

Summer Camp update August 17, 2020:

We are excited to announce that we learned this weekend that we have the opportunity to return to in-person strength and conditioning activities this week. It has been a difficult summer with limited opportunities for in person workouts for our coaches and athletes with restrictions concerning Covid 19, but we are encouraged by the opportunity to once again meet and work out in person as a team following UIL and local guidelines.

We will resume camp tomorrow (Tuesday 8/18) from 4:30-5:45. Pre-screening will begin at 4:00 in athletes' vehicles following the same format that we used this summer. **All athletes that attend are required to bring a completed, parent signed copy of the attached Return to Strength and Conditioning Notice in order to participate.**

All athletes must have their own water bottle, workout clothes, and wear a mask at all times, except for when actively participating in drills. Athletes are encouraged to wear their mask when possible even during drills. Social distancing will continue to be enforced at camp and no access to the locker rooms will be allowed.

We can't wait to get started again in person with our athletes and look forward to a successful year ahead. We continue to be One Town, One Team, One Family. Go Wildcats!
