

iPhone:

Here's how it works:

1. Open up Safari and load a web site. ...
2. At the bottom of the screen you'll see an icon depicting an arrow that looks like it's trying to get away from a square. ...
3. If you managed to tap that button successfully, you'll have a few options. ...
4. You'll be asked to choose a name for the homescreen icon.

Add Web Site Bookmarks to Your iPhone's Homescreen - Lifehacker

Android

Here's how to do it:

1. Open Firefox for Android and go to your favorite web page.
2. Press the Menu button (either below the screen on some devices or at the top-right corner of the browser) , then tap on Page.
3. Tap Add to Home Screen.
4. Your shortcut should now appear on your home screen.
