

Hoosier Cup

Sports Medicine

The Hoosier Cup provides certified athletic trainers during the tournament to assist players with the care and prevention of athletic injuries. Athletic trainers will evaluate any on-the-field injury and call emergency personnel (911) if needed.

If your player(s) need to use the services of an on-site athletic trainer prior to a game, please bring any required supplies (tape, prewrap, etc.) with you.

Bags of ice for athletic injuries will be available as needed.
