## Known Issues VIMS v5.16.12.14

| JIRA Ticket | Affects All Users? | Issue Identified  | Expected Results  | Work Around   |
|-------------|--------------------|---|---|---|
| N/A         | Yes                | When creating or editing facilities, if postal code is entered in lower case or without a space pop up error message will appear during entry and at time of saving to warn user of the invalid format. | System to auto-correct invalid formatting of postal codes when entered (i.e. auto-capitalize lower case letters or enter space).          | Enter the postal code using capital letters and include the space in the middle (e.g. X1X 1X1)<br><br>This work around will be included in the Known Issues and Best Practices document.  |
| N/A         | Yes                | Rejected transfer print out does not list the sending and receiving ORG/Facility correctly. Instead lists the sender and receiver as per the original transfer.   | The rejection transfer print out would list the sender as the rejecting facility and the receiver as the receiving facility.              | No work around.   |
| HDAB-477    | Yes                | Create Order, Reconciliation and Search/Add page will not submit if User includes spaces after dose number value.   | User receives message to remove spaces before submitting an order, reconciliation or adding a new lot number through the Search/Add page. | Submitting of the given page responds with an <i>“Invalid field value”</i> or <i>“Order Qty must be a positive integer”</i> error message and does not allow the User to proceed when the given page contains spaces. If this error is received, User should review entries to remove spaces after entries. |
| HDAB-480    | Yes                | Rejection reason on transfer print out does not include the rejection reason. Only says “Doses rejected by provider”.   | Printable documents match the information on the screen.  | User can view the rejection reason in the Transfer Detail screen prior to deleting the transfer. Rejected transfer documents are not usually printed.   |
| HDAB-499    | No                 | Search/Add page allows Users with Cold Storage Locations active to add less quantity to lot sets than is actually available.  | An error message would show if the total quantity on hand does not match the total quantity in locations.                                 | No work around.   |
| HDAB-500    | Yes                | When a vaccine is removed from the Vaccine Return screen the Lot log entry lists the incorrect date.  | The date either indicates the date the product was removed from listing OR spoiled/expired/recalled from inventory.                       | No work around.   |

| <b>JIRA Ticket</b> | <b>Affects All Users?</b> | <b>Issue Identified</b>   | <b>Expected Results</b>   | <b>Work Around</b>  |
|--------------------|---------------------------|---|---|---|
| HDAB-505           | No                        | Allocation of lot numbers are determined by the total doses in the PVD, instead of doses available in non-excluded pick locations.            | Pick rules are followed according to available dose numbers per pick location & not total doses in the Depot.   | No work around.   |
| HDSD-1299          | No                        | For ORGs with cold storage location activated, when choosing the product to pick AVI considers the entire quantity in the ORG.                | Expected that AVI would only consider the quantity in the non-excluded locations  | No work around  |
| HDSD-2041          | Yes                       | Training video hyperlinks on the AVI Training environment homepage will not open the training videos.   | The training videos would be accessible from the production and training environments   | The hyperlinks on the production environment will open the training videos  |
| HDSD-2961          | No                        | Facility names with invalid characters are unable to be inactivated   | Facility names with invalid characters (? * % & = < >) cannot be inactivated  | Edit the facility name in the Facility Maintenance Detail screen to remove the invalid character and then inactivate the facility |
| HDSD-3607          | Yes                       | Wastage Report - Summation total for 'Number of doses expired/spoiled' not present and vaccine damaged transaction type is not included       | The total for 'Number of doses expired/spoiled' is viewable and transaction type 'shipment damaged' in rejected transfers is included in Aggregate Wastage Report | No work around  |
| HDSD-3749          | No                        | Broken usernames containing apostrophe cannot be inactivated  | Users with an apostrophe in the username can be inactivated   | No work around  |
| HDSD-3835          | Yes                       | Reconciliation Screen allows half doses to be reconciled out  | Expected that only full doses of vaccine can be reconciled out.   | No work around  |
| HDSD-4024          | Yes                       | Insert Stamp and Date in Lot Number Inventory Log for the transaction type 'To be transferred but discarded (never transferred)' do not align | The Insert Stamp and Date in the Lot Number Inventory Logs match  | No work around  |
| HDSD-4074          | No                        | Emails that do not end in typical format (ie: .com .org .net .ca) cannot be added to the facility email                                       | All functional email domains can be added to a facility email   | No work around  |
| HDSD-4113          | No                        | Provider Contact Report does not have a postal code search filter   | Expect that postal codes can be included in the Provider Contact Report   | No work around  |

| JIRA Ticket | Affects All Users? | Issue Identified   | Expected Results  | Work Around    |
|-------------|--------------------|--|---|----------------|
| HDSD-4119   | Yes                | Lot Number Summary Report – Doses in Transit is not accurate                         | Expect that the Doses in Transit column reflects accurate data  | No work around |
| HDSD-4160   | No                 | Transfer was decremented from inventory but disappeared on provider end              | Transfers created will be able to be received appropriately on provider end   | No work around |
| HDSD-4260   | Yes                | Order Reports are not searchable by vaccine name, only searchable by vaccine type    | Order reports will filter out specific vaccine name, rather than vaccine type.  | No work around |
| HDSD-4289   | Yes                | Incorrect VFC PIN is displayed in the Lot Number Inventory Log of rejected transfers | The VFC PIN from the provider will display in the Lot Number Inventory Log and the Inventory Transaction Report for the 'Doses rejected by provider' transaction type, rather than the ORG that the provider is associated with | No work around |
| HDSD-4289   | Yes                | Orders are fulfilled but not decremented from AVI inventory                          | Orders that are sent through the 'Approve and Print' and 'Ship' process will decrement inventory appropriately  | No work around |

## Fixes in v5.16.12.14

### HDSD-1297 – Add ‘Product Problem’ as a reconciliation reason to allow users to remove products that are unusable due to product issue from their inventory

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** Add “Product Problem” as a reconciliation reason under the Category: Wasted. This reason is available in the reconciliation screen and in the Search/Add lot maintenance screen. ‘Product Problem’ will allow users to remove product that are unusable due to a product issue in their inventory.

**Resolution:** Added ‘Product Problem’ as a reconciliation reason to AVI.

## HDSD-2299 – Include AVI environment in AVI email subject line for new users to set up a password

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** Automated email sent from AVI for new AVI users to set up a password to include the AVI environment. This is to help identify the AVI environment when users are set up in AVI Production and AVI Training environments.

**Resolution:** Added the AVI environment to the subject line of automated emails sent from AVI for new users to set up a password

## HDSD-2749 – When setting up a new ORG, 'County' is not initially selectable

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** When setting up a new ORG, 'County' is not initially selectable. A new ORG is created by entering in all required information, but 'County' has no drop down options to choose. User must attempt to save ORG and receive an error message 'Error: County is required' in order to prompt the 'County' drop down menu options to appear.

**Resolution:** 'County' drop down menu is functional to create a new ORG.

## HDSD-2762 – View Accountability Records function is not functional

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** The ability to view Accountability Records is not functional when Accountability Requirements are enabled.

**Resolution:** Accountability Records are available for use when Accountability Requirements are enabled.

## HDSD-3401 – Daily Inventory Report data is inconsistent throughout the day

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** The Daily Inventory Report is updated at midnight each night, but generating the Daily Inventory Report throughout the day can show inconsistent data.

**Resolution:** The Daily Inventory Report is now in real time.

### **HDS-3501 – Double clicking the Create Transfer or Delete Transfer or will incorrectly decrement or add inventory**

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** When the Create Transfer or Delete Transfer buttons are double clicked, inventory will be incorrectly decremented or added back into inventory.

**Resolution:** A delay has been added to prevent double clicking for the Create Transfer and Delete Transfer buttons.

### **HDS-3596 – Add Serum Institute of India (SII) as manufacturer**

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** Add Serum Institute of India as manufacturer in the Product Settings and Search/Add screens. Manufacturer code: SII.

**Resolution:** Serum Institute of India (SII) added to Product Settings and Search/Add screens.

### **HDS-4179 – Change transaction type from deleted transfers from ‘Received from another provider’ to ‘Transfer cancelled by provider’**

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.10

**Description:** Add ‘Transfer cancelled by provider’ as a transaction type to the Lot Number Inventory Log and the Inventory Transaction Report for deleted transfers. This will help differentiate incoming transfers ‘Received from another provider’ versus deleted transfers ‘Transfer cancelled by provider’.

**Resolution:** ‘Transfer cancelled by provider’ added to differentiate deleted transfers in the Lot Number Inventory Log and the Inventory Transaction Report.

## Statement of Work – v.5.16.12.14

### Wastage Report Change Request – Add new adjustment reason: Wastage Correction

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.14

**Description:** Add positive adjustment reconciliation reason codes to the database to allow users to make lot adjustments for vaccines wastage reconciliation errors. The new Wastage Correction reason codes will be added to the Add Doses Adjustment screen on the Lot Number Maintenance Page [Update] and the Reconciliation screen. The Aggregate Wastage Report will be updated to allow incorporation of lot adjustments with the new Wastage Correction reason codes and exclude Wastage Correction from the total wastage counts. For the Expired, Spoiled, and Recall Categories, Wastage Correction – Return is to be used. For reconciliation errors involving the Wastage Category, Wastage Correction – Disposed is to be used.

**Resolution:** Added the new reconciliation reasons: Wastage Correction – Return and Wastage Correction – Disposed.

### HDSD-4172 – Internet Explorer Wastage Correction – Return pop up not functional

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.13

**Description:** When using Internet Explorer for AVI, the Wastage Correction – Return pop up is not functional and no Doses Wasted and Returned option can be selected.

**Resolution:** The pop-up for the Wastage Correction – Return reconciliation reason is functional.

### HDSD-4181 – Wastage Correction – Return pop up contains a spelling error

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.13

**Description:** The Wastage Correction – Return pop-up has a spelling error in the Reconciliation screen when there are no wastage return events available for selection. The pop-up says: 'There are no wasatage return event to be corrected. Please select a different reason.'

**Resolution:** The 'wasatage' spelling error in the Wastage Correction – Return pop-up has been corrected.
