

May 1, 2020

Over the past few months we have extensively monitored the evolving reality and impact of COVID-19 and at this time, as it relates to our annual offering of community sports physicals, due to continued restrictions on mass gatherings we will be postponing all dates for physicals indefinitely. At the center of all discussions and decisions has been the overall safety and well-being of all involved – student athletes, family members, physicians, and staff.

We will continue to monitor any and all announcements from OHSAA, ODE, and the Governor's office. We will develop and communicate our plan for physicals when it is safe to resume events with large groups. If you have any questions please feel free to email the athletic trainer at your school or any member of our leadership team.

Thank you for your patience,

OhioHealth Sports Medicine
