RE: Spring 2020 Trap Shooting Season

After discussing with coaches and administration, due to deadlines in relation to the National Clay Target organization and other factors out of our control, this year's trap shoot season is cancelled. We will issue full refunds to all students that have registered. It may take a few days for the refunds to process and reflect in your account. We will also still find a way to creatively highlight the trap shooting team in our yearbook as we recognize that this is a very important activity for our students.

If you have any questions, please contact our coaches or myself.
