---

*VIMS v5.16.12.15 Release Date: November 23, 2021*

Known Issues VIMS v5.16.12.15 .....	2
Fixes in v5.16.12.15.....	5
HDS-2875 – Add Covid Vaccine Types in AVI .....	5
HDS-5196 – URGENT: Add Vaccine Type to AVI for new incoming Covid vaccines.....	5
Statement of Work – v.5.16.12.15.....	6

## Known Issues VIMS v5.16.12.15

JIRA Ticket	Affects All Users?	Issue Identified	Expected Results	Work Around
N/A	Yes	When creating or editing facilities, if postal code is entered in lower case or without a space pop up error message will appear during entry and at time of saving to warn user of the invalid format.	System to auto-correct invalid formatting of postal codes when entered (i.e. auto-capitalize lower case letters or enter space).	Enter the postal code using capital letters and include the space in the middle (e.g. X1X 1X1)  This work around will be included in the Known Issues and Best Practices document.
N/A	Yes	Rejected transfer print out does not list the sending and receiving ORG/Facility correctly. Instead lists the sender and receiver as per the original transfer.	The rejection transfer print out would list the sender as the rejecting facility and the receiver as the receiving facility.	No work around.
HDAB-477	Yes	Create Order, Reconciliation and Search/Add page will not submit if User includes spaces after dose number value.	User receives message to remove spaces before submitting an order, reconciliation or adding a new lot number through the Search/Add page.	Submitting of the given page responds with an <i>"Invalid field value"</i> or <i>"Order Qty must be a positive integer"</i> error message and does not allow the User to proceed when the given page contains spaces. If this error is received, User should review entries to remove spaces after entries.
HDAB-480	Yes	Rejection reason on transfer print out does not include the rejection reason. Only says "Doses rejected by provider".	Printable documents match the information on the screen.	User can view the rejection reason in the Transfer Detail screen prior to deleting the transfer. Rejected transfer documents are not usually printed.
HDAB-499	No	Search/Add page allows Users with Cold Storage Locations active to add less quantity to lot sets than is actually available.	An error message would show if the total quantity on hand does not match the total quantity in locations.	No work around.

<b>JIRA Ticket</b>	<b>Affects All Users?</b>	<b>Issue Identified</b>	<b>Expected Results</b>	<b>Work Around</b>
HDAB-500	Yes	When a vaccine is removed from the Vaccine Return screen the Lot log entry lists the incorrect date.	The date either indicates the date the product was removed from listing OR spoiled/expired/recalled from inventory.	No work around.
HDAB-505	No	Allocation of lot numbers are determined by the total doses in the PVD, instead of doses available in non-excluded pick locations.	Pick rules are followed according to available dose numbers per pick location & not total doses in the Depot.	No work around.
HDSD-1299	No	For ORGs with cold storage location activated, when choosing the product to pick AVI considers the entire quantity in the ORG.	Expected that AVI would only consider the quantity in the non-excluded locations	No work around
HDSD-2961	No	Facility names with invalid characters are unable to be inactivated	Facility names with invalid characters (? * % & = < >) cannot be inactivated	Edit the facility name in the Facility Maintenance Detail screen to remove the invalid character and then inactivate the facility
HDSD-3607	Yes	Wastage Report - Summation total for 'Number of doses expired/spoiled' not present and vaccine damaged transaction type is not included	The total for 'Number of doses expired/spoiled' is viewable and transaction type 'shipment damaged' in rejected transfers is included in Aggregate Wastage Report	No work around
HDSD-3749	No	Broken usernames containing apostrophe cannot be inactivated	Users with an apostrophe in the username can be inactivated	No work around
HDSD-3835	Yes	Reconciliation Screen allows half doses to be reconciled out	Expected that only full doses of vaccine can be reconciled out.	No work around
HDSD-4024	Yes	Insert Stamp and Date in Lot Number Inventory Log for the transaction type 'To be transferred but discarded (never transferred)' do not align	The Insert Stamp and Date in the Lot Number Inventory Logs match	No work around
HDSD-4074	No	Emails that do not end in typical format (ie: .com .org .net .ca) cannot be added to the facility email	All functional email domains can be added to a facility email	No work around

<b>JIRA Ticket</b>	<b>Affects All Users?</b>	<b>Issue Identified</b>	<b>Expected Results</b>	<b>Work Around</b>
HDSD-4113	No	Provider Contact Report does not have a postal code search filter	Expect that postal codes can be included in the Provider Contact Report	No work around
HDSD-4119	Yes	Lot Number Summary Report – Doses in Transit is not accurate	Expect that the Doses in Transit column reflects accurate data	No work around
HDSD-4160	No	Transfer was decremented from inventory but disappeared on provider end	Transfers created able to be received appropriately on provider end	No work around
HDSD-4260	Yes	Order Reports are not searchable by vaccine name, only searchable by vaccine type	Order reports will filter out specific vaccine name, rather than vaccine type.	No work around
HDSD-4259	Yes	Incorrect VFC PIN is displayed in the Lot Number Inventory Log of rejected transfers	The VFC PIN from the provider will display in the Lot Number Inventory Log and the Inventory Transaction Report for the 'Doses rejected by provider' transaction type, rather than the ORG that the provider is associated with	No work around
HDSD-4289	Yes	Orders are fulfilled but not decremented from AVI inventory	Orders that are sent through the 'Approve and Print' and 'Ship' process will decrement inventory appropriately	No work around
HDSD-4925	Yes	Training environment email settings (link and subject) are overwritten with Production settings	Training and Production environments to retain their own email settings after monthly data transfer.	AVI Lead to fix/change every month after data transfer.
HDSD-5113	Yes	VFC PIN dropdown is not Populating with Receiving Facility's VFC PIN upon selection of facility	VFC PIN dropdown to populate with the Receiving Facility's VFC PIN after a receiving facility is selected on the Create Transfers screen.	No work around

## Fixes in v5.16.12.15

### HDSD-2875 – Add Covid Vaccine Types in AVI

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.14

**Description:** Fix grammatical error found in the 2 vaccines types: COVID -19 Recomb - Sub Unit/Protein Nano and COVID -19-Virus Like Partical.

**Resolution:** Grammatically correct vaccine types: COVID-19 Recomb - Sub Unit/Protein Nano and COVID-19 Virus Like Particle

### HDSD-5196 – URGENT: Add Vaccine Type to AVI for new incoming Covid vaccines

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.14

**Description:** Add the following vaccine types in the Product Settings and Search/Add screens:  
COVID-19 BNT162b2 - mRNA Pediatric 5-11 years  
COVID-19 BNT162b2 - mRNA Pediatric 2-4 years

**Resolution:** Add above vaccine types to Product Settings and Search/Add screens.

## Statement of Work – v.5.16.12.15

**Add ability to Search by VFC PIN or Facility, Receiving Facility street address, and change Create Transfer dropdowns to be editable/dynamic/searchable.**

**Reported by:** PVD

**Version Reported in:** VIMS v5.16.12.15

**Description:** To implement the following changes into the *Create Transfers* screen:

- Change all dropdowns to be editable/dynamic/searchable
- All dropdowns are dependant on each other and will all update if a value is changed
- Add ability to search by VFC PIN
- Display receiving facility street address upon selecting a facility

**Resolution:** Added the new reconciliation reasons
