

IACRAO - The Idaho Association of Collegiate Registrars and Admissions Officers (IACRAO) is a nonprofit professional education association. The purpose of IACRAO is to encourage the communication of information and interchange of ideas on problems of common interest, educate students through the cooperation of secondary and post-secondary institutions, ethically distribute information concerning post high school opportunities, foster a friendly spirit of unity of cooperation among institutions, encourage individual and institutional growth in and through the profession, and advance the status of the profession and organization.

Idaho colleges are still accepting applications. Use this Admissions Directory Link for easy application access to Idaho colleges: <https://iacrao.weebly.com/directory.html> or use the simple application of [Apply Idaho](#).

About Higher Education Day

Higher Education Day – Each Spring, representatives from Idaho’s Secondary Schools of Higher Education visit Canyon Ridge High School juniors. Even though some students may not be planning on continuing their post high school education and training in Idaho, all juniors are required to attend with an open mind, in case they change their mind. Information provided to juniors include curriculum, costs, financial aide, housing, programs, etc. Technical as well as academic programs were discussed. The [Higher Education Magazine 2019-2020](#) is part of the handouts for Higher Education Day. This a great resource for reasons why a college degree should be considered, salaries based on educational attainment, cost comparison of Idaho colleges just to name a few.
