

WW IDEA Private Academy

September 11, 2015

To Whom it May Concern,

Olivia [REDACTED] has been my student for the last several years. She graduated from WWIDEA's Private Academy September 11, 2015, with honors. WWIDEA is an accredited private school, accredited through AdvancEd. <http://www.worldwide-idea.org/>.

I am honored to be asked to write a letter of recommendation for Olivia. As a student, Olivia did not shy away from challenges and she demonstrated a determination to finish high school, even while working full time. Olivia is committed to gaining as much knowledge as possible to broaden the understanding of her passion, interests and skills. Olivia surpassed our graduation requirements by completing additional electives in the fields of Science and Math. Olivia did not neglect the finer and physical areas, staying balanced through her involvement in orchestra and dance team

On a personal level, I've witnessed Olivia's determination to continue her education and her focus to enter the field of Psychology. She is an articulate and highly intelligent young woman!

If you are looking for a deserving student to offer an award, I wholeheartedly ask that you consider Olivia [REDACTED]. I'm certain she will leave the same impression on you as she has left on me. If you have any questions or need further information, please contact me or our Director of Student Services, Jennifer Lutey.

Regards,

Terri Beede

WW IDEA Private Academy

February 1, 2013

Dear Scholarship Review Team,

Abdallah [REDACTED] has been my student for the last several years. He graduated from WWIDEA's Private Academy in 2012 with honors. WWIDEA is an accredited private school, <http://www.worldwide-idea.org/>. Our accreditation is through North West Accreditation, one of the United States' six acknowledged accreditation agencies.

I am honored to be asked to write a letter of recommendation for Abdallah. As a student, Abdallah did not shy away from challenges and he demonstrated a love of learning, especially in the field of science. He was committed to gaining as much knowledge as possible to broaden the understanding of his passion, interests and skills and open doors to various schools of academia. Abdallah surpassed our graduation requirements by taking seven additional electives, and those electives were not of a superfluous nature! Those electives included Spanish I & II, Arabic I, II & III, Physical Science, Molecular Biology, Geography and Islamic Studies. Abdallah did not forget to incorporate physical education into his day and stayed balanced through his involvement in basketball, soccer and weight training.

On a more personal level, I witnessed Abdallah commitment to his education when he successfully moved through his coursework during the midst of sadness and change due to the long-term sickness and eventual death of a close family member.

If you are looking for a deserving student to offer an award, I wholeheartedly ask that you consider Abdallah [REDACTED]. I'm certain he will leave the same impression on you as he has made on me. If you have any questions or need further information, please contact me or our Director of Student Services, Jennifer Lutey.

Regards,

Terri Beede
