

Permission Form For Parent / Guardian or Alternate Driver Transportation

In general, athletic teams will use school transportation to and from a contest and expect athletes to use the designated form of transportation. When the school district provides one way transportation, or when on a limited basis the athlete has circumstances that require non Harper Creek transportation, a parent / guardian or alternate designated driver may transport the athlete from an away contest. The alternate driver must be 18 or older, be willing to show identification, and must have permission from the athlete's parent / guardian.

All drivers must sign out with the coach upon departure from the event site and will assume all liability for the athlete.

Date(s) and location of event: _____

Students Name: _____
