

# First Grade News

Week of: August 23-27, 2021

## What's Happening!

Welcome to the start of first grade! We will be having so much fun learning and growing this year!

We are excited to be back at school and creating a classroom family once again.

## A Note From the First Grade Teachers

Included in this packet, you will find flash cards to cut out and a decodable book. These are your child's "homework" for first grade. Practice reading the words and books every night to help your child become a better reader.

## A Peek At What We Are Learning

### Reading

We are reviewing letter names and sounds, as well as High Frequency Words from Kindergarten.

### Math

We are using popsicles to help us jump-start our math brains! We are practicing counting by ones, twos, fives, and tens. We are exploring number patterns using number lines and the 120 chart.
