I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians). ■ PREPARTICIPATION PHYSICAL EVALUATION IHSAA ELIGIBILITY RULES

INDIVIDUAL ELIGIBILITY RULES (Grades 9 through 12)

ATTENTION ATHLETE: Your school is a member of the IHSAA and follows established rules. To be eligible to represent your school in interschool athletics, you:

1. must be a regular bona fide student in good standing in the school you represent; must have enrolled not later than the fifteenth day of the current semester.
2. must have completed 10 separate days of organized practice in said sport under the direct supervision of the high school coaching staff preceding date of participation in interschool contests. (Excluding Girls Golf – See Rule 101)
3. must have received passing grades at the end of their last grading period in school in at least seventy percent (70%) of the maximum number of full credit subjects (or the equivalent) that a student can take and must be currently enrolled in at least seventy percent (70%) of the maximum number of full credit subjects (or the equivalent) that a student can take. Semester grades take precedence.
4. must not have reached your twentieth birthday prior to or on the scheduled date of the IHSAA State Finals in a sport.
5. must have been enrolled in your present high school last semester or at a junior high school from which your high school receives its students . . .
 - . . . unless you are entering the ninth grade for the first time.
 - . . . unless you are transferring from a school district or territory with a corresponding bona fide move on the part of your parents.
 - . . . unless you are a ward of a court; you are an orphan, you reside with a parent, your former school closed, your former school is not accredited by the state accrediting agency in the state where the school is located, your transfer was pursuant to school board mandate, you attended in error a wrong school, you transferred from a correctional school, you are emancipated, you are a foreign exchange student under an approved CSIET program. You must have been eligible from the school from which you transferred.
6. must not have been enrolled in more than eight consecutive semesters beginning with grade 9.
7. must be an amateur (have not participated under an assumed name, have not accepted money or merchandise directly or indirectly for athletic participation, have not accepted awards, gifts, or honors from colleges or their alumni, have not signed a professional contract).
8. must have had a physical examination between April 1 and your first practice and filed with your principal your completed Consent and Release Certificate.
9. must not have transferred from one school to another for athletic reasons as a result of undue influence or persuasion by any person or group.
10. must not have received in recognition of your athletic ability, any award not approved by your principal or the IHSAA.
11. must not accept awards in the form of merchandise, meals, cash, etc.
12. must not participate in an athletic contest during the IHSAA authorized contest season for that sport as an individual or on any team other than your school team. (See Rule 15-1a) (Exception for outstanding student-athlete – See Rule 15-1b)
13. must not reflect discredit upon your school nor create a disruptive influence on the discipline, good order, moral or educational environment in your school.
14. students with remaining eligibility must not participate in tryouts or demonstrations of athletic ability in that sport as a prospective post-secondary school student-athlete. Graduates should refer to college rules and regulations before participating.
15. must not participate with a student enrolled below grade 9.
16. must not, while on a grade 9 junior high team, participate with or against a student enrolled in grade 11 or 12.
17. must, if absent five or more days due to illness or injury, present to your principal a written verification from a physician licensed to practice medicine, stating you may participate again. (See Rule 3-11 and 9-14.)
18. must not participate in camps, clinics or schools during the IHSAA authorized contest season. Consult your high school principal for regulations regarding out-of-season and summer.
19. girls shall not be permitted to participate in an IHSAA tournament program for boys where there is an IHSAA tournament program for girls in that sport in which they can qualify as a girls tournament entrant.

This is only a brief summary of the eligibility rules.

You may access the IHSAA Eligibility Rules (By-Laws) at www.ihssa.org

Please contact your school officials for further information and before participating outside your school.

STUDENT CONDUCT

Athletic Code of Conduct

Athletic Expectations:

A student athlete who represents the Vigo County School Corporation must exhibit at all times the highest standards of personal behavior. Participation in athletics is a privilege requiring that a student makes a commitment to practice before or after school hours with perfect or near perfect attendance, to work hard to excel, to learn cooperation and team efforts, and to exemplify good behavior both at school and away from school. Athletes are representatives of the Vigo County School Corporation and their school and always serve as role models at school and in the community. Students who cannot accept this challenge and responsibility should not become involved with the athletic program. There is a legitimate school interest and an expectation by the coaching staff of the Vigo County School Corporation that students follow the Athletic Code of Conduct at all times (beginning with the students' attendance at their first official middle/high school sports practice and continuing for 365 days each year through completion of student's involvement in athletic events their eighth grade or senior year). Therefore, he/she should conscientiously fulfill all the rules established for the athletic program and the sports for which he/she is participating.

General Rules include, but are not limited to:

1. Possession and/ or use of tobacco in any form is prohibited (first offense will be "athletic suspension", and a second offense will cause "athletic exclusion".)
2. Possession and/or use of any substance/device/object which is, or is represented to be alcohol/drugs as identified in Rule II or III of the Student Rights and Responsibilities policy of the School Corporation is prohibited (first offense will be "athletic suspension", additional offenses will cause "athletic exclusion".)
3. Providing or transmitting any substance/device/object which is, or is represented to be alcohol/drugs as identified in Rule I or IV of the Student Rights and Responsibilities policy of the School Corporation will cause "athletic exclusion".
4. Being found guilty of violating city, state, or federal codes/laws will cause a warning, or "athletic suspension" or "athletic exclusion".
5. Reference Rule C-8-1 IHSAA By-Laws and Articles of Incorporation:
Contestants' conduct, in and out of school, shall be such as (1) not to reflect discredit upon their school or association or (2) not to create a disruptive influence on the discipline, good order, moral or educational environment in the school. Note: "It is recognized that principals, by the administrative authority vested in them by their school corporation, may exclude such contestants from representing their school."
6. Additional rules may be established for each sport by the individual coach. Such rules must be approved by the athletic director and principal, providing in writing to the student-athlete, and discussed with the student-athlete.

Due Process to be Expected:

1. Prior to any athletic suspension or expulsion, the Athletic Director or coach will provide the athlete with written notice of the allegations. (Any academic suspension or expulsion that pertains to violations of the Athletic Code of Conduct will be handled through the academic suspension or expulsion process.)
2. The Athletic Director or coach will then provide the athlete with an opportunity to respond to those allegations in an informal meeting, at the conclusion of which the Athletic Director or coach will notify the student of his or her decision.
3. The student (or a parent/guardian on behalf of a student) may appeal any adverse decision to the building Principal.

Discipline for Violations of Athletic Code of Conduct:

The school may impose the following athletic-related exclusionary discipline for violations of the Athletic Code of Conduct.

Athletic Suspension – The student-athlete cannot participate in twenty (20%) percent of the games/meets for the sport the student is currently, or will be, involved in until the penalty is completed (this may necessitate suspension in more than a single sport season or school year). The number of games/meets will be determined by 20% of the current or immediately next sport, whichever comes first. (clarification- (not a

part of the policy)-number of games/meets in the regular season will be used to determine the 20%-fractions will be rounded off in the normal manner – suspensions will extend into tournament play).

Athletic Exclusion – The student-athlete will be ineligible to participate in any athletic program for 365 days from the date of infraction.

Coaches may also impose oral and written warnings as non-exclusionary forms of discipline.

Other Items:

1. School Suspension – Any athlete placed on out-of-school suspension is not eligible to practice nor participate until the student has returned to school. This ineligibility will begin at the time the student is notified of the suspension (either orally or in writing).

2. Dress Code – Student athletes are expected to be neat, clean, and well-groomed for both away and home games.

3. Changing Sport in Mid-Season – From the time a student’s name appears on the official eligibility list for an inter-scholastic sport, he or she may join another team, or compete in another inter-scholastic sport only with approval of the athletic director and coaches involved. Mid-season change of teams may be permitted under the following conditions:

(1) If the student presents to both coaches involved a doctor’s certificate recommending that he/she drop the first sport for reasons of health and permits participation in the second sport.

(2) If both coaches involved and the athletic director agrees that a mid-season change of sports would be beneficial to the player without being unfair to the players of either team.

4. Any athlete in grades nine-twelve who is a member of a school team cannot tryout, practice, or play in a similar sports program sponsored by any other organization between the date of the first IHSAA authorized contest in that sport and the completion of that team’s school season.

Each coach is responsible for the administration of this code for his/her activity.

SUDDEN CARDIAC ARREST

A Fact Sheet for Student Athletes

FACTS

Sudden cardiac arrest can occur even in athletes who are in peak shape. Approximately 500 deaths are attributed to sudden cardiac arrest in athletes each year in the United States. Sudden cardiac arrest can affect all levels of athletes, in all sports, and in all age levels. The majority of cardiac arrests are due to congenital (inherited) heart defects. However, sudden cardiac arrest can also occur after a person experiences an illness which has caused an inflammation to the heart or after a direct blow to the chest. Once a cardiac arrest occurs, there is very little time to save the athlete, so identifying those at risk before the arrest occurs is a key factor in prevention.

WARNING SIGNS

There may not be any noticeable symptoms before a person experiences loss of consciousness and a full cardiac arrest (no pulse and no breathing).

Warning signs can include a complaint of:

- Chest Discomfort
- Unusual Shortness of Breath
- Racing or Irregular Heartbeat
- Fainting or Passing Out

EMERGENCY SIGNS – Call EMS (911)

If a person experiences any of the following signs, call EMS (911) immediately:

- *If an athlete collapses suddenly during competition*
- *If a blow to the chest from a ball, puck or another player precedes an athlete's complaints of any of the warning signs of sudden cardiac arrest*
- *If an athlete does not look or feel right and you are just not sure*

How can I help prevent a sudden cardiac arrest?

Daily physical activity, proper nutrition, and adequate sleep are all important aspects of life-long health. Additionally, you can assist by:

- Knowing if you have a family history of sudden cardiac arrest (onset of heart disease in a family member before the age of 50 or a sudden, unexplained death at an early age)
- Telling your health care provider during your pre-season physical about any unusual symptoms of chest discomfort, shortness of breath, racing or irregular heartbeat, or feeling faint, especially if you feel these symptoms with physical activity
- Taking only prescription drugs that are prescribed to you by your health care provider
- Being aware that the inappropriate use of prescription medications or energy drinks can increase your risk
- Being honest and reporting symptoms of chest discomfort, unusual shortness of breath, racing or irregular heartbeat, or feeling faint

What should I do if I think I am developing warning signs that may lead to sudden cardiac arrest?

1. *Tell an adult – your parent or guardian, your coach, your athletic trainer or your school nurse*
2. *Get checked out by your health care provider*
3. *Take care of your heart*
4. *Remember that the most dangerous thing you can do is to do nothing*

HEADS+UP

CONCUSSION IN HIGH SCHOOL SPORTS

A FACT SHEET FOR **ATHLETES**

Concussion facts:

- A concussion is a brain injury that affects how your brain works.
- A concussion is caused by a bump, blow, or jolt to the head or body.
- A concussion can happen even if you haven't been knocked out.
- If you think you have a concussion, you should not return to play on the day of the injury and not until a health care professional says you are OK to return to play.

What are the symptoms of a concussion?

Concussion symptoms differ with each person and with each injury, and they may not be noticeable for hours or days. Common symptoms include:

- Headache
- Confusion
- Difficulty remembering or paying attention
- Balance problems or dizziness
- Feeling sluggish, hazy, foggy, or groggy
- Feeling irritable, more emotional, or "down"
- Nausea or vomiting
- Bothered by light or noise
- Double or blurry vision
- Slowed reaction time
- Sleep problems
- Loss of consciousness

During recovery, exercising or activities that involve a lot of concentration (such as studying, working on the computer, or playing video games) may cause concussion symptoms to reappear or get worse.

What should I do if I think I have a concussion?

DON'T HIDE IT. REPORT IT. Ignoring your symptoms and trying to "tough it out" often makes symptoms worse. Tell your coach, parent, and athletic trainer if you think you or one of your teammates may have a concussion. Don't let anyone pressure you into continuing to practice or play with a concussion.

GET CHECKED OUT. Only a health care professional can tell if you have a concussion and when it's OK to return to play. Sports have injury timeouts and player substitutions so that you can get checked out and the team can perform at its best. The sooner you get checked out, the sooner you may be able to safely return to play.

TAKE CARE OF YOUR BRAIN. A concussion can affect your ability to do schoolwork and other activities. Most athletes with a concussion get better and return to sports, but it is important to rest and give your brain time to heal. A repeat concussion that occurs while your brain is still healing can cause long-term problems that may change your life forever.

How can I help prevent a concussion?

Every sport is different, but there are steps you can take to protect yourself.

- Follow your coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If you think you have a concussion:

Don't hide it. Report it. Take time to recover.

It's better to miss one game than the whole season.
