

# SCCS Athletic Hall of Fame

## BOE approved Bylaws (9/22/2015)

The Springboro High School Athletic Hall of Fame was conceived in 1980 to honor a proud athletic tradition, and the hundreds of both males and females who have contributed to it in many ways.

A 12-person committee was organized to develop guidelines for eligibility and selection.

These guidelines were established at that time.

1. The selection for any given year will be made by a committee chosen that year by the athletic director. Composition of the committee must include the athletic director, and some combination of alumni, former athletes, former coaches and administrators, current coaches, current faculty members, and two SCCS Board of Education members.

2. To be eligible, an athlete must:

- a. have been graduated for at least five years
- b. have excelled at the high school level
- c. have received recognition on the state level; participation in a state final event, or selection to an All-Ohio team.
- d. have contributed substantially during his/her career, which would include the establishing of significant school, conference or state records, or a demonstration of unique versatility.

\* Any of the above requirements can be waived by a unanimous vote of the committee in a given year. All statistics and/or awards must be verifiable.

3. Others who have contributed can be considered.

- a. Coaches: based on longevity, impressive records, or singular achievement
- b. Administrators: based on their commitment to the health of the athletic program, individual contributions, support, involvement with the Athletic Boosters, and a continuing role in guiding athletic endeavors.
- c. Coaches or administrators may be considered when they are no longer working in that position for which they are nominated.

4. Nominations

- a. Candidates must be nominated annually. No carry over nominations from previous years will be allowed.
- b. All nominations should be in by a date assigned by the athletic director and notification of new inductees should be made after the vote.

### 5. Voting process

- a. The committee will meet annually.
- b. Each nominee will be considered individually and a blind vote will be taken. A 2/3 majority vote is needed to be considered.
- c. Those considered will be voted on using a numerical scoring system.
- d. A maximum of 4 people will be selected from that group.

### 3. Induction

- a. The induction will occur during a home boys' basketball game determined by the athletic director. The athletic director may choose to change the venue, or to suspend inductions in any given year.

### 4. Revisions in Criteria

- a. Any of the above criteria can be changed with a 2/3 majority vote of the committee

In addition, at the time of the selection process, the committee will consider any new additions to the Springboro High School **Super Fan Hall of Fame** and must receive a majority vote of the committee.

## **Retiring a Jersey**

Since this committee meets once a year, it will be the group responsible for considering the retirement of an athletic jersey. A jersey may be retired by the following process.

- An athlete will only be considered at least 10 years after they graduate
- Suggestions for retired jerseys will be made to the athletic director who will take them to the Hall of Fame Committee when they meet in November
- There has to be recognition on a NATIONAL level, which involves All-American recognition, active participation in a nationally-recognized event, setting a national record, major success at the college level, or participation at the professional level.
- To retire a jersey, there must be a unanimous vote by the committee that year.

Revised: 5/27/15
