read through:

- 1) **The Slides**
- 2) **The Short-notes**

... for that specific video lecture.

Make your own notes on these printed pages while you watch the lecture to retain as much information as possible.

This system works.

However, it's up to YOU to make it work.
It's up to YOU to make this investment worthwhile.

I cannot make this work for you.
I can only give you the ideas.

You must take these ideas and put them into action.

Your ability to take these ideas and implement them into your own soccer career, will determine how valuable this course really is.

Thank you so much for investing in this course.

I appreciate you and am always here to help.
