

eMTB Adventure: Greenhorn Gulch

Sun Valley, Idaho

OVERVIEW:

Stunning Western landscapes, narrow singletrack, and a riot of springtime wildflowers make the Greenhorn Gulch trails a sure-fire destination for eMTB'ing. This loop has an instant backcountry feel as soon as you leave the trailhead. From there, the route climbs, twisting westward into the hilly grasslands and ghostly fire-scorched forests. A fun drop back towards the trailhead at the halfway point allows riders to replace their battery before tackling the second loop to the south. Cresting at nearly 7,500' sets up a long, grin-inducing descent through aspen groves with stunning views to the east.

DIRECTIONS TO TRAILHEAD:

From Hailey, drive north on Hwy 75 for 6.2 miles to Gimlet. Turn left on Greenhorn Gulch Rd and drive 3.5 miles to the trailhead.

PLEASE FOLLOW THESE GENERAL GUIDELINES FOR RESPONSIBLE EMTB RIDING:

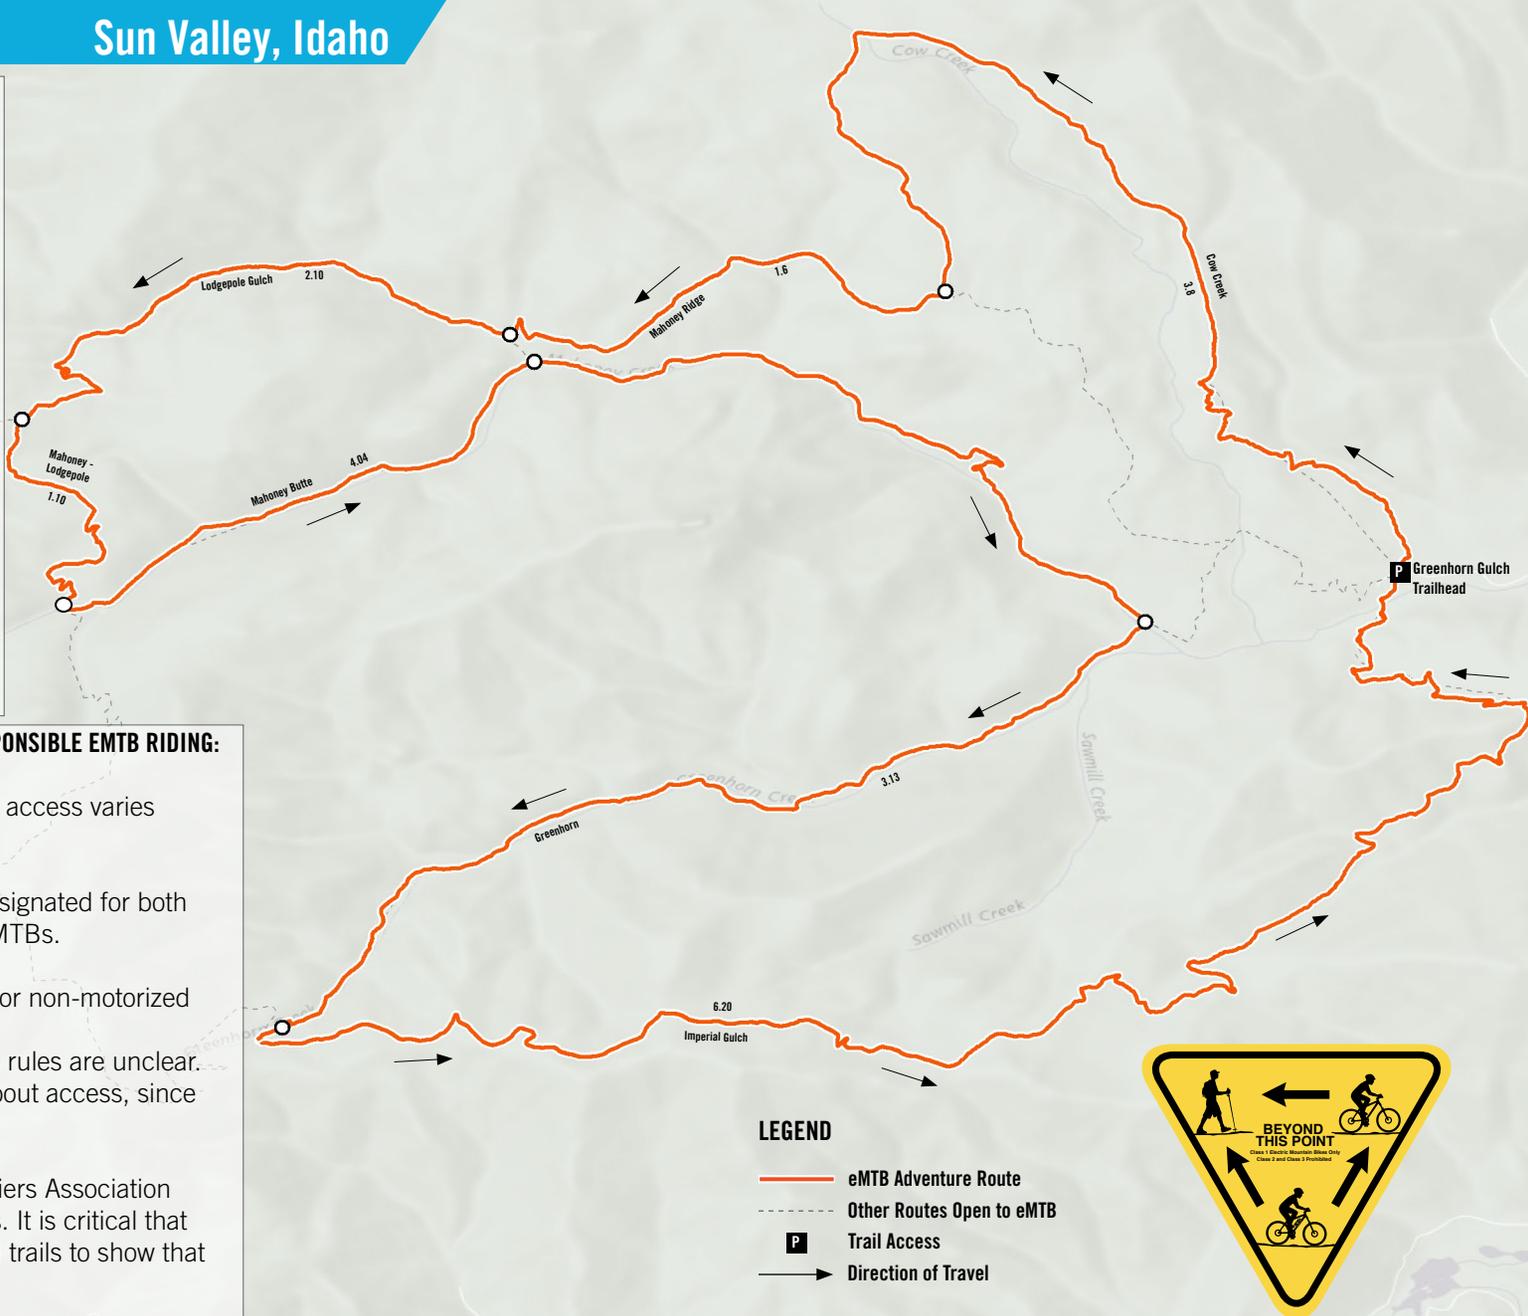

On federal, state, county and local trails, eMTB access varies significantly.

Generally speaking, any natural surface trail designated for both motorized and non-motorized use is open to eMTBs.

eMTBs may not be allowed on trails managed for non-motorized activities.

Do not ride your eMTB in areas where the local rules are unclear. When in doubt, ask your local land manager about access, since local land rules change frequently.

PeopleForBikes and the Bicycle Product Suppliers Association are working to promote better access to eMTBs. It is critical that eMTB riders ride legally and only on authorized trails to show that mountain bikers are responsible users.

THE BASICS

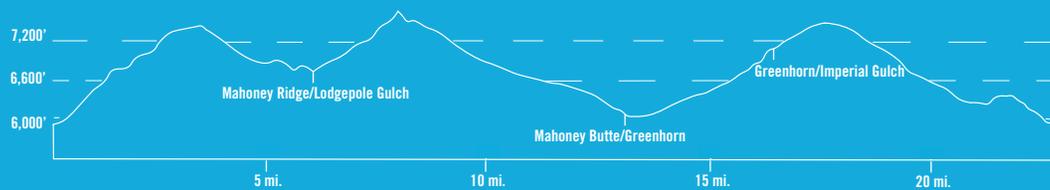

START: Greenhorn Gulch Trailhead

END: Same as Start

MILEAGE: 22.6

ELEV GAIN/LOSS: 4,920'

RIDE TIME: 3-4 hours
