The IHSAA Pre-participation Physical Evaluation (PPE) is the first and most important step in providing for the well-being of Indiana’s high school athletes. The form is designed to identify risk factors prior to athletic participation by way of a thorough medical history and physical examination. The IHSAA, under the guidance of the Indiana State Medical Association’s Committee on Sports Medicine, requires that the PPE Form be signed by a physician (MD or DO) holding an unlimited license to practice in the State of Indiana. In order to assure that these rigorous standards are met, both organizations endorse the following requirements for completion of the PPE Form:

1. The most current version of the IHSAA PPE Form must be used and may not be altered or modified in any way. (available for download at www.ihsaa.org)<http://www.ihsaa.org/>)

2. The PPE Form must be signed by a physician (MD or DO) only after the medical history is reviewed, the examination performed, and the PPE Form completed in its entirety. No pre-signed or pre-stamped forms will be accepted.

3. SIGNATURES
   - The physician signature must be hand-written. No signature stamps will be accepted.
   - The Physician signature and license number must be affixed on page two (2).
   - The Parent signatures must be affixed to the form on pages one (1) and four (4).
   - The Student-Athlete signature must be affixed to pages one (1) and four (4).

Your cooperation will help ensure the best medical screening for Indiana’s high school athletes.
Preparticipation Physical Evaluation

HISTORY FORM

(Date: This form is to be filled out by the patient and parent prior to seeing the physician. The physician should keep a copy of this form in the chart.)

Date of Exam ____________________________

Name __________________________________ Date of birth ____________________________

Sex __________________ Age _______ Grade ________ School ____________ Sport(s) ________

Medicines and Allergies: Please list all of the prescription and over-the-counter medicines and supplements (herbal and nutritional) that you are currently taking.

Do you have any allergies? □ Yes □ No If yes, please identify specific allergy below.

□ Medicines □ Pollens □ Food □ Stinging Insects

Explain “Yes” answers below. Circle questions you don’t know the answers to.

GENERAL QUESTIONS

1. Has a doctor ever denied or restricted your participation in sports for any reason?

2. Do you have any ongoing medical conditions? If so, please identify below: □ Asthma □ Anemia □ Diabetes □ Infections (Other: ____________)

3. Have you ever spent the night in the hospital?

4. Have you ever had surgery?

HEART HEALTH QUESTIONS ABOUT YOU

5. Have you ever passed out or nearly passed out during or after exercise?

6. Have you ever had discomfort, pain, lightness, or pressure in your chest during exercise?

7. Does your heart ever race or skip beats (irregular beats) during exercise?

8. Has a doctor ever told you that you have any heart problems? If so, check all that apply:

□ High blood pressure □ A heart murmur

□ High cholesterol □ A heart infection

□ Kawasaki disease □ Other: ____________

9. Has a doctor ever ordered a test for your heart? (For example, ECG/ECG, echocardiogram)

10. Do you get lightheaded or feel more short of breath than expected during exercise?

11. Have you ever had an unexplained seizure?

12. Do you get more tired or short of breath more quickly than your friends during exercise?

HEART HEALTH QUESTIONS ABOUT YOUR FAMILY

13. Has any family member or relative died of heart problems or had an unexpected or unexplained sudden death before age 50 (including drowning, unexplained car accident, or sudden infant death syndrome)?

14. Does anyone in your family have hypertrophic cardiomyopathy, Marfan syndrome, arrhythmogenic right ventricular cardiomyopathy, long QT syndrome, short QT syndrome, Brugada syndrome, or catecholaminergic polymorphic ventricular tachycardia?

15. Does anyone in your family have a heart problem, pacemaker, or implanted defibrillator?

16. Has anyone in your family had unexplained fainting, unexplained seizures, or near drowning?

BONE AND JOINT QUESTIONS

17. Have you ever had an injury to a bone, muscle, ligament, or tendon that caused you to miss a practice or a game?

18. Have you ever had any broken or fractured bones or dislocated joints?

19. Have you ever had an injury that required x-rays, MRI, CT scan, injections, therapy, a brace, a cast, or crunches?

20. Have you ever had a stress fracture?

21. Have you ever been told that you have or you had an x-ray for neck instability or atlantoaxial instability? (Down syndrome or dwarfism)

22. Do you regularly use a brace, orthotics, or other assistive devices?

23. Do you have a bone, muscle, or joint injury that bothers you?

24. Do any of your joints become painful, swollen, feel warm, or look red?

25. Do you have any history of juvenile arthritis or connective tissue disease?

MEDICAL QUESTIONS

26. Do you cough, wheeze, or have difficulty breathing during or after exercise?

27. Have you ever used an inhaler or taken asthma medicine?

28. Is there anyone in your family who has asthma?

29. Were you born without or are you missing a kidney, an eye, a testicle (meat), your spleen, or any other organ?

30. Do you have groin pain or a painful bulge or hema in the groin area?

31. Have you had infectious mononucleosis (mono) within the last month?

32. Do you have any rashes, pressure sores, or other skin problems?

33. Have you ever had a herpes or MRSA skin infection?

34. Have you ever had a head injury or concussion?

35. Have you ever had a hit or blow to the head that caused confusion, prolonged headache, or memory problems?

36. Do you have a history of seizure disorder?

37. Do you have headaches with exercise?

38. Have you ever had numbness, tingling, or weakness in your arms or legs after being hit or falling?

39. Have you ever been unable to move your arms or legs after being hit or falling?

40. Have you ever become ill while exercising in the heat?

41. Do you get frequent muscle cramps when exercising?

42. Do you or someone in your family have sickle cell trait or disease?

43. Have you had any problems with your eyes or vision?

44. Have you had any eye injuries?

45. Do you wear glasses or contact lenses?

46. Do you wear protective eyewear, such as goggles or a face shield?

47. Do you worry about your weight?

48. Are you trying to or has anyone recommended that you gain or lose weight?

49. Are you on a special diet or do you avoid certain types of foods?

50. Have you ever had an eating disorder?

51. Do you have any concerns that you would like to discuss with a doctor?

FEMALES ONLY

52. Have you ever had a menstrual period?

53. How old were you when you had your first menstrual period?

54. How many periods have you had in the last 12 months?

Explain “yes” answers here

I hereby state that, to the best of my knowledge, my answers to the above questions are complete and correct.

**PHYSICAL EXAMINATION FORM**

(The physical examination must be performed on or after April 1 by a Physician holding an unlimited license to practice medicine to be valid for the following school year – IHSAA By-Law C 3-10)

**PHYSICIAN REMINDERS**

1. Consider additional questions on more sensitive issues
   - Do you feel stressed out or under a lot of pressure?
   - Do you ever feel sad, hopeless, depressed, or anxious?
   - Do you feel safe at your home or residence?
   - Have you ever tried cigarettes, chewing tobacco, snuff, or dip?
   - During the past 30 days, did you use chewing tobacco, snuff, or dip?
   - Do you drink alcohol or use any other drugs?
   - Have you ever taken anabolic steroids or used any other performance supplement?
   - Have you ever taken any supplements to help you gain or lose weight or improve your performance?
   - Do you wear a seat belt, use a helmet, and use condoms?

2. Consider reviewing questions on cardiovascular symptoms (questions 5–14).

Reason

Recommendations

I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians). (The physical examination must be performed on or after April 1 by a Physician holding an unlimited license to practice medicine to be valid for the following school year – IHSAA By-Law C 3-10)

I. STUDENT ACKNOWLEDGMENT AND RELEASE CERTIFICATE

A. I have read the IHSAA Eligibility Rules (next page or on back) and know of no reason why I am not eligible to represent my school in athletic competition.

B. If accepted as a representative, I agree to follow the rules and abide by the decisions of my school and the IHSAA.

C. I know that athletic participation is a privilege. I know of the risks involved in athletic participation, understand that serious injury, and even death, is possible in such participation, and choose to accept such risks. I voluntarily accept any and all responsibility for my own safety and welfare while participating in athletics, with full understanding of the risks involved, and agree to release and hold harmless the schools involved and the IHSAA of and from any and all responsibility and liability, including any from their own negligence, for any injury or claim resulting from such athletic participation and agree to take no legal action against my school, the schools involved or the IHSAA because of any accident or mishap involving my athletic participation.

D. I consent to the exclusive jurisdiction and venue of courts in Marion County, Indiana for all claims and disputes between and among the IHSAA and me, including but not limited to any claims or disputes involving injury, eligibility or rule violation.

E. I give the IHSAA and its assigns, licensees and legal representatives the irrevocable right to use my picture or image and any sound recording of me, in all forms and media and in all manners, for any lawful purposes.

I HAVE READ THIS CAREFULLY AND KNOW IT CONTAINS A RELEASE PROVISION. (to be signed by student)

Date: _______________ Student Signature: ________________________________

Printed: _____________________________________________________________

II. PARENT/GUARDIAN/EMANCIPATED STUDENT CONSENT, ACKNOWLEDGMENT AND RELEASE CERTIFICATE

A. Undersigned, a parent of a student, a guardian of a student or an emancipated student, hereby gives consent for the student to participate in the following interschool sports not marked out:

B. Undersigned understands that participation may necessitate an early dismissal from classes.

C. Undersigned consents to the disclosure, by the student’s school, to the IHSAA of all requested, detailed financial (athletic or otherwise), scholastic and attendance records of such school concerning the student.

D. Undersigned knows of and acknowledges that the student knows of the risks involved in athletic participation, understands that serious injury, and even death, is possible in such participation and chooses to accept any and all responsibility for the student’s safety and welfare while participating in athletics. With full understanding of the risks involved, undersigned releases and holds harmless the student’s school, the schools involved and the IHSAA of and from any and all responsibility and liability, including any from their own negligence, for any injury or claim resulting from such athletic participation and agrees to take no legal action against the IHSAA or the schools involved because of any accident or mishap involving the student’s athletic participation.

E. Undersigned consents to the exclusive jurisdiction and venue of courts in Marion County, Indiana for all claims and disputes between and among the IHSAA and me or the student, including but not limited to any claims or disputes involving injury, eligibility, or rule violation.

F. Undersigned gives the IHSAA and its assigns, licensees and legal representatives the irrevocable right to use any picture or image or sound recording of the student in all forms and media and in all manners, for any lawful purposes.

G. Please check the appropriate space:

- The student has school student accident insurance.
- The student has football insurance through school.
- The student has adequate family insurance coverage.
- The student does not have insurance.

HEADS UP
CONCUSSION
IN HIGH SCHOOL SPORTS

A FACT SHEET FOR PARENTS

What is a concussion?
A concussion is a type of traumatic brain injury. Concussions are caused by a bump or blow to the head. Even a “ding,” “getting your bell rung,” or what seems to be a mild bump or blow to the head can be serious.

You can’t see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If your child reports any symptoms of concussion, or if you notice the symptoms yourself, seek medical attention right away.

What are the signs and symptoms of a concussion?
If your child has experienced a bump or blow to the head during a game or practice, look for any of the following signs of a concussion:

<table>
<thead>
<tr>
<th>SYMPTOMS REPORTED BY ATHLETE</th>
<th>SIGNS OBSERVED BY PARENTS/GUARDIANS</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Headache or “pressure” in head</td>
<td>• Appears dazed or stunned</td>
</tr>
<tr>
<td>• Nausea or vomiting</td>
<td>• Is confused about assignment or position</td>
</tr>
<tr>
<td>• Balance problems or dizziness</td>
<td>• Forgets an instruction</td>
</tr>
<tr>
<td>• Double or blurry vision</td>
<td>• Is unsure of game, score, or opponent</td>
</tr>
<tr>
<td>• Sensitivity to light</td>
<td>• Moves clumsily</td>
</tr>
<tr>
<td>• Sensitivity to noise</td>
<td>• Answers questions slowly</td>
</tr>
<tr>
<td>• Feeling sluggish, hazy, foggy, or groggy</td>
<td>• Loses consciousness (even briefly)</td>
</tr>
<tr>
<td>• Concentration or memory problems</td>
<td>• Shows mood, behavior, or personality changes</td>
</tr>
<tr>
<td>• Confusion</td>
<td>•</td>
</tr>
</tbody>
</table>
Concussion facts:

• A concussion is a brain injury that affects how your brain works.
• A concussion is caused by a bump, blow, or jolt to the head or body.
• A concussion can happen even if you haven’t been knocked out.
• If you think you have a concussion, you should not return to play on the day of the injury and not until a health care professional says you are OK to return to play.

What are the symptoms of a concussion?

Concussion symptoms differ with each person and with each injury, and they may not be noticeable for hours or days. Common symptoms include:

• Headache
• Confusion
• Difficulty remembering or paying attention
• Balance problems or dizziness
• Feeling sluggish, hazy, foggy, or groggy
• Feeling irritable, more emotional, or “down”
• Nausea or vomiting
• Bothered by light or noise
• Double or blurry vision
• Slowed reaction time
• Sleep problems
• Loss of consciousness

During recovery, exercising or activities that involve a lot of concentration (such as studying, working on the computer, or playing video games) may cause concussion symptoms to reappear or get worse.

What should I do if I think I have a concussion?

DON’T HIDE IT. REPORT IT. Ignoring your symptoms and trying to "tough it out” often makes symptoms worse. Tell your coach, parent, and athletic trainer if you think you or one of your teammates may have a concussion. Don’t let anyone pressure you into continuing to practice or play with a concussion.

GET CHECKED OUT. Only a health care professional can tell if you have a concussion and when it’s OK to return to play. Sports have injury timeouts and player substitutions so that you can get checked out and the team can perform at its best. The sooner you get checked out, the sooner you may be able to safely return to play.

TAKE CARE OF YOUR BRAIN. A concussion can affect your ability to do schoolwork and other activities. Most athletes with a concussion get better and return to sports, but it is important to rest and give your brain time to heal. A repeat concussion that occurs while your brain is still healing can cause long-term problems that may change your life forever.

How can I help prevent a concussion?

Every sport is different, but there are steps you can take to protect yourself.

• Follow your coach’s rules for safety and the rules of the sport.
• Practice good sportsmanship at all times.

If you think you have a concussion:

Don’t hide it. Report it. Take time to recover.

It’s better to miss one game than the whole season.
For more information, visit www.cdc.gov/Concussion.
SUDDEN CARDIAC ARREST
A Fact Sheet for Parents

FACTS
Sudden cardiac arrest is a rare, but tragic event that claims the lives of approximately 500 athletes each year in the United States. Sudden cardiac arrest can affect all levels of athletes, in all sports, and in all age levels. The majority of cardiac arrests are due to congenital (inherited) heart defects. However, sudden cardiac arrest can also occur after a person experiences an illness which has caused an inflammation to the heart or after a direct blow to the chest.

WARNING SIGNS
There may not be any noticeable symptoms before a person experiences loss of consciousness and a full cardiac arrest (no pulse and no breathing).

Warning signs can include a complaint of:
- Chest Discomfort
- Unusual Shortness of Breath
- Racing or Irregular Heartbeat
- Fainting or Passing Out

EMERGENCY SIGNS – Call EMS (911)
If a person experiences any of the following signs, call EMS (911) immediately:
- If an athlete collapses suddenly during competition
- If a blow to the chest from a ball, puck or another player precedes an athlete’s complaints of any of the warning signs of sudden cardiac arrest
- If an athlete does not look or feel right and you are just not sure

How can I help my child prevent a sudden cardiac arrest?
Daily physical activity, proper nutrition, and adequate sleep are all important aspects of lifelong health. Additionally, parents can assist student athletes prevent a sudden cardiac arrest by:
- Ensuring your child knows about any family history of sudden cardiac arrest (onset of heart disease in a family member before the age of 50 or a sudden, unexplained death at an early age)
- Ensuring your child has a thorough pre-season screening exam prior to participation in an organized athletic activity
- Asking if your school and the site of competition has an automatic defibrillator (AED) that is close by and properly maintained
- Learning CPR yourself
- Ensuring your child is not using any non-prescribed stimulants or performance enhancing drugs
- Being aware that the inappropriate use of prescription medications or energy drinks can increase risk
- Encouraging your child to be honest and report symptoms of chest discomfort, unusual shortness of breath, racing or irregular heartbeat, or feeling faint

What should I do if I think my child has warning signs that may lead to sudden cardiac arrest?
1. Tell your child’s coach about any previous events or family history
2. Keep your child out of play
3. Seek medical attention right away

Developed and Reviewed by the Indiana Department of Education’s Sudden Cardiac Arrest Advisory Board (1-7-15)
SUDDEN CARDIAC ARREST
A Fact Sheet for Student Athletes

FACTS
Sudden cardiac arrest can occur even in athletes who are in peak shape. Approximately 500 deaths are attributed to sudden cardiac arrest in athletes each year in the United States. Sudden cardiac arrest can affect all levels of athletes, in all sports, and in all age levels. The majority of cardiac arrests are due to congenital (inherited) heart defects. However, sudden cardiac arrest can also occur after a person experiences an illness which has caused an inflammation to the heart or after a direct blow to the chest. Once a cardiac arrest occurs, there is very little time to save the athlete, so identifying those at risk before the arrest occurs is a key factor in prevention.

WARNING SIGNS
There may not be any noticeable symptoms before a person experiences loss of consciousness and a full cardiac arrest (no pulse and no breathing).

Warning signs can include a complaint of:
- Chest Discomfort
- Unusual Shortness of Breath
- Racing or Irregular Heartbeat
- Fainting or Passing Out

EMERGENCY SIGNS – Call EMS (911)
If a person experiences any of the following signs, call EMS (911) immediately:
- If an athlete collapses suddenly during competition
- If a blow to the chest from a ball, puck or another player precedes an athlete’s complaints of any of the warning signs of sudden cardiac arrest
- If an athlete does not look or feel right and you are just not sure

How can I help prevent a sudden cardiac arrest?
Daily physical activity, proper nutrition, and adequate sleep are all important aspects of lifelong health. Additionally, you can assist by:
- Knowing if you have a family history of sudden cardiac arrest (onset of heart disease in a family member before the age of 50 or a sudden, unexplained death at an early age)
- Telling your health care provider during your pre-season physical about any unusual symptoms of chest discomfort, shortness of breath, racing or irregular heartbeat, or feeling faint, especially if you feel these symptoms with physical activity
- Taking only prescription drugs that are prescribed to you by your health care provider
- Being aware that the inappropriate use of prescription medications or energy drinks can increase your risk
- Being honest and reporting symptoms of chest discomfort, unusual shortness of breath, racing or irregular heartbeat, or feeling faint

What should I do if I think I am developing warning signs that may lead to sudden cardiac arrest?
1. Tell an adult – your parent or guardian, your coach, your athletic trainer or your school nurse
2. Get checked out by your health care provider
3. Take care of your heart
4. Remember that the most dangerous thing you can do is to do nothing

ACKNOWLEDGEMENT AND SIGNATURE FORM
FOR PARENTS AND STUDENT ATHLETES

Student Athlete’s Name (Please Print): ______________________________________________________

Sport Participating In (If Known): ___________________________ Date: ____________________

IC 20-34-7 and IC 20-34-8 require schools to distribute information sheets to inform and educate student athletes and their parents on the nature and risk of concussion, head injury and sudden cardiac arrest to student athletes, including the risks of continuing to play after concussion or head injury. These laws require that each year, before beginning practice for an interscholastic or intramural sport, a student athlete and the student athlete’s parents must be given an information sheet, and both must sign and return a form acknowledging receipt of the information to the student athlete’s coach.

IC 20-34-7 states that a high school athlete who is suspected of sustaining a concussion or head injury in a practice or game, shall be removed from play at the time of injury and may not return to play until the student athlete has received a written clearance from a licensed health care provider trained in the evaluation and management of concussions and head injuries.

IC 20-34-8 states that a student athlete who is suspected of experiencing symptoms of sudden cardiac arrest shall be removed from play and may not return to play until the coach has received verbal permission from a parent or legal guardian of the student athlete to return to play. Within twenty-four hours, this verbal permission must be replaced by a written statement from the parent or guardian.

Parent/Guardian - please read the attached fact sheets regarding concussion and sudden cardiac arrest and ensure that your student athlete has also received and read these fact sheets. After reading these fact sheets, please ensure that you and your student athlete sign this form, and have your student athlete return this form to his/her coach.

As a student athlete, I have received and read both of the fact sheets regarding concussion and sudden cardiac arrest. I understand the nature and risk of concussion and head injury to student athletes, including the risks of continuing to play after concussion or head injury, and the symptoms of sudden cardiac arrest.

______________________________________________________________ ____________________
(Signature of Student Athlete) (Date)

I, as the parent or legal guardian of the above named student, have received and read both of the fact sheets regarding concussion and sudden cardiac arrest. I understand the nature and risk of concussion and head injury to student athletes, including the risks of continuing to play after concussion or head injury, and the symptoms of sudden cardiac arrest.

(Signature of Parent or Guardian) (Date)
Concord Junior High Athletic Code of Conduct

As a Concord Junior High athlete/family member I agree to:

1. I will be on time and prepared for practice and games. I will have my ride to take me home at the appropriate time.
2. I will be respectful, courteous, and practice good sportsmanship to my teammates, opponents, coaches, and officials.
3. I understand it is a privilege to represent my school and proper behavior is required in class, practice and at contests.
4. I will use appropriate language at all times.
5. I will be respectful of the facilities available both here on our campus and at those places where we compete.
6. I will be alcohol, drug, and tobacco free. Violation of these can result in immediate dismissal.
7. I will communicate any scheduling issues with my coaches in advance. Commitment to practice and games is required.
8. It is my responsibility to care properly for any equipment and/or uniforms given to me by the school. Failure to do so can result in payment for damages and/or disciplinary action.

Violation of these statements can result in:

1. Disciplinary action/suspension from team
2. Dismissal from team
3. Banning of athlete/fan/family member from after-school activities.

I have read and understand these statements. By signing below, I agree to abide by these rules with the understanding that violation can result in disciplinary action.
