There will be three separate sessions each day. Gold Medal Squared will provide a coach for every 12-15 athletes on each court.

## Daily Schedule

**SESSION 1:**

**SESSION 2:**

**SESSION 3:**

### Please Note!

## GMS Pedigree

Programs running GMS systems have won at every level of the game: Olympic Gold Medals, NCAA Championships, European Professional League titles, JO Championships and more. But our greatest successes have come at the Junior high and high-school level. During our 20+ years of running camps, over 500 schools have won State High School Championships. Hundreds more have won regional/sectional championships, and virtually every school that holds a camp has an improved season over the previous one. We are the leaders in training volleyball players/teams and we have the results to prove it.

- 🏆 **Five Olympic Medals**
- 🏆 **12 NCAA D1 Championships**
- 🏆 **10 Junior Olympic Club Championships**
- 🏆 **Over 500 High School State Championships**
- 🏆 **Thousands of League, District, and Regional Champs**

## Staff

We also understand that the quality of the camp staff determines the quality of the camp. We provide our staff with rigorous training, quality reviews, and the best teaching tools available. Most of our lead coaches are current college coaches who run the Gold Medal Squared system in their gyms. Our staff loves to coach - many have been with us for over fifteen years - and it shows in our clients' achievements.

## The GMS Method

The teaching methods we use during a GMS camp represent over 100 years of coaching experience and the scientific study of teaching volleyball at all levels. These methods, used in some of the most elite gyms throughout the country, have been consistently applied to our camp curriculum. We have refined our system over more than 20 years of running camps, bringing with us an unmatched level of experience and success.

***Proven Principles. More Wins.***
