

November 9, 2020

This past Thursday, we learned that winter sports were not able to begin because of the high cases of the corona virus in Maricopa County. At this time, we are not aware of when winter sports can actually begin tryouts. However, we have been given the option of being able to open a camp where we can run individual drills and conditioning. I would like to begin offering this to the athletes at Mountain Ridge High School. To make this happen, I will need to have students register for a camp, but will only charge one dollar. The camp will run twice a week and will be split into two groups. The first group being members from the 2019-2020 JV and Varsity soccer teams and the second being all other athletes. Subgroups may be created based upon ability levels. It is my desire to make this camp worthwhile for all students.

It is my hope that students can register for the camp so that we can begin to prepare ourselves for the hopeful soccer season. A physical is not required for camp, however it is required for the beginning of soccer tryouts. Because that date could come at any time, please make sure the student athlete is cleared by our athletic office. The athletic packet can be found at [mrhsathletics.com](http://mrhsathletics.com).

Once the numbers come down for Maricopa County, and we have been given the greenlight by our district office, the camp will immediately dissolve and soccer tryouts will then commence as soon as possible.

Thank you,  
Coach Lang
