

WORKPLACE MENTORING

The S/P2 Workplace Mentoring program is designed to help automotive service, collision repair and refinish, and heavy-duty/diesel businesses grow their own technicians. S/P2 has teamed up with ASE and the ASE Education Foundation to incorporate task lists into the program. These task lists are industry-generated and -approved, providing a proven mentoring pathway with the flexibility to customize tasks to fit specific needs. If your school partners with local businesses who employ your students, we recommend they purchase the course for their business as well.

WHAT'S INCLUDED?

Workplace Mentoring - The Manager

This 85-minute course is designed for the person managing the mentoring program. The manager should review all of the courses in the program.

Modules:

- Introduction
- The Mentoring Program
- The Mentor
- The Mentee
- Tools
- Managing the Mentor and Mentee

Workplace Mentoring - The Mentor

This 65-minute course is designed for anyone who will be a mentor in the program. The mentor should review the mentee course.

Modules:

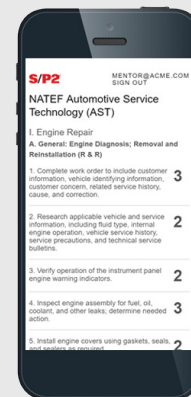

- Introduction
- The Mentoring Program
- The Mentee
- Tools
- Managing and Training the Mentee

Workplace Mentoring - The Mentee

This 30-minute course is designed for anyone who will be a mentee in the program. The mentee will learn about the role and successful qualities of a mentee, the phases and steps of a mentoring program, and how to create a positive mentoring relationship.

Workplace Mentoring - The App

The Mentee Tracking System was developed for the mentor to use on a phone or tablet while in the shop to evaluate the mentee's or student's progress. The system allows the mentor to track the mentee's progress using the NATEF/ASE Education Foundation Task Lists.

To purchase S/P2, call 888.241.8332 or visit sp2.org.
