Physical activity, by its very nature, carries with it certain dangers and risks that cannot be eliminated regardless of the care taken to prevent or minimize the risk of harm. Some of these activities involve strenuous exertions of strength using various muscle groups, some involve quick movements involving speed and change of direction, some involve potential contact with equipment, fixed objects (e.g. goals), other participants (including participants that are older or younger and who may be larger or smaller in terms of weight and height) and various surface types, and others involve sustained physical activity that places stress on the cardiovascular and nervous systems. The specific risks vary from one activity to another, but in each activity the risks range from (1) minor injuries such as cuts, bruises, muscle strains and sprains, to (2) major injuries such as broken or fractured bones, concussion or lost teeth, to (3) catastrophic injuries, such as heart attacks or fractured skull or those that cause disfigurement, loss of mental capacity, loss of sight, speech or hearing, paralysis or death.

The undersigned Parent/Guardian acknowledges that risk of injury from the activities involved in the Junior Soccer Camp is significant, including the potential for concussions, other brain or head injuries and death. **THE UNDERSIGNED PARENT/GUARDIAN, FOR THEMSELVES AND ON PARTICIPANT'S BEHALF, KNOWINGLY AND FREELY ASSUME ALL RISKS IN ANY WAY RELATING TO, ARISING FROM OR ASSOCIATED WITH THE PARTICIPANT'S PARTICIPATION IN ANY ACADEMY-RELATED ACTIVITIES, BOTH KNOWN AND UNKNOWN, even if arising from the negligence of Fort Dorchester High School, Any Participating Coaches or Players.**

I have read and understand the above and accept these terms in consideration for my child's participation in the FDHS Junior Soccer Camp.
