

SVC COVID-19 Update on Services

Every Sunday in July we will be having two identical indoor services, one at 9 a.m. and the second at 10:45 a.m. The purpose of having two services is to keep attendance below 200 at each service. Within the Worship Center, we ask you to sit in family clusters, that you social distant, that you do not sit directly in front or back of any other groups, and that you sit at least one row apart.

The cry room will be available for families with children who want to use it, as will the entire adult educational wing where Livestream will be available in four rooms. This will allow for those who would rather not congregate with a larger number of people the comfort of being in a room with very few others. Two of the rooms will be masks only (206 and 208). Every effort for safety will be made.

We encourage wearing masks while indoors and ask that you wear a mask while singing.

If you have any questions, please let a church staff member know.
