## ClassBright Evaluate adds innovation that matters

- Easy-to-use and mobile-friendly
- Reports for data-driven personnel decisions
- Multiple, custom evaluation rubrics for teachers, principals, and classified staff
- Customizable walkthrough observation forms
- Date-stamped notes during formal observations, including pre- and post-conference summaries

### Supports a clear, transparent, & collaborative evaluation process

- **Aligns evidence to rubric's performance criteria (or indicators)**
  - » Educators clearly understand how collected evidence relates to the rubric, prompting in-time discussions and coaching opportunities
  - » Observers and educators can view gaps in rubric data collection
  - » Portfolio evidence is organized within the rubric, explicitly showing relevance to evaluation
- **Unique Snippet data-collection tool** enables observers and educators to add performance evidence including videos, photos, and documents
- **Portfolio additions trigger** immediate notification to teacher
- **Ability to input custom examples** of indicator performance levels (Exemplary, Proficient, etc.) supporting clear performance expectations and inter-rater reliability
- **Enables multiple observers** to add performance evidence to a staff member's portfolio

"Like many other — particularly rural — school districts, we were initially struggling with our state's teacher evaluation requirements and the limited options available. Brightways Learning came through for us like no other education vendor could."

— Scott MacManus, Superintendent

**Affordable for schools and districts of all sizes.**

Our trainers can lead customized professional development that reaches beyond the basic technical training into deeper understanding of evaluation best practices.
