## TFSD Parents/Families

Dear TFSD Families, Please remember that the annual student information update is now open. You should have received an email from [powerschool@tfsd.org](mailto:powerschool@tfsd.org) with information about how to access your student's information form. If you did not receive the snap code, you can also access the information update forms by logging into the PowerSchool Parent Portal. The information forms are located on the lower left side of the parent portal. Completing the annual student information update is important because it provides the TFSD with an accurate idea of how many students will be attending TFSD schools in the fall, which allows us to make sure staffing levels match enrollment numbers. For families currently participating in the TFSD distance learning options (Twin Falls Virtual School House also known as Venture or Idaho Digital Learning Academy also known as IDLA), this is a good time to indicate if you plan to return to in-person instruction and if so, at which school they would attend. If you have already completed the information update form, THANK YOU! Completing the annual update ensures that our school system can run smoothly in the upcoming school year. Best, Eva Craner Public Relations Director 208-732-7508
