TCC Compliance Plan for Amy Slowikowski Gymnasium  
Compliance Officer: George Zambie, Athletic Director  
[gzambie@cducation.org](mailto:gzambie@cducation.org)  
330.268.6395

The following compliance has been posted on our school athletic website ([tccsaints.com](http://tccsaints.com)) under the 'More' tab along with the actual Ohio Department of Health Director's Order regarding the Mandatory Requirements for Sports to Return. Please familiarize yourself with these orders so as to not jeopardize the safety and health of all parties involved and allow our athletes to exhibit their talent and skills on the field.

### Ticket Policy and Spectator Guidelines

Mandatory Spectator Guidelines as set forth by the Ohio Department of Health:

- All spectators, in addition to players and coaches, must conduct daily symptom assessment checks. All volunteers are to conduct a self-assessment. If you have a fever of 100 degrees or higher, a cough, headache, sore throat, shortness of breath, fatigue, chills or body shakes, loss of taste or smell, unexplained body aches, or have had contact with anyone who was diagnosed with or has symptoms of Covid 19 then stay home. Stay home if you are experiencing any of these symptoms.
- Stay home if you are vulnerable and at risk
- As per the mandate, only family and household members and loved ones of players, coaches, and team staff members will be permitted to attend. The Executive Order mandates that attendance is limited to families and thus only 15% of fixed seating will be filled.
- You must have a season ticket to enter the gymnasium, as tickets will be pre-issued to each player's family. Since season tickets were pre-paid at issuance there will be no exchange of funds at the door. Families have the right to determine which family members or close 'loved ones' use their allotted passes for the home games. Remember, there will not be any individual game tickets sold at the event
- Siblings of the players are the only permitted students and must enter with their families.
- All TCC fans will enter with their pre-issued season pass at the front entrance of the school. There will be free standing poles to mark the 6' feet apart for distancing. You must present your ticket at that time and your name will be recorded for contact tracing purposes. There will be a gate worker to ensure the lobby does not become overcrowded. (Note that gates will be opened 30 minutes prior to the game).
- Fans of the opponents will present vouchers that were distributed at their school and pay at the Front Entrance. No one can enter without a Voucher. The free standing poles indicate the 6' distancing at this entrance. If there is a long line then wait outside the entrance. There will be a gate worker to ensure the lobby does not become overcrowded.

- Spectators must wear a mask at all times and will be reminded through PA announcements.
- Spectators are asked to sit with immediate household members and to physically distance themselves from other families/spectators.
- Physical distancing is 6'. That means to the right of you, to the left of you, in the row in front of you and the row behind you
- Spectators will be reminded to sit 6' apart through PA announcements.
- Physical distance should be practiced when in lines for concessions and the restrooms. There will be free standing poles that indicate 6' distancing for the concession area.
- No congregation of spectators or players is permitted at any time before, during or after the match. This means in the lobby area or concession area. This will be difficult to follow as our parents, fans and students are used to congregating in mass at length after our Athletic contests. That will not be the case this year due to the mandated requirements! The Gates will close 20 minutes after the contest ends and all spectators need to clear the premise.
- The ticket procedure for away games will be as follows: The opponent of TCC will determine how many tickets each family member can receive. Due to the limited capacity, this will probably be 2-3 tickets per family. You will receive a voucher a day or 2 prior to the game. You must present this voucher and pay for the ticket at the gate of our opponent. No voucher means no entrance to the opponent's field. You must follow the Health Department Executive Order and the guidelines of the Host school when visiting their facilities

#### Safety and Education:

- Players are monitored daily at practice and have been since summer skill training began June 1, 2020. They will continue to be monitored daily at school and at practice. They will be monitored upon entering a bus for away games with a temperature check.
- Players, coaches, trainers and officials should not be in physical contact with one another except in the field of play. This means no team huddles, no high-fives, no celebrations, etc.
- All coaches and players must wear masks and practice social distancing when not on the field of play. This means in team meetings, in the locker room, etc.
- A mandated team meeting will occur with each team and coach prior to their respective seasons explaining this Executive order and the execution of it as long as long as the Edict is in place. A Zoom Meeting with parents will be required to educate them. Any item that pertains to players and parents from the Executive Order such as distancing, masking, congregating, huddling, high fives, before and after game procedures, locker room procedures, equipment and water bottle procedures, etc. will be covered.
- All coaches have up to date CPR certifications and the AED is in working order and all AED pads are update.
- Our trainer is on site during most practices and games to assist in following the procedures

- Individual plastic water bottles with the players numbers on them have been purchased in order that each player drinks out of their own bottle. In the past a few water bottles were passed around and water squirted in the mouth of the players.
- Locker rooms will be used only for PreGame meetings, halftime adjustments and post game review. There will be no congregating in this area other than those times. Because of limited showers and space we will not allow the student athlete to shower at the school at this time. This may change after further review.
- Our PA volunteer will make a minimum of 2 announcements per game on some subject relating to the Executive Order. The messages will relate to Distancing, masking, congregating, etc.

#### Concessions:

- Food concession operations will adhere to Ohio's guidance for restaurants.
- Distancing will be maintained at the Concession area with free standing poles designating the 6' distancing
- Food and drinks will be limited. Food will be prepackaged.
- All volunteers are to conduct a self-assessment. If you have a fever of 100 degrees or higher, a cough, headache, sore throat, shortness of breath, fatigue, chills or body shakes, loss of taste of smell, unexplained body aches, or have had contact with anyone who was diagnosed with or has symptoms of Covid 19 then stay home. (Note: this message is also on our website where volunteers sign-up to work games).
- Gloves and masks must be worn by workers

#### Cleaning:

- All facilities will be cleaned according to current guidelines and extra attention will be taken for the cleaning of ticket tables/counters, handrails and doors, scorers tables and other frequently touched surfaces. These surfaces will be cleaned before and after all events.
- Hand sanitizer will be readily available at the field of play. This includes at the area of entrance, at the concession area and upon entering the gymnasium.

#### Enforcement:

George Zambie as Athletic Director will serve as the Compliance Person and the point of contact to communicate with Health authorities.
