LECTRICare®

FOR MUSIC ELECTRONICS AND STUDIO GEAR

Fastest Static Killer
Multi-Zone Application Technology

Unmatched versatility in a music instrument and gear maintenance product allowing for discrete or blanket application.

- **A.** Prevents corroded lamp bases & sockets
- **B.** Cleans and lubricates internal pots, relays, and controls
- **C.** Protects all hardware from pitting and corrosion
- **D.** Kills static and noise in tone and tremolo control pots
- **E.** Ensures pop and glitch free plugs and jacks
- **F.** Legacy and hybrid control pots are noise-free and operate smoothly
- **G.** Eliminates dropouts and ensures positive grounding for all AC power sockets and plugs
- **H.** Trouble-free fuse sockets and fuse panels
- **I.** Corrosion free tube sockets and pins
- **J.** Cleans and lubricates switches to reduce contact wear
- **K.** Protects circuit board and chassis components from humidity, moisture, and static buildup
- **L.** Maximum conductivity for speaker plugs and connectors
- **M.** Removes oxidation from effects plugs and jacks
- **N.** Protects all metal surfaces from oxidation and resists fingerprints
