Participation in high school sports is not without risk. The student-athlete and parent/guardian acknowledge truthful answers to the above questions allows for a trained clinician to assess the individual student-athlete against risk factors associated with sports-related injuries and death. Florida Statute 1006.20 requires a student candidate for an interscholastic athletic team to successfully complete a preparticipation physical evaluation as the first step of injury prevention. This preparticipation physical evaluation shall be completed each year before participating in interscholastic athletic competition or engaging in any practice, tryout, workout, conditioning, or other physical activity, including activities that occur outside of the school year.

We hereby state, to the best of our knowledge, that our answers to the above questions are complete and correct. In addition to the routine physical evaluation required by Florida Statute 1006.20, and FHSAA Bylaw 9.7, we understand and acknowledge that we are hereby advised that the student should undergo a cardiovascular assessment, which may include such diagnostic tests as electrocardiogram (ECG), echocardiogram (ECHO), and/or cardio stress test. The FHSAA Sports Medicine Advisory Committee strongly recommends a medical evaluation with your healthcare provider for risk factors of sudden cardiac arrest which may include the special tests listed above.

OCPS Cardiology Report: Electrocardiogram (ECG) Clearance

Parents/Guardians: An ECG screen (also referred to as an EKG) can help identify young athletes who are at risk for sudden cardiac death, a condition where death results from an abrupt loss of heart function. An ECG screening may assist in diagnosing several different heart conditions that may contribute to sudden cardiac death. In accordance with School Board Policy JJ titled Extracurricular Activities, The School Board of Orange County, Florida is requiring each student athlete wishing to participate in high school athletics to have 1 electrocardiogram (ECG) screening prior to participating in his/her first athletic sport in high school. The Initial ECG may be completed by any licensed physician, including a primary care physician, pediatrician, licensed physician assistant, or certified advanced registered nurse practitioner. If the ECG comes back ABNORMAL, the student may only participate after being cleared by a cardiologist or a pediatric cardiologist.

Student's Name: (Print): _____ Student ID #: _____ DOB: _____

- ☐ If your ECG was completed by Who We Play For, Orlando Health, Advent Health, or Nemours, you can STOP here. Submit the email you received from the organization to Athletic Clearance, along with the top portion of this form completed. Both the email and this form with the top completed must be submitted.

ECG's performed by a PCP, Urgent Care Center, or Walk-in Clinic must complete the form below

PHYSICIAN INSTRUCTIONS: This form is to be completed by an appropriate health care provider (AHCP) trained in the latest ECG interpretation guidelines. It is recommended to interpret ECG readings based on the International Criteria (<https://uwsportscardiology.org/>). After completing and interpreting the ECG, select the appropriate box below. If the ECG is interpreted as NORMAL, complete the Normal Electrocardiogram Clearance. If the initial ECG is interpreted as ABNORMAL, the student must be referred to a cardiologist. Only a cardiologist can clear a student with an ABNORMAL ECG interpretation.

NORMAL Electrocardiogram Clearance:

(To be completed in full by a licensed physician, PA or ARNP)

I hereby certify that an ECG was performed by myself or an individual under my direct supervision with the following conclusion:

- ☐ Low Risk/Cleared for Participation
